PESTILENCE, SNOW FLOOD FLOOD WATERS: 100,000 RECRUITS IN FIGHT TO SAVE DIKES

DOCK STRIKE MAY END MONDAY

Shipowners, Unions in
New Accord On
Issues

SAN FRANCISCO. (AP)—tentative agreement between longshoremen and shipowners was interpreted today by observers as the virtual end of the 92-day Pacific coast maritime strike.

"It is possible that the men will go back to work Monday," said Henry Schmidt, president of the San Francisco local of the International Longshoremen's association.

He predicted other necessary agreements would be quickly reached and the accords promptly submitted to 38,000 striking maritime workers for approval. Spokesmen who declined to be identified said they believed this impetus might result in tentative agreements involving all seven unions by the end of the week, with an ensuing close of the costly strike.

Climax to Argument
The accord between shipowners and longshoremen came after a conference at which similar tentative agreement was reached between the shipowners and clerks and checkers, who are affiliated with the I. L. A.

It climaxed a day in which peace discussion blew hot and cold and left federal conciliators offering to "assist in negotiations" leading up to settlement by arbitration, long advocated by employers but refused by the unions.

The shipowner-I. L. A. accord hinged on settlement of issues involving wages and hours, and questions of jurisdiction affecting sailors and longshoremen on coastal vessels.

Bridges Confirms Deal
Shipowner Spokesman I. G. Plant, said he was "highly gratified" at the turn of events. He and Harry Bridges, I. L. A. coast president, confirmed the tentative accord.

Under it, longshoremen will receive the pre-strike wage scale of 95 cents an hour for six hours work between 8 a. m. and 5 p. m., and \$1.40 hourly for overtime. Employers agreed they would not insist upon relief gangs before one p. m., permitting the original gang to work two hours at overtime if that amount of work remained between 3 p. m. and 5 p. m. The matter of when relief gangs would be supplied was one of the questions blocking accord.

The other, involving where a seaman's work ends and that of a stevedore begins on coastal vessels, was settled in a "mutually satisfactory manner," the spokesman said.

WOMAN SWIM CHAMP DIES

SAN FRANCISCO. (AP)—Myrtle Huddleston, 37, first woman to swim from Catalina Island to the mainland, died here today of pericardial hypertrophy, a cardiac ailment.

Mrs. Huddleston was found unconscious on the floor of her apartment. Physicians said she had suffered a cardiac ailment and a paralytic stroke, leaving her unable to talk.

Believed to be the first woman to swim from Catalina Island to the mainland, Mrs. Huddleston also swam Lake Tahoe and in a marathon test at Los Angeles swam 87 hours and 48 minutes. She was unsuccessful in her attempt to swim the English channel.

'Human Guinea Pig' May Test Planes

SALT LAKE CITY. (AP)—A psychiatrist offered today to "buy" Sailor John Anderson, Jr., of Washington, D. C., for use as a "human guinea pig" in attempts to solve the riddle of airplane disasters.

Through an associate, Karl von Schilling, Boston "color-ray" scientist, said he would pay Anderson \$1500 for a year's services if the 25-year-old ex-seaman "is sincere" in his wish, expressed through the press, to serve as a

47 Million Cart Wheels Roll

Biggest Deal Recorded Here

By ROCH BRADSHAW

Reverberations of a \$47,000,000 deal thundered and roared and screamed through Orange county today. The Seal Beach plant of the Los Angeles Gas and Electric company changed hands.

It was part of a transaction involving a lot of big shots here, in Los Angeles and New York. The people of Los Angeles are taking over a lot of the power company's system.

Sirens screamed over it. A fellow driving a Model T at Belvedere Gardens got the scare of his life as two cars of Los Angeles officials roared from that city to Santa Ana in 40 minutes to record the deed. The official cars—police cars with red lights and sirens—didn't stop for crossing signals. The fellow in the Model T just squeezed out of their way.

They got Roy Shafer out of bed early. Shafer is vice president of the Orange County Title company. He forgot about breakfast for (Please Turn to Page 2, Col. 5)

GREEN RAPS PERKINS

Says A. F. L. Against
Compulsory Auto
Strike Deal

WASHINGTON. (AP)—William Green, president, said today the American Federation of Labor would oppose enactment of Secretary Perkins' proposed strike legislation.

Blocked, so far, in her efforts to settle the General Motors strike, Miss Perkins asked congress for legislation to give her power to subpoena witnesses and books during strikes, to hold hearings and to recommend settlements.

Green said such legislation would be "a step in the direction of compulsory arbitration" which the Federation traditionally has opposed.

He talked to newsmen shortly after President Roosevelt told a press conference he had reached no conclusions concerning the prospects for new labor legislation.

GOODRICH PLANT CLOSES

AKRON, Ohio. (AP)—The large tire manufacturing plant of the B. F. Goodrich company, employing 10,000 persons, was closed today as the result of a sitdown strike.

38,500 Highway Deaths Set Record

CHICAGO. (AP)—Motor vehicle accident deaths reached an all-time record total of 38,500 in 1936, the National Safety council said today, exceeding the nation's previous mark of 37,000 set in 1935.

Tornadoes, floods, excessive heat and increased employment helped push the 1936 total of accident deaths from all causes to 111,000, wiping out the 1934 record of 101,139.

The council added that accidents permanently disabled about 400,000 persons and temporarily disabled 10,300,000 others.

For the first time in eight years fatalities resulting from accidents within homes—39,000, or an advance of 7500 from the 1935 figure—exceeded the number of deaths on the highways of the United States.

"guinea pig" for some experimentally-minded doctor.

Logan Thomasson said Von Schilling has been seeking a human robot to duplicate as nearly as possible the mental and physical processes of pilots in flying difficulties.

Von Schilling has certain theories, Thomasson said, as to recent plane crashes in Utah, California and the East.

"He believes it possible to duplicate conditions preceding the

Townsend Tester Down to 35 Cents, Sales Tax Taken

CHELSEA, Wash. (AP)—A cash pocket balance of 35 1/3 cents from his \$200 Townsend "test" money today failed to dampen the ardor of 63-year-old Curtis C. Fleming, who crowded 30 days' spending into 12.

The fifth of a cent was a state sales tax taken.

Fleming and his 58-year-old wife, who faced the prospect of the winter "on relief," contributed their last ear marked Townsend dollar to the Chelsea chapter of Red Cross for the Midwest flood relief fund.

"I reckon it will do more good than taking maw and me to the picture show," said the unemployed apple orchard worker.

ASK SECURITY ACT CHANGE

Republicans Would Add
Farm Labor, Cut
Reserve Fund

WASHINGTON. (AP)—Republican congressional leaders, calling for major modifications in old age pension plan of the social security act, proposed today to extend it to farmers and domestic servants and put it on a "pay-as-you-go" basis.

The committee, set up by republican leader McNary, in the senate, and Snell, in the house, demanded abolition of the present plan calling for a reserve fund estimated to reach \$47,000,000,000 by 1950.

They said this would permit postponement of the increased taxes, or increased benefits during the early years, or both.

Instead of the present law, providing for increasing payroll taxes paid by the employers and employees from two per cent to six per cent by 1949, the republicans asked that the social security board be directed to draw up three changes:

1. A plan to increase pensions to those retiring within the next 10 to 20 years, to begin pension payments in 1939 instead of 1942, to keep the payroll tax at its present level for at least five years.

2. An alternative plan to leave benefit payments as they now are in the law and to keep the payroll tax at the present time for at least 10 years.

3. An independent plan for extension of the contributory old age pension system to "large groups, such as domestic servants and farmers, now excluded from the benefit of the act, and to provide the simplifications necessary to make this possible."

RED DEATH JURY OUT

MOSCOW. (AP)—The Soviet supreme court retired tonight to consider its verdict against 17 men on trial for plotting the overthrow of government.

accident by training such a subject as Anderson might prove to be to fly, and then sending him up in oxygen helmet and other equipment in a series of pilot reaction tests," Thomasson explained.

"Identical conditions of cold and fatigues can readily be produced artificially. Von Schilling believes there may be a link between the mental factors that cause a flying student to 'freeze' to his stick and a pilot's metabolic reaction just before an accident."

'FLU' STEALS \$100,000 OF SCHOOLS

Emergency Ruling May
Recover Money Lost
Through Absence

The lowly flu and cold germs already have cost Orange county schools about \$100,000 and the indications are that the costs will continue.

But there was a brighter side to the picture. County School Superintendent Ray Adkinson today notified school districts throughout the county that they can apply for emergency average daily attendance aid from the state, which may offset part of the loss.

The loss is brought about through decrease in the a. d. a. A special ruling from the state now makes it possible for districts afflicted with epidemics to apply for aid on a d. a. figures based on an average attendance for the past three years.

Ordinarily respiratory infections are not counted, according to Dr. K. H. Sutherland, but he understands that with the prevalence of influenza and colds these two things will be counted.

Adkinson estimated that the a. d. a. has been reduced on an average of 20 per cent in the county, some schools reporting as high as 40 per cent.

Ten Days Lost
The county gets \$50 a year a. d. a. on 16,000 pupils in the elementary division, \$90 a year on 6500 in high schools and \$100 on 1500 in junior colleges. This totals \$1,695,000 for the minimum school year of 170 days. At least 10 days of the school years have been affected so far.

Influenza cases reported by doctors to the county health department jumped from 60 yesterday to 90 reported today. There are 650 cases in the county, not counting severe colds. The epidemic is not abating yet. Several deaths have been reported so far from influenza.

Factor Arraigned In Theft Case

Charged with arising early Monday morning, appropriating his host's trousers, his \$60, and his automobile, Morris Factor, 25, said to be a former San Quentin convict, was arraigned before Justice Kenneth Morrison today on a grand theft complaint.

Factor was arrested yesterday by Police Chief R. Hodgkinson of Newport Beach after peace officers all over Southern California had been warned to watch for him. Bail was set at \$1500 and preliminary hearing will be Feb. 2.

But Coyotes Can't Steal Gasoline

Mrs. Betty Blair of Silverado canyon thought maybe the coyotes were getting her turkeys—24 of them since Christmas.

But she couldn't blame the coyotes when she found five gallons of gasoline missing!

So she called the sheriff's office. And officers are trying to find the trail of the four most recently departed birds, missing since Wednesday night.

\$50.76 Per Person If Money Divided

WASHINGTON. (AP)—The treasury figured today that if all the money in circulation at the end of 1936 had been distributed evenly, every man, woman and child in the country would have had \$50.76.

Money in circulation Dec. 31 was reported as \$6,542,752,261, as compared with \$6,465,632,968 on Nov. 30, and \$5,881,525,846 on Dec. 31, 1935.

British Vessel Sunken By Mine

BILBAO, Spain. (AP)—A ship believed to have flown British colors, sank near here today, the result, it was reported, of striking an explosive mine. The vessel was believed to have been of about 4000 tons. A quantity of wreckage had been sighted.

12 SEAPLANES ROAR INTO HAWAII

Navy Completes Great
Mass Flight Over
Pacific

HONOLULU.—Battling through thick weather in the last stages of their record-breaking flight, 12 huge United States naval seaplanes today completed the longest over-water mass flight in history at 6:20 Pacific standard time.

They officially covered the 2553 miles from San Diego to Honolulu in 21 hours, 48 minutes elapsed time.

During the last 300 miles the squadron maneuvered between altitudes of 2000 and 15,000 feet to escape what Lieut. Commander William H. McCade described as "very bad weather."

They came out into bright moonlight, sparkling on the calm waters, as they flew over the Pearl harbor naval base in perfect formation, their flying lights twinkling.

Cut Record Three Hours
The official takeoff from San Diego was announced at 6:02 a. m. Honolulu time, yesterday, and the arrival at Pearl harbor at 3:50 a. m., today.

The only previous mass trans-Pacific flight was three years ago when Lieut. Commander Kniffen, McGinnis led a squadron of six naval planes on another "routine" flight of 2400 miles from San Francisco bay. The elapsed time was 24 hours, 45 minutes, about three hours longer for the shorter distance.

Only 150 spectators, mostly families of the 50 fliers, were on hand to watch the end of the spectacular demonstration of the precision of naval flying.

Honolulu Not Excited
Honoluluans, accustomed to 60 weekly trans-Pacific flights of the big Clipper planes, showed only slight interest in the naval maneuver. Newspapers gave secondary space to the story, and radio stations staying on the air for the armada's arrival planned to shut down immediately after broadcasting the landing.

Rear Admiral Ernest J. King, commander of the aircraft squadrons of the fleet base force, emphasized before the takeoff in San Diego that the flight was a normal transfer of new sky patrols.

Kansas G. O. P. Plans Comeback

TOPEKA, Kas. (AP)—Kansas Republicans, who a year ago helped launch Alf M. Landon's presidential boom, met today—the state's 76th birthday anniversary—to lay groundwork for a comeback. The party suffered set backs last November, losing the electoral vote to Democrats, the governorship and two minor offices.

The crash of smashing records nearly defeated Recorder Fred Siebottom yesterday. His office completed the largest day's business in its history.

Total fees paid into the office were \$1194.30, as compared to the average of \$125.

The greater part of the day's business was in the Hillman-Long oil leases around the Anaheim area, involving 3500 acres, Siebottom said. A total of 115 instruments were recorded, including one for which the fee was \$69.

The rest were routine, the recorder said.

Twenty-eight Torrens Title deeds under the oil deal were recorded.

The job of handling the large number of recordings, especially the oil leases, will keep the recorder's office busy for some time, Siebottom said.

68 Missing in European Storms

LONDON.—Stubborn storms spread havoc on land and water across western Europe today. At least 68 persons were reported to have perished at sea.

The latest ship to fall to the fury of the wind and sea was the 1100-ton tanker Oliver. She sank in boiling seas off the small island of Borkum in the North sea. Eleven of a crew of 14 apparently were lost. The great liner, Europa stood by, able to rescue only three men.

However, the storm-beaten, 4855-ton Brazilian liner Santos, unheard from since reporting she was disabled and drifting toward the rocky Berlengas islands off the coast of Portugal, was towed to safety at Lisbon, Lloyds reported. One hundred persons were aboard.

By BETTY GUILD
If I'm pinching for a pinch-hitter, what does that make me? This column has bounced, through a series of noxious little germs, from Paul to Bob to Roch to Betty. And it's about time, anyway! I may not have the full, but my thoughts on the subject are pretty fluent.

I think the feminine angle to sports has been sorely overlooked, boys. I don't refer to the (Please Turn to Page 10, Col. 1)

'River—Stay 'Way From My Door'

This youthful refugee and his pup are guarding the family possessions atop a knoll not far above the water line in Cincinnati. He's hoping the water doesn't get any higher.

Flashes from Flood Zone

THAT ILL WIND AGAIN
HUNTINGTON, W. Va.—Harry Wright, negro flood refugee, said his home was gone but the flood would boom his business.

"It's house cleaning," he confided. "I'm going to have more work than I can handle alone when that old river goes down."

SEND HOPKINS TO FLOOD ZONE
WASHINGTON.—President Roosevelt announced today four high government officials would leave for Memphis Sunday to begin a clean up and sanitation drive from there northward to the Ohio river. Included in the four is Harry L. Hopkins, Works Progress administrator.

SIX MEN HOLD THE DYKE
LOUISVILLE, Ky.—Six men held back for five days, with sand bags and endless toil, the waters of the Ohio from a hospital jammed with a thousand patients—and shattered Louisville doesn't even know their names.

"Aw, what does it matter?" demanded one of the men, his face white with exhaustion through the black of his whiskers. "If you want to do something, grab some of those bags."

QUICK THE NEEDLE, WATSON
MEMPHIS, Tenn.—A 300-pound Arkansas negro barged into the emergency clinic where weary physicians and nurses gave inoculations and vaccinations.

"They told me to come here," replied auntie, rolling both sleeves up on her massive arms. "I wants to be assassinated."

BIG DAY FOR BUILDING UP RECORDER

Largest Total Fees on
Record Received at
Local Office

The crash of smashing records nearly defeated Recorder Fred Siebottom yesterday. His office completed the largest day's business in its history.

Total fees paid into the office were \$1194.30, as compared to the average of \$125.

The greater part of the day's business was in the Hillman-Long oil leases around the Anaheim area, involving 3500 acres, Siebottom said. A total of 115 instruments were recorded, including one for which the fee was \$69.

The rest were routine, the recorder said.

Twenty-eight Torrens Title deeds under the oil deal were recorded.

The job of handling the large number of recordings, especially the oil leases, will keep the recorder's office busy for some time, Siebottom said.

OHIO RECEDES, DEEP SOUTH PERILED

Known Death Toll Up
to 333; Evacuate
Lowlands

(By The Associated Press)
Flood waters of the North, unreeling after a \$400,000,000 scourge of the Ohio river valley, began a plundering invasion into the heart of the deep South today.

Scores of villages and countless farms along the 200-mile stretch from Cairo, Ill., to Memphis, Tenn., swam deep in the rising yellow tide of the Mississippi, fed at a rate of nearly 3,000,000 cubic feet per second by the falling Ohio.

The crest was still to come—now hovering just above Paducah, Kentucky.

100,000 Build Levees
With rain and snow forecast, a pick and shovel army of 100,000 toiled like beavers to unify the billion-dollar levee system, ranging southward from Cairo, that guards the rich cotton delta lands along the Mississippi.

United States coast guard cutters shuttled up and down the restive waters on "picket duty" to watch for weak spots or new breaks in the levees. Warned of impending danger, new hordes of refugees streamed from the low lying marginal lands along the Mississippi.

Expect Dikes To Hold
Tent cities sprang up on highlands and ridges 30 miles from the river to house temporary "orphans of the flood." At Baton Rouge, La., single concentration camp received 15,000 refugees. Ten additional centers were spotted. Thousands of others were removed to east Arkansas cities and to Memphis.

Every levee throughout the Mississippi system was holding today—and U. S. army engineers predicted they would continue to hold, barring the unexpected.

Health hazards mounted. One out of every 10 refugees suffered from sickness—influenza and pneumonia.

Weary physicians redoubled their efforts, needing typhoid and other vaccines into thousands who volunteered for treatment in the fight against plague.

Five mothers and 39 babies were harbored in the juvenile court building. Ten expectant mothers waited for their "flood babies" in another makeshift hospital.

Midwest Maps Comeback
Meanwhile, assured that the worst was past, stricken communities in middle western states pushed plans for rehabilitation, and the care of the homeless. These victims of the disaster numbered 1,035,000, latest estimates said, with 333 dead. Property loss estimates were \$400,000,000.

Several days ago engineers "piled the stupor" in the great 231,000 acre floodway below Cairo to ease the pressure against the seawall. Last night they dynamited it.

(Please Turn to Page 2, Col. 2)

2ND DEATH IN AIR CRASH

WASHINGTON. (AP)—Lieut. Joseph B. Zimmerman died today in Walter Reed hospital—the second victim of an army plane crash yesterday near Fort Royal, Va.

Private Henry L. Nied was burned to death in the wreckage of the bomber. Four others beside Zimmerman, who was the pilot, were injured.

The bomber crashed into a mountainside in a fog on a flight from Pittsburgh to its home station at Langley Field, Va.

Why Editors Go Nuts!

It's no great job for an editor to go nuts. Most of them have a head start anyhow. But they go exceptionally nutty during flu epidemics. Take this one for instance. On account of the flu, Betty Guild is writing Paul Wright's sports column and Skinny Skirvin is replacing Brick Gaines. Everybody else is pinch hitting for everybody else. You'll get a throb out of reading these transformations. Take a look—and you'll understand why editors go nuts.

RAIN CHASES AWAY COLD WEATHER

Showers Forecast for Tonight, Saturday in Southernland

Chasing the last of the current cold wave into Arizona, or where cold waves go, gentle showers over the entire county brought smiles of gratification to smug-looking ranchers last night.

More "usual" Southern California weather is promised for the week end, with occasional rain promised for tonight and Saturday. Normal temperatures and moderate southwest winds are promised.

Figures near the one-quarter inch mark for rainfall were reported from various county communities, with Santa Ana receiving .15 inches during the past 24 hours, which raises the season's total to 8.97 inches, compared to 1.51 inches at this time last year. Garden Grove and Laguna Beach both recorded .24 inches up to eight o'clock this morning, while Huntington Beach and Newport received only .08 inches.

RAINFALL CHART

Santa Ana	8.97	1.51
Orange	.15	11.99

TURKEY MEN MEET

Turkey raisers and poultry men held two meetings here yesterday. In the morning turkey men met in the Farm Bureau building to discuss marketing problems. Representatives from various Southern California counties were present. In the evening the poultry men met to hear Assistant Farm Advisor Joe Hertel of San Bernardino outline the observations he made in an extended inspection trip of large poultry producing areas in the east and middle west.

AFTER 20 YEARS

TROY, N. Y.—A purse containing \$12 went back today to a riverside woman who lost it on a shopping trip here 20 years ago. Chief of Police John P. Conroy said Mrs. E. S. Freeman had established ownership by citing the number on an insurance policy in the purse. The finder, apparently conscience-stricken after two decades, mailed the purse to Chief Conroy with an anonymous note.

Flood Relief Fund Mounting Today In Orange County

Contributions to the Red Cross flood relief fund in the various districts of Orange county up until 10 o'clock this morning, and the minimum quotas which have been assigned to the four chapters, are as follows:

Santa Ana, quota, \$5000; contributions, \$2314.37.
Orange, quota, \$600; contributions, \$473.93.
Anaheim, quota, \$1000; contributions, \$796.
Fullerton, quota, \$2000; contributions, \$1169.50.

Total for county, quota, \$8600; contributions, \$4753.80.

MORE ABOUT FLOODS

(Continued From Page 1)

mitted another hole to relieve the pressure on a setback levee near New Madrid, Mo.

Thousands of refugees who lived in the inundated area camped along the Missouri border hoping Cairo and southeast Missouri's "boot heel" would be saved from engulfment.

As 500 men labored to strengthen the levee near Mellwood, Ark., evacuation of 100,000 threatened acres of farmlands, was completed. Another crew was at work repairing the levee at Hickman.

The big test of the government's billion dollar flood control system along the Mississippi will not come until next week. While the engineers were prepared for any eventuality, Gen. Malin Craig, U. S. Army chief of staff, said qualifiedly he expected Mississippi dikes would hold. He based his belief on the expectation the levees will hold at Cairo and no abnormal floods develop in tributary rivers.

200,000 on Relief

A Herculean task was involved in restoring the towns along the Ohio waterfront from Pittsburgh developed a broad rehabilitation program with provision for placing about 200,000 persons on relief rolls.

The handmaidens of disaster—hunger and disease—caused concern in many cities. Supplies of food and medicine were rushed into the area and drastic measures were considered to stop the spread of disease. Soldiers and police guarded against looting. Louisville officialdom stood on the estimate of 200 dead made four days ago as the Kentucky metropolis struggled with wartime fervor to care for thousands of the 230,000 persons driven from their homes.

Across the river, Jeffersonville, Ind., its 12,000 inhabitants reduced to 300, sent word it was "down but not out." The 300 survived the flood in a barricaded factory on the river front.

An alarming reduction in Cincinnati's water supply caused the daily water ration to be cut in half as the city's disaster council made plans to have 10,000 WPA workers start a clean up, perhaps by Monday.

The national guard remained on duty in the flood stricken towns of southern Indiana to prevent looting and aid in rehabilitation which some said might require years.

After surveying the damage wrought by the flood, Gov. Martin L. Davey of Ohio proposed a conference between governors of the "flood states" and the federal government to discuss a long range flood control program.

He said the state could not possibly raise enough funds to meet the needs for rehabilitation.

At Huntington, W. Va., the police force was augmented by American Legion volunteers to aid law enforcement after one man was killed by thieves seeking valuables in the flooded area. Skiffs and launches were used by patrolmen.

Tustin T. N. R. P. club will meet Monday at 6 p. m. at the Presbyterian church for a potluck supper, after which the Rev. Joseph Nation of Long Beach will discuss the new Townsend bill.

CITRUS HEADS PAY DISPUTED

The same board of directors was returned to office when the Orange Mutual Citrus association balloted following a stormy session Thursday morning in the First Christian church at Orange.

A proposal by Mrs. Della Bishop, one of the members, that the salary of Packing House Manager L. F. Finley be reduced started a heated debate, which resulted in the board of directors and Finley being asked to leave the meeting while members discussed the matter. President J. F. Snowden presided over the discussion.

When the ballots were counted the board and Finley were retained with a recommendation that the matter of salary be investigated. On the board are J. F. Snowden, president for the past 12 years; H. J. Hinrichs, vice president; D. W. Gruwell, secretary; E. E. Kirkwood and G. W. Struck, directors, and L. F. Finley, manager.

Ambling to Build \$18,000 Home

Construction of a modern \$18,000 home started at Nineteenth and Heliotrop today.

Al Honer, contractor is building the home for Ernst Ambling, Orange, who operates the Ambling Bros. nursery on West Fifth street.

The 10-room home will be constructed on modern lines and will have a slate roof. It will occupy a lot and a half and will face on Heliotrop. Trees were pulled out yesterday and excavation work started today.

Elijah Brown of Cypress Dies

Elijah L. Brown, 65, a resident of Cypress for 11 years, died this morning at his home, after a brief illness. He was a member of Calumit camp of the United Spanish War Veterans and is survived by a brother, James A. Brown, of Atascadero.

Funeral services will be conducted Monday at 2 p. m. from the Hilgenfeld funeral home in Anaheim, with the Rev. V. B. Wheeler officiating. Calumit camp will have charge of the burial at Fairhaven cemetery.

Student Driver's Car Hits Tree

Coral Klepper of Laguna Beach, who was learning to drive yesterday, found out what happens when a car gets out of control.

Her auto left the road and crashed into a tree at the intersection of Newport road and 101 highway, she reported to the California Highway Patrol, injuring three persons. Suffering from cuts and bruises were the driver, Dorothy Durand, 27, and Marjorie Durand, 7, all of Laguna Beach.

duty in the flood stricken towns of southern Indiana to prevent looting and aid in rehabilitation which some said might require years.

After surveying the damage wrought by the flood, Gov. Martin L. Davey of Ohio proposed a conference between governors of the "flood states" and the federal government to discuss a long range flood control program.

He said the state could not possibly raise enough funds to meet the needs for rehabilitation.

At Huntington, W. Va., the police force was augmented by American Legion volunteers to aid law enforcement after one man was killed by thieves seeking valuables in the flooded area. Skiffs and launches were used by patrolmen.

Tustin T. N. R. P. club will meet Monday at 6 p. m. at the Presbyterian church for a potluck supper, after which the Rev. Joseph Nation of Long Beach will discuss the new Townsend bill.

Townsend Clubs

All persons interested in the Townsend movement are cordially invited to attend any of the club sessions, particularly those of the clubs in their own neighborhoods. Meetings are also urged to turn out regularly.

Tustin T. N. R. P. club will meet Monday at 6 p. m. at the Presbyterian church for a potluck supper, after which the Rev. Joseph Nation of Long Beach will discuss the new Townsend bill.

CONTINUE H. B. OIL BATTLE

The battle to settle the slant drilling problem at Huntington Beach will be continued in Judge James L. Allen's department of superior court Monday morning.

After opening statements by counsel yesterday afternoon, the case was adjourned until Monday.

In his opening statement, Oscar Lawler, representing the Standard Oil company, which is suing the Southern California Drilling company to halt alleged whiststock drilling and recover damages, charged that the Severns concern had dipped into the Standard's pool.

Roland Swaffield, Long Beach, representing the Severns concern, told the jury that he would show the Standard Oil company did not own the oil where the company was drilling and therefore had no right to the oil or to demand an accounting of the Severns firm.

Swaffield said he would show that there was no trespass intended. Charles Swanner, Santa Ana, representing R. G. Disher, tool pusher, said he would show there was no attempt at whiststocking.

JOURNAL FLOOD GIFTS \$254

During the past 24 hours donations through The Journal continued to pour in to aid the Red Cross in her rehabilitation work in the flooded areas in the East. The total secured so far through The Journal is \$254.75. Contributors during the 24-hour period were:

Logan Jackson, \$50; Hill & Hill, (C. W.) \$10; a Friend, \$10; F. A. Jones, \$5; A. G. Clemons, \$5; James Rosendahl, \$5; Mrs. L. T. Wood, \$2; Mrs. Josephine Whisler, \$2; Anonymous, \$1; Dale Holm, \$1; a Friend, \$1; Mr. Bagby, \$1; R. E. Fowe, 1, and a Friend, \$1.

Quick Action on Criminal Cases

Superior Judge James L. Allen disposed of three criminal cases which came before him today.

Rosalie Hernandez, charged with violation of probation on a drunk driving charge, had his probation extended one year, with the provision that he spend 30 days in the county jail.

Ross Elliot, accused of failing to stop and render aid when an accident in which he was involved took place, pleaded not guilty to the charge. Trial by jury was waived, and the trial was set for Feb. 18.

George U. Carter, facing a charge of issuing a bank check with intent to defraud, had his arraignment set for Feb. 5.

Fascists Capture Wheat Freighter

BAYONNE, France.—The Spanish Socialist freighter Alejandro loaded with 650 tons of wheat, was captured off Santander by a Fascist naval patrol, reports from San Sebastian declared today.

A squadron of government planes, summoned to the aid of the Alejandro, was driven off by insurgent anti-aircraft guns, the reports stated.

MADRID—A Fascist attack against newly won Socialist positions in West Park, dominating the university city sector of Madrid, was repulsed today in bitter fighting.

Pope 'Better,' Say Doctors

VATICAN CITY, (AP)—Although wearied by long illness, Pope Pius XI was described today by reliable sources as showing "more of the characteristics of convalescence than of active illness." Despite less sleep than the previous night because of twinges of pain caused by the damp weather, the holy father's doctors considered the local condition in his legs to be satisfactory, an official report said.

THREE-STAR PROGRAM FOR PRESIDENT'S BALL

Everything was set today for the three-star program to be staged tomorrow night at the annual President's Birthday ball.

About 1500 are expected to attend the three brilliant events being staged in connection with the birthday ball. Postmaster Frank R. Harwood, general chairman, announced today.

It is expected to be the most brilliant and outstanding social event of the season. Because of the wide variety of entertainment to be offered, and because of the worthy nature of the event, a record-breaking crowd is expected.

Tickets are 50 cents each. Holders of the tickets who like to dance can swing to pulse-stirring music at the semi-formal dance at the Masonic temple. Those who go in for cards can enjoy the evening at the Ebell clubhouse. And those who prefer a sparkling, professional vaudeville show can watch the Fanchon and Marco presentation in the auditorium of the Ebell clubhouse. Which should please everyone.

Mrs. Henry Williams, in charge of decorations, promised the most colorful and unusual decorations ever used at a similar event. Electrical displays will be used to enhance the settings of the three major events.

As in previous years, 70 per cent of the proceeds from the birthday ball will be used locally to aid in treating victims of infantile paralysis, and 30 per cent will go to the Warm Springs Foundation at Georgia, the infantile paralysis institute sponsored by President Roosevelt.

TELLS NEED OF FIRES REPLY IN JAYSEE PLANT SKIPPER SUIT

Need for a new junior college plant, here along with possible cost and location—was outlined to Kinawiss club members at their weekly luncheon in the Masonic temple by Major F. L. Carrier, well known local educator.

A new 30-acre campus with necessary buildings, including auditorium, gymnasium, laboratories and shops, could be obtained at a cost of about \$350,000, of which the federal government would pay about \$125,000 as a relief project, said the speaker.

He suggested Hoover school, now an elementary institution in the northeast section of the city, as the nucleus for the new jaysee setup.

The major spoke as part of the Kiwanis program of discussion of topics of local importance. John A. Harvey, local attorney, was program chairman. President R. D. Newcom presided.

Stage Hot Debate On Defense Topic

A real verbal battle was staged last night over the question of passive resistance as a means of defense, by speakers at a meeting of El Camino Toastmasters club in Daniger's cafe. Those upholding passive resistance were almost ready to fight for their beliefs.

The debate topic was Resolved: That passive resistance is the most effective defense. The judges awarded the decision to the affirmative but a member vote gave it to the negative, according to Ted Blanding, chairman.

Affirmative debaters were William McQuarrie, chairman; Ernest Wooster and W. F. Croddy. Negative speakers were Fred McCandless, chairman, Tom Orr and Dr. C. J. Raley. Critics for the affirmative were Walter Taylor, Anaheim; Rex Hoover, Laguna, and Mr. Kennedy, Anaheim. Negative critics were Phil Hood, Malcolm Macurda and Dr. M. W. Hollingsworth. Ferris Scott was general critic.

MORE ABOUT \$47,000,000

(Continued From Page 1)

awhile and dashed down to the court house. There they found that County Recorder Fred Sidesbottom was on the job and at 8:15 a. m. they recorded the printed decision. The local title company handled this county's end of the deal.

Heading the Los Angeles delegation was Deputy City Attorney Rex B. Goodell, jr. He is a cousin of Ray Goodell, Santa Ana, real estate dealer. After the business was all over the party, including Ray Goodell, went to breakfast.

Shafer said he didn't get any special thrill out of handling the title work on the \$47,000,000 deal. But he got a thrill out of his grapefruit and coffee.

When the meal was finished the Los Angeles men got back into their big cars and started for home. There were special drivers and guards on the cars. Each car carried a set of legal documents to be recorded. This was necessary. They traveled so fast through intersections that one of the cars might have got wrecked and the occupants killed and the documents lost.

So they had another car full of documents and people to carry on. The Los Angeles men went to the Federal Reserve bank where before coming here. They presented a check for \$47,000,000 to one of the tellers. He was afraid to touch it. The check bought the power plant and system for the people of Los Angeles. A lot of officials finally decided to accept the check. The board of directors of the Los Angeles bureau of power and light met at the bank and decided to accept the power plant.

For some reason the deal had to be handled that way—early. There was some kind of hookup back at New York about bonds. The city's bonds were sold back there and the money wired out here and it was necessary for everything to work like clockwork and the deeds to be recorded here and in Los Angeles at the same time.

There was a lot of telephoning during the negotiations for the deal. And a lot of telegraphing. One lawyer on a train got an idea about it and sent a \$150 telegram.

The Los Angeles people voted to make the deal Dec. 8. It also settles some litigation and other things. As far as Orange county is concerned, the Seal Beach plant now belongs to the metropolis. But we'll still collect taxes on it.

ISSUE WARNING ON RABIES HERE

Another mad dog warning was issued today by Dr. K. H. Sutherland, county health officer.

A black, shaggy part-shepherd dog returned to its home on Seventeenth street west of the bridge this week, sick, and died yesterday of positive rabies.

Dr. Sutherland urged any persons who have dogs seen fighting with a dog of that description to notify the health department at once. He also urged persons who have been bitten by dogs recently to contact the department so that preventative treatments can be given.

'Y' Will Honor Leonard's Memory

In respect for the memory of Nereus H. Leonard, prominent local philanthropist who contributed \$25,000 to the construction of its headquarters, the Santa Ana Y. M. C. A. has called off its usual Saturday morning program of activities. The Saturday afternoon schedule will be held as planned.

In making this announcement, Secretary Ralph Smedley added that the Friendly Indian pow-wow, slated for Anaheim tomorrow, would be held rain or shine. The high school building will be used if it rains, he said.

JUST 23 of These Special OVER COATS Left For \$18.50

We won't cry "wolf" but we think it would pay any one to buy one of these coats

CITRUS LOSS SET AT 40 PER CENT

Forty per cent of the citrus on trees was damaged in the recent series of cold waves.

This approximate figure was announced by Paul S. Armstrong, general manager of the California Fruit Growers exchange, following preliminary surveys of fruit frost damage by field workers.

"A preliminary survey completed today indicates approximately 40 per cent of the citrus fruit on the trees at the time the cold weather began on Jan. 7 has been rendered unfit for shipment by the series of frost periods," Armstrong said.

Valencia Loss Lower
"By varieties, the survey indicates a fruit loss of 40 per cent on navel oranges, 35 per cent on valencias, 40 per cent on lemons and 50 per cent on grapefruit.

"As slightly more than two months' shipment already had been completed for the new season before the heavy frosts occurred, the effect on the fruit destroy is expected to reduce the season's total shipments by about one-third.

"If the above estimates are correct, and it is by no means certain that they are, shipments for the 1937 season will be approximately 75 per cent of those of the previous year.

Higher Prices
"Expressed in volume the figures mean a loss of 16,000,000 boxes or approximately 35,000 carloads for the state. It is not possible to place a money value on the loss. Price levels of fruit remaining to be shipped will reflect the shortage to some degree at least, and may possibly return for the crop as a whole almost as much as would have been received had the damage not occurred and the larger crop been shipped at lower prices.

"Based on the assumed figures, the season's total for all shippers will approximate 70,000 cars, of which more than 50,000 cars remain to be shipped.

Heating Expense
"Unfortunately, the higher prices will not benefit the numerous growers who have little or no fruit left to sell.

"While this has been the longest cold spell on record in California, the trees appear to have been in good condition to withstand the cold and no substantial tree damage was reported, except on young lemons in some districts.

Happy Birthday
The Journal today congratulates:

LOUIS L. BEEMAN, 910 French street, Santa Ana.
CLYDE W. ROWLAND, 336 West Nineteenth street, Santa Ana.

MRS. G. D. CAMPBELL, 808 Garfield, Santa Ana.
MRS. MAE HOWLAND, 905 East Chestnut street, Santa Ana.
DOUGLAS PROSCH, 1319 West Washington, Santa Ana.
DR. HERBERT STROSCHKEIN, West Tenth street, Santa Ana.

POLICE REPORTS
The following information was taken from today's reports on file at the Santa Ana police department:

Martin Marks, 603 West Sixth street, reported his bicycle had been stolen from Santa Ana High school yesterday morning. Later J. S. Graves, 915 West Pine street, called the police station to say a bicycle was abandoned in front of his home. Officers Heard and Nielsen turned bicycle-bringers-in and returned it to Marks.

H. Alcala, Costa Mesa, was minus a fender guide valued at 89 cents after he returned to his car, parked at Fourth and French streets, yesterday afternoon.

Robert J. Sullivan, 1902½ Bush street, told police someone had entered his house and taken a billfold containing \$2 and a number of papers from the mantel yesterday. He said several other men had been in the house during the day.

Two very special dogs, one a Pekinese and the other a combination Pekinese and Pomeranian, were missing today. Their owner, George McClain, had police keep an eye peeled for the little fellows.

Beulah May, 1002 Mabury street, asked if police couldn't arrange to have a lantern put on a pile of dirt she said was in the street near her home. Officer William Nielsen reported the dirt was "spread out pretty well" and didn't need a lantern.

City court traffic fines: Speeding—George Allen Grunbrook, \$6; George Leroy Parnham, \$6; William E. Wylam, \$6; Raymond H. Davis, \$8; Paul E. Petersen, \$10; Howard Graser, \$8. Boulevard stop—H. Barnes, \$2.

About Folks

News of Your Family and Friends Is Important. The Journal Welcomes It. Telephone 3690.

Mr. and Mrs. Wayne West, 1022 South Main street, will have as house guests for the week-end, Mr. and Mrs. H. H. West of Los Angeles and Mr. and Mrs. W. D. West and son Richard of Redlands.

Mr. and Mrs. C. E. Haynes and Miss Margaret Haynes, 617 Cypress street, were in Los Angeles Wednesday to attend the funeral of J. C. Schaaf, the father of Mr. and Mrs. Haynes' son-in-law.

Mrs. Harry J. Simons of St. Paul, Minn., is visiting at the home of her sister and brother-in-law, Mr. and Mrs. Elmer Schaniel, 209 West Tenth street. Her husband, who is in Seattle now on business, will join her in Santa Ana next week for a few weeks' visit before they both return East.

Mrs. Ward Akely, assistant manager of the Santa Ana Country club, is suffering with a severe cold.

Chief of Police R. R. Hodgkinson of Newport Beach was visiting in Santa Ana Thursday.

Dr. Ralph Murane has returned from a business trip to Phoenix, Ariz.

Ted Craig of Brea, former speaker of the state assembly, was in Santa Ana yesterday calling on friends.

The correspondence department of the University of California extension division today announced that Lester Winston Archer and Edward J. Haddon, both of Santa Ana, had enrolled as correspondence students.

Mrs. Leslie Kimmel of Laguna Beach spent Monday and Tuesday in Santa Ana as the guest of Mrs. John M. Cloyes. She was the featured speaker Monday at a meeting of the Book Review section of Anaheim Ebell club.

Henry Williams, 819 Kilson drive, will leave Sunday for San Francisco and Del Monte, where he will attend an electrical convention.

Bradford Hellis is reported improving after a week of being confined to his home on Panorama Heights with influenza. Virginia and Rosemary, daughters of the home, are also suffering with attacks of influenza.

Paul C. Bodenhamer returned home yesterday from St. Joseph's hospital, where he was confined for three days recovering from an attack of influenza. His mother, Mrs. Paul Bodenhamer of Upland, spent yesterday in Santa Ana visiting with her son and daughter-in-law and with the latter's mother, Mrs. M. D. Cox of Inglewood, who is a guest at the Bodenhamer home this week.

Mrs. Calvin Flint is reported ill with an attack of influenza this week.

Miss Geraldine Gilbert is spending part of this week at home during the midwinter vacation at Pomona college.

Earl Price, retreat operator at First and Sycamore, is off duty today due to an injured foot.

Mrs. Alice Getson of Chesaning, Mich., who is wintering at the Hotel Gates in Los Angeles, was a weekend guest in Santa Ana, visiting her cousin, Mrs. Louise Edgar, of 823 Mason, and the latter's son, Carl R. Edgar of West Seventh street. The latter took them around the orchard regions, showing them smudging activities, and Mrs. Getson, who had been a teacher in Chesaning for 33 years, also called on one of her former pupils, A. Adams, an Anaheim rancher.

Mr. and Mrs. Maxon Robinson of San Bernardino, formerly of this city, will be weekend visitors at the home of the latter's parents, Mr. and Mrs. C. W. Rowland, at 336 West Nineteenth street. Mrs. Robinson was Miss Louise Rowland before her marriage.

Miss Ella Jones and Miss Belle Coray of Ceylon, India, who have been visiting at the home of Mrs. Sarah Brown in Tustin and speaking at several gatherings in Santa Ana and community, will leave Saturday for Colton and Pasadena and then go on north to fill a series of speaking engagements. Later, they will go East, sailing in a few months from Boston for Ceylon, where they will resume their teaching duties in the girls' school of which Miss Jones is the head.

Mrs. Paul Johnson, who has been visiting since the day after Christmas at the home of her parents, Mr. and Mrs. C. L. Johnson, at 421 South Broadway, in Santa Ana, will return Sunday to her home in Modesto, going north with her husband who arrived Wednesday night.

California's Native Daughters of the Golden West are compiling a record of all pioneers who entered the state by covered wagon or sailing ship.

NOTICE TO ALL MASONS! In reference to President's Birthday Ball entertainment scheduled for Friday, Jan. 29, in Masonic temple has been postponed until Feb. 20.

ENTERTAINMENT COMMITTEE.

SNOWFALL HEAVY
FAIRBANKS, Alaska. (AP)—Interior Alaska's greatest recorded winter snowfall lay four feet on the level today. U. S. weather bureau records show 113 inches of snow has fallen here this winter, about double the average.

STEAMER TO SAIL
BOSTON. (AP)—Agents of the Pacific coast direct line ordered the freighter Lancaster to leave the harbor bound for the West coast in anticipation the maritime strike there will be over before it arrives at San Pedro harbor four weeks from today.

GIRL LOST
SAN DIEGO. (AP)—A state-wide search for Shirley Smith, missing 16-year-old high school student, was extended into Arizona today on request of Police Chief George Sears. The girl's parents could give no reason why the girl left home Monday.

HELP WANTED
SPOKANE, Wash.—Lost: A lot of fire hydrants. An unprecedented snowfall left them buried. So Chief William Payne appealed to citizens to locate and uncover fire plugs before shoveling off their sidewalks.

SCHOOLS CLOSE
WATSONVILLE. (AP)—Absence, due to an epidemic of colds and flu, led Superintendent R. D. Case to order schools closed until Monday.
Most of Utah is a plateau, 6000 feet above sea level.

F. D. R. BREAKS POWER POOL SESSIONS

Action Taken Because Of Injunction Suit By 19 Utilities

WASHINGTON. (AP)—President Roosevelt shaped a tentative course today toward expanded public ownership of electric power by breaking off negotiations to pool government and private power in the Tennessee valley.

He took the action, he said, because 19 utility companies obtained a "sweeping preliminary injunction" against the Tennessee Valley authority.

Explaining this precluded a transmission agreement, he wrote 14 government and private conferees that meetings would be discontinued.

The Commonwealth and Southern Utility Company protested the action, and Wendell Willkie, its president, said in New York:

"I am unable to understand how the temporary injunction precludes either the pooling of transmission, the studying of the various problems arising out of the TVA operations or the working out of a permanent solution."

"The dismissal of the lawsuit or the dissolution of the injunction would place our property at the mercy of the uncontrolled discretion of the TVA."

Assembly to Probe Horse Racing

SACRAMENTO. (AP)—An assembly committee investigation into regulation of horse racing in California will begin Monday in Los Angeles.

Chairman Rodney L. Turner, Delano assemblyman, said he had asked the state racing board and the board of stewards from Santa Anita track to be present.

He also said "We are requesting representation from all tracks," as well as presence of "prominent chemists, trainers and stable owners."

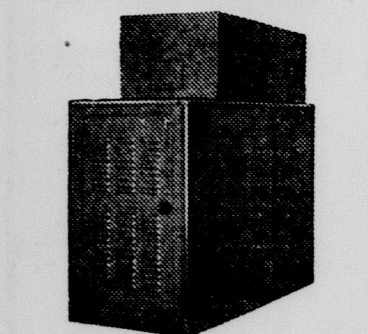

He said the recent alleged "doping" of the horse Proclivity will be investigated thoroughly.

Other members named by Speaker Moseley Jones to the public morals committee are Earl Desmond, Sacramento, and Frank Laughlin, Los Angeles.

Yes, New Terminal Has No Bananas

SAN PEDRO. (AP)—The world's newest banana unloading terminal, costing \$500,000 as a PWA project, is completed and ready for test, but there are no bananas due to the maritime strike.

IT'S HERE! WINTER AIR CONDITIONING FOR EVERYONE

THE MOST EFFICIENT, most dependable system ever designed for entire homes. Most complete unit ever produced by one manufacturer. It heats... filters... humidifies... circulates clean air. Brings great comfort. Reduces winter ills. Economical. Easy to buy. See it.

AIRTEMP INCORPORATED SUBSIDIARY OF CHRYSLER CORPORATION A WARNING

There is a great deal of confusion in the use of the term "WINTER AIR CONDITIONING." Regardless of the merits of the heating system, it is NOT AIR CONDITIONING within the definition recognized by the National Better Business Bureau, U. S. Dept. of Commerce, and the American Society of Heating and Ventilating Engineers unless it performs the following functions:

1. Heat the air.
2. Regulate the humidity.
3. Circulate the air uniformly, with a definite minimum number of air changes per hour.
4. Provide fresh outside air AND IN ADDITION PRACTICALLY ALL AIR CONDITIONING SYSTEMS ALSO—
5. Clean the air.

Official Reviews Rules On Shipping Citrus Fruit

By D. W. TUBBS
Agricultural Commissioner

In replying to many questions being asked by growers and packers concerning the present status of citrus shipments permit us to review the situation as follows:

On Tuesday, Jan. 12 subsequent to the severe frost in some sections of the state, the state department of agriculture called a meeting of the southern commissioners in San Bernardino. At this meeting the reports of all present indicated that much fruit undoubtedly had been subjected to temperatures which would cause severe damage by freezing. It was also agreed that for several days this damage would not fully manifest itself.

Enforcement Steps
Due to the fact that the navel marketing season was well under way in Southern California the director of agriculture expressed the opinion that it was necessary to take certain steps in the enforcing of the agricultural code to prevent the immediate shipment of such fruit as may be seriously damaged but which damage would not become evident until such time as it might reach the eastern markets, if shipped. Director A. A. Brock, therefore, by virtue of the authority vested in him by the agricultural code of California issued rules and regulations to the commissioners of all citrus counties outlining a method of procedure for inspecting fruit which in the opinion of the enforcing official had been previously subjected to low temperatures sufficient to eventually cause serious damage due to freezing as defined in the code and which fruit did not yet manifest such damage.

Plan of Procedure
Mr. Brock directed that in such cases samples be taken and the packer warned that should such fruit be shipped the sample would be inspected at a later date and if it then showed evidence of serious damage, the responsible party would be prosecuted in accordance with the provisions of division 5, chapter 2 of the California agricultural code.

The code requires that citrus fruits shall be free from serious damage due to freezing and not more than 15 percent, by count, of the citrus fruits in any one container or bulk lot may be below these requirements. A fruit is deemed to be seriously damaged if the freezing causes, before the drying process develops, a water-soaked appearance, or evidence of previous water-soaking, or the presence of crystals or crystalline deposits, on the two surface membranes of each of two or more segments as shown on the separation of two or more segments of a section, which section shall not be less than one inch or more than one and one-half inches in thickness, obtained from the central portion of the fruit by cutting off each end—such evidence of freezing injury to show for the entire length but not necessarily the entire area of the surface membranes.

Tolerance Limit
After the drying process develops the determination of damage is based on a transverse cut and a drying or desiccation in 20 percent or more of the exposed pulp is considered serious for the individual orange. There is also a tolerance of 15 percent by count of such oranges except that not to exceed one-third of this tolerance (or 5 percent) shall be allowed for citrus fruits showing a drying out in 40 percent or more in the exposed pulp.

In the case of navel oranges the drying out process would not normally be developed for at least several weeks and it is for this reason that all fruit packed after frost must be judged on the basis of the water-soaking or crystalline deposits. As for valencias, fruit will not be picked for market until such date that any injury may be detected by drying out showing in a transverse cut. In other words, the state law grants a tolerance of injured fruit in any lot of 5 percent of such fruits being 40 percent or more injured in the case of desiccation or 15 percent of the fruits showing 20 to 40 percent injury in either the case of water-soaking or hesperidian crystals or drying out. This is approximately three times the maximum injury allowed by the major shipping organizations in their first grade specifications.

Review Situation
On Jan. 19 the southern commissioners met in Los Angeles to review effects of this regulation and other methods of procedure on the orderly marketing of fruit in compliance with the standards. At this meeting were county commissioners, state inspectors and members of the federal food and drug administration. Complete cooperation of all departments in the handling of the situation was assured. The inter-county movement of fruit for packing or for by-product purposes appeared as an important problem and methods of reporting such shipments were worked out in detail. It was further agreed that the movement of all fruit destined for by-products would be thoroughly checked in accordance with section 830.5 of the code and that each commissioner would send to the state office a list of all by-product plants in their respective counties which were receiving navel oranges and/or lemons.

In compliance with the section above named packing houses, by-product plants, contract carriers and even purchasers or growers who haul fruit from a grove to commercial by-product plants under circumstances which would indicate that the produce might find its way to the open market are required to have a permit issued under authority of this section when they are selling citrus which fails to meet the requirements of the code.

Each packing house manager must have available a list of all sales of sub-standard fruit showing the name and permit number of the party to whom same is delivered, the destination of the fruit and other items necessary for checking to see that deliveries are correctly and properly made.

It was agreed that the commissioner at destination would check with these plants to whom delivery is indicated and in case no load has been delivered then the commissioner at point of origin would start proceedings to revoke the permit of the one hauling the fruit.

Since the law also provides that the commissioner may require such additional evidence as he deems necessary to prove the disposition of sub-standard fruit it was agreed that in the case of itinerant buyers the drivers should be requested to present to the packing house or grower an order or other document showing that the processing plant has ordered the fruit.

Change Rules
On Saturday, Jan. 25, the director amended the rules issued Jan. 12 removing the instructions to hold the representative sample for five days, since it was shown that in cool weather a few additional days were necessary for the appearance of damage to develop.

The last paragraph in the rules and regulations leave little to the imagination of the enforcement official. We are quoting herewith to clarify our statement that uniformity of enforcement in the various counties is assured:

"The enforcement officer shall take and hold a representative sample of not less than 100 fruits, from such a lot of citrus fruits, for the purpose of determining whether or not serious damage as defined herein, will develop. A complete record and evidence of such a lot or consignment shall be retained by the enforcement officer and if at the end of a reasonable length of time, the symptoms of serious freezing damage as defined in section 795 are apparent, the responsible party shall be prosecuted providing the citrus fruits in question have been packed, delivered for shipment or sale, loaded, shipped, transported or sold in violation of the provisions of division five, chapter two of the agricultural code. The enforcement officer shall immediately thereafter notify the owner or responsible party of the aforesaid present and contemplated action."

Shipping Moratorium
Obviously the effect of such an emergency regulation should be to bring about a moratorium in shipments until such time as packing house field men can determine the condition of fruit in various groves. If fruit is injured beyond the tolerance it will be necessary for growers to forego picking until such time as external appearance or actual internal drying make grading in the packing house a possibility. Fortunately, for Or-

SECURITY ACT TO AFFECT BANKS

PITTSBURGH, Pa. (AP)—Tom K. Smith, president of the American Bankers' association, told the opening session of a regional bankers' conference today the social security act raised a "very major question" in the future investment of bank funds.

"Under the social security act, approximately 3 percent of the nation's business payroll will this year be diverted into the reserve fund, which must be invested in government bonds," he said.

"In other words, this act will operate to remove increasing amounts of government securities from the investment portfolios of the banks."

Smith reminded the bankers and financial experts, attending the conference from 18 states and the District of Columbia, that banks today hold over 50 percent of the government debt.

The alternative of increasing the banks' investments in non-governmental securities, Smith said, "involved some major hazards." He cited the market record of 149 Class 1 railroads, commenting:

"According to a recent statement of the Bank of New York and Trust company, over half of these railroads have been in receivership or bankruptcy at some time during the past 43 years."

On the other hand, he said new investment fields might open to the bankers as their holdings of government bonds decreased, such as consumer credit as a means of employing idle funds.

anges and by the time these are ready for production of summer oranges and by the time these are ready for marketing it will be possible in many cases to separate out enough severely damaged fruit to leave a remainder in which the injury does not exceed the tolerance allowed by law for marketing as fresh fruit.

Perhaps also by that time we will see installed in many of the packing houses the fluoroscopic method of grading as suggested to the industry in the fall of 1933 by your commissioner.

We believe it is the desire of the industry to maintain the good name of the California citrus business in local and inter-state markets and to prevent the deception involved in the shipment of fruit which may appear to be excellent but prove to be of poor internal quality. It must be obvious that the accomplishment of this task can only be gained by a full and willing cooperation of all growers and packers. Every California grower must realize the responsibility in this emergency and must not expect his packer or packing house manager to jeopardize the interests of all by packing a single lot of unsatisfactory fruit.

A survey showed there were no horses on 34,751 of 174,589 Kansas farms.

Charges Hurlled At Island Chief

WASHINGTON. (AP)—Albert C. Levitt, former Virgin Islands federal judge, told the senate territories committee this week that Gov. Lawrence W. Cramer was "incompetent." He urged a congressional investigation of the administration of the Caribbean territory.

Levitt, now a special assistant to Attorney General Cummings, opposed confirmation of Cramer's 1935 appointment as governor of the island.

NAZI POLICE POWER NOW UNCURBED

BERLIN. (AP)—The vast, unseen power of the Gestapo—the Reich's secret police—has been lifted almost to omnipotence, official sources disclosed today.

Outlining the status of the Gestapo in the official publication, Deutsches Verwaltungsrecht, Werner Best, departmental director, emphasized actions of the secret police cannot be challenged by legal process. They are subject to revision only by the Gestapo's own organs.

Prevention of subversive activity is the organization's main task. This includes not only shadowing suspects but "constant watching of any activities in which hitherto unsuspected persons may be involved," Best wrote.

A wide field for prosecution is opened to the secret police by new definitions of punishable acts, such as "ideological sabotage" and "spiritual poisoning and camouflage."

Actions "dangerous" to the state, the director said, are worse than "hostile" acts, as the former reveal themselves only after the deed is done.

Best declared a complete list of sabotage attempts can never be compiled because "it cannot be foreseen what dangers in the future may threaten leadership and the nation."

National socialism, he asserted, does not resort to "physical annihilation" of its enemies, thus has had to adopt preventive measures to stop illegal movements.

"National socialism," Best wrote, "rejects paid agents and spies. It prefers to rely on the voluntary assistance of responsible elements of the people—that is, the national socialist movement."

Confiscate \$5100 in Gold Amalgam

SAN FRANCISCO. (AP)—On order of Federal District Judge Michael J. Roche, the United States government has confiscated \$5100 of gold amalgam found in the possession of E. H. Patterson

SAFETY IDEA FOR PLANES IN OFFING

LOS ANGELES. (AP)—Dr. Lee DeForest, celebrated radio inventor, is at work today on an "absolute altimeter" that may save future airliners from disaster when flying blind.

Twice in recent weeks, only a few miles from Dr. DeForest's Los Angeles laboratory, transport planes have crashed against storm-hidden mountain ridges. Seventeen lives were lost.

By Ultra Short Wave
But the radio scientist envisions an instrument by which pilots would always know their exact altitude and be forewarned of any projection looming in their course.

"I'm working on ultra short waves," explained Dr. DeForest, boyish in his enthusiasm. "The extremely short-wave field has never been greatly explored."

"By using this type of wave on an approach warning such as I have in mind, the pilot caught in a storm could direct it from the inside of the cabin toward the ground or straight ahead like a searchlight."

Always Positive
"The high frequency waves—the shorter the wave the higher the frequency—would be instantaneously reflected from the ground to the plane and register the intervening distance."

"The pilots then always could be positive of their exact altitude from the nearest ground and by directing the beam forward would know if they were in danger of hitting some jutting ridge."

BUSCH GARDENS TO BE CUT UP

PASADENA. (AP)—The famous Busch Gardens, known to most tourists who ever visited Pasadena, will be sub-divided into large plots for spacious homes and villas, Edmund V. Krug, manager of Busch interests here, has announced.

The late Adolphus and Lily Busch of the brewing family established the gardens along a tree-covered area overlooking Arroyo Seco in 1903. Since then, about \$2,000,000 has been spent in upkeep and improvements at the gardens.

Half the extensive acreage will be reserved for use of the American Legion, which for several years has conducted various activities there.

when he was arrested Dec. 17 in Marysville by secret service agents and state officers.

Patterson was charged jointly with James L. Dewitt, arrested in Pine Grove on the same date, with conspiracy to violate the gold reserves act of 1934.

The federal government was the only claimant of the amalgam before Judge Roche.

PERFECT CONTROL AT MILE-A-MINUTE CLIP

"Skiing Takes Good Digestion," says Skiing Wizard—
"AND A HEALTHY set of nerves too," continues Sig Buchmayr, shown executing a jump turn (left), and enjoying Camels during a hearty meal (right). "I smoke Camels a lot. I know they don't get on my nerves. And they help my digestion. Camels set me right!"

Vigorous people count on healthy nerves and proper nutrition to see them through. When you smoke Camels, the flow of digestive fluids—alkaline digestive fluids—speeds up. And you have a sense of digestive well-being. Camels are milder—better for steady smoking.

COSTLIER TOBACCOS

Camels are made from finer, MORE EXPENSIVE TOBACCOS... Turkish and Domestic... than any other popular brand.

ROSE DAVIS (left), champion cowgirl, often rides a bucking bronc twice a day. She says: "The jolting puts a strain on my digestion. That's why I smoke Camels with my meals and after. Camels are so mild."

VETERAN TEST DRIVER, Clyde Freeman (right), absorbs hours of punishment in a test car. He says: "For digestion's sake—smoke Camels! is a good idea. Camels set me right."

BUSY SECRETARY. Attractive Joelyn Libby says: "Camels put more fun into eating and smoking too."

AS A SEA-GOING CHIEF ENGINEER, George Buckingham, says: "Camels keep my digestion on an even keel."

RADIO'S NEW SMASH HIT! "Jack Oakie's College"

Fun and excitement every minute with irrepressible Jack Oakie at his best. Also Benny Goodman's "Swing" Band, George Stoll's Concert Orchestra. Hollywood comedians and singing stars—and a special college talent. Every Tuesday night—9:30 p.m. E.S.T., 8:30 p.m. C.S.T., 7:30 p.m. M.S.T.—6:30 p.m. P.S.T., over WABC—Columbia Network.

NEW TEST ON TOWNSEND PENSION

South Dakota Town Plans 'Improved' Security Experiment

HOT SPRINGS, S. D. (AP)—A new test of "Townsend spending," more comprehensive than the recent experiment at Chelan, Wash., was started on its way here today. The Townsend spending committee nominated five men from which the "spender" will be selected to dispose of \$200 in a month. But he will spend scrip, not actual dollars, as did C. C. Fleming, 63-year-old apple orchard worker, in the Chelan test.

Paul Martin, sponsor of the local plan, explained the committee decided to keep the money in the Townsend club treasury and issue negotiable instruments in \$1 denominations for circulation. "These negotiable instruments," he said, "will have space for endorsements on the back thereof by everyone who passes one of them, so that it will be possible to trace the course they follow through the avenues of trade and figure the amount and kind of business that each has accomplished during the experiment. This will enable the local test to be much more comprehensive than the one in Washington."

Representatives of the club were chosen to solicit the cooperation of civic clubs in the experiment, and a house to house canvass will be made by committees for the same purpose.

HOLDING FIRM WALLOPED

WASHINGTON (AP)—J. M. B. Hoxsey, technical expert for the New York stock exchange, described as "unhealthy" the towering pyramid of railroad holding companies built by the late Van Sweringen brothers, in appearing before the senate committee investigating railroad financing.

Chairman Wheeler (Dem., Mont.) of the committee presented evidence that Mid-America Corporation—top holding company in the Van Sweringen system—controlled several major railroads although it owned less than 1 per cent of their outstanding securities.

Richard Whitney, former stock exchange president, told the committee, "We believe heartily in Mr. Hoxsey and his views" but that he himself had "no opinion" on the holding company problem.

Wheeler noted Mid-America Corporation gave control of 23,000 miles of railroad and \$3,000,000,000 worth of properties to the owner of \$274,000 worth of holding company stock.

Chamber Board to Meet on Monday

A meeting of the new board of directors of the Santa Ana Chamber of Commerce will be held Monday at 4 p. m., it was announced today by President Rex Kennedy.

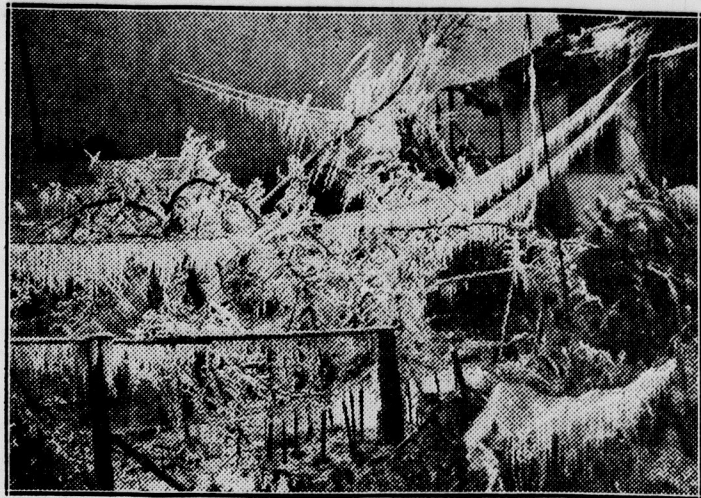

Kennedy called attention to the fact that the hour of meeting has been changed. Directors formerly met in the morning. Now they will meet in the afternoon.

Autoist Beats Parking Meter

DALLAS (AP)—F. L. Robbins of Ralls was determined to avoid telling it to a judge. He put a nickel and a note in an envelope addressed to the policeman on the beat and attached the envelope to a parking meter. The note read:

"Please put the nickel in the meter when my time runs out. Gone to the doctor's office."

Southern California Icicles

Southern California suffered its most severe cold spell of many years this winter. Freezing temperatures caused tremendous damage to the citrus crop. This back yard of a Sierra Madre home was transformed into an "ice garden" when an overhead sprinkler was left running all night. (Associated Press Photo)

Italian Flies in Monoplane Operated by Foot Power

MILAN, Italy. (AP)—Vittor Bonomi laid claim today to a successful "human flight" after reporting he had traveled five-eighths of a mile in a monoplane operated by his feet and legs.

The ship was designed by Enea Bossi, an American of Italian extraction now employed in Philadelphia. (The artist Leonardo Da Vinci spent years in vain attempts to perfect such a device.)

The cabin plane was operated by two propellers which received their power from a type of bicycle mechanism worked by the flier's feet. Bonomi declared the power was "stepped up" by an arrangement of cogs and shafts.

The ship's wings are rigid. The operator asserted the plane's minimum speed was approximately 2 miles per hour and its maximum 23 miles. Its climbing abilities, Bonomi said, varied with wind currents.

He said the plane would be entered in a \$5,000 "Human Flight" contest sponsored by the Italian Aero Club.

Stockburger, director of finance, has transmitted to State Controller Harry B. Riley a report made to him by Fred Links, superintendent of accounts, with reference to alleged irregularities in expense accounts submitted by H. C. Davis, executive officer of the fish and game commission.

Links' report says Davis has admitted he did not pay railroad fare for which he billed the state but maintains he made the charge to compensate for six airplane trips.

Stockburger said the department does not object to being billed for airplane travel on the basis of railroad rates providing the proper procedure is followed. Advance permission to go by plane instead of train must be obtained, he said, and the need as an emergency matter established.

TO SPROUT WINGS
NEW YORK (AP)—Baby-size wings called tabs, hooked behind the wings of big planes like air raiders, soon will ease the job of pilots. This development of aviation was reported to the Institute of the Aeronautical Sciences today by C. J. Wenzinger of the national advisory committee for aeronautics.

Similar legislation was enacted in 1910 when George V came to the throne and the Duke of Windsor, then Prince of Wales, was only 16 years of age.

The Princess Elizabeth, heir presumptive to the throne, is now 10 years old and would be unable to reign in her own right until she reached the age of 18.

The Princess Elizabeth, heir presumptive to the throne, is now 10 years old and would be unable to reign in her own right until she reached the age of 18.

FARMERS FIGHT LAW REPEAL

SAN FRANCISCO (AP)—Col. Walter E. Garrison, president of the Associated Farmers of California, announced that directors of the statewide organization had voted unanimously to oppose, before the state legislature, the movement to repeal the California criminal syndicalism law.

The farmers also voted to oppose the legislative measures forbidding counties and cities to adopt anti-picketing laws.

TRANS-OCEAN AIR ROUTE MAPPED

MANILA (AP)—Plans for commercial airline travel between Europe and America by way of the Orient were said to be nearing completion.

Commonwealth President Manuel L. Quezon, it was learned authoritatively, recently cabled Washington officials endorsing the application of the Royal Netherlands Indies Airways for permission to extend its service from Batavia, Java, to Manila.

The Dutch line was said to be ready to start such flights immediately, thus connecting European air transport service with the Pan-American Airways Clipper ships from Manila to Alameda, Calif.

Should the permit be granted, the Dutch line would use 14 passenger planes from Java to the Philippines.

G. O. P. GROUP PICKS CHIEF

WASHINGTON (AP)—The national Republican congressional committee has announced election of Representative Joseph W. Martin, Jr., of Massachusetts as chairman.

Representatives named regional vice chairmen: J. William Ditter, Pennsylvania, East; John M. Robison, Kentucky, South and border states; Everett Dirksen, Illinois, Midwest; Albert E. Carter, California, West. Rep. Clifford L. Hope, Kansas, was re-elected secretary.

Executive committee members: Representatives Charles Halleck, Indiana; Melvin J. Maas, Minnesota; Charles A. Wolcott, New Jersey; Dudley A. White, Ohio; B. Carroll Reece, Tennessee.

500 DEER FACE STARVATION

JACKSON, Calif. (AP)—Prevented from feeding by a two-foot, ice-encrusted blanket of snow, approximately 500 deer face starvation between the Tiger Creek power house and Salt Springs reservoir, above Jackson.

An effort was to be made today by a party headed by R. L. Little, local game warden, to carry hay by truck to the road between the power house and the reservoir, where the deer have congregated in small herds.

PRIOR OCCUPANCY
DANVILLE, Va.—J. T. Salmon will have to wait awhile before occupying his new house. An automobile moved in ahead of him.

The car, driven by E. P. Willis of Cunningham, N. C., collided with a truck and veered into the structure, knocking it off its brick piers. Both car and house were wrecked.

BYRD TO SEEK OIL, COAL IN ANTARCTIC

PORTLAND, Ore. (AP)—Rear Admiral Richard E. Byrd apparently has only well launched his career of exploration which has taken him to the opposite ends of the earth.

Byrd told interviewers here there are 1,000,000 square miles of unexplored Antarctic territory rich in coal and oil and that "I want to get it for Uncle Sam."

He said as soon as physicians pronounced him recovered from the effects of poisoning incurred during his trip to the South Pole two years ago he will start out again for the same region.

"There is plenty of coal down there to supply the entire world," he said, "and I am sure there is oil under the ice. Then when we learn more about the weather and how it is made down there, observation stations in Little America will be of untold help to the weather departments of all the rest of the world."

CUTTING REMARKS
SALEM, Ore.—To pep up a dull session of the state legislature, Rep. Hannah Martin made a motion that several members be urged to get haircuts. To his surprise, instead of engendering heated debate, the motion passed forthwith. Long-haired members promised to comply.

Chinese in Bed 37 Years Is Big Expense to County

SAN FRANCISCO (AP)—Ah Sin Sun entered the Laguna Honda home 36 years ago, complaining of a pain in his chest. The Chinese cook, aged 86 years, died this week having spent most of the years in bed because of heart disease.

"It is estimated that the cost to the city for this patient is around \$7,000," said Dr. J. C. Geiger, health officer. Ah Sin Sun will be buried in pauper's field.

PERKINS SEEKS SLAUGHTER ELK IN MONTANA

WASHINGTON (AP)—Secretary Perkins asked congress late yesterday for legislation to investigate the causes of strikes, lockouts and other industrial disputes.

In a letter to Senate Majority Leader Robinson of Arkansas, Miss Perkins asked for "utmost haste" in enactment of the legislation "because of the particular situations growing out of a number of current important and serious strikes."

Bill Would Block Voiding of Laws

WASHINGTON (AP)—Senator Gillette (D., Iowa) has introduced a bill requiring at least seven members of the supreme court to concur in finding facts of congress unconstitutional. The court would be required also to consider each such case without reference to its previous decisions.

MARINE HEAD DIES
BERKELEY (AP)—Capt. F. M. Edwards, president of the State Marine Pilots commission, died yesterday.

FLOOD CAUSE IS TOLD BY EXPERTS

WASHINGTON (AP)—Government weather experts explained today that the primary cause of all floods in this country was simply too much rainfall over one area in a short time. A second cause is the works of man, they said.

W. J. Moxom, the weather bureau's flood expert, said heavy snows sometimes were a contributing factor but that usually the "snows melt slowly and the runoff is gradual so that watersheds handle it through normal channels without trouble."

Man, however, the government experts said, is responsible to a degree for flood disasters. For many years he has hastened the runoff of water and filled the natural channels of watersheds by cultivating land, removing trees, draining swamp lands and destroying other natural barriers that hold water, they said.

Huge reservoirs, dams, levees and other large engineering works have aided in most emergencies, some experts said, but others contend more attention should be given small upstream projects.

Several administration groups now are working in this "Little waters" conservation theory as an aid to preventing droughts and floods.

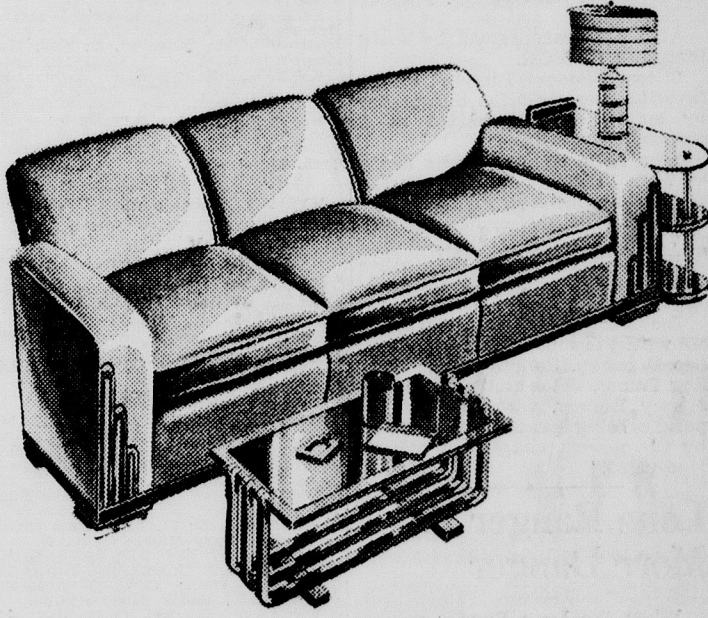

The Grand Coulee dam across the Columbia river will cost \$63,000,000.

Chandler's OPPORTUNITY!

Opportunity usually knocks but once—Here it has been knocking right and left—knocking prices down on discontinued floor samples.

We must take this opportunity to make room for new pieces arriving from the recent Eastern and Los Angeles Furniture shows. You should take this opportunity to realize real savings on this desirable furniture!

It's not often you have an opportunity to find the combination of good quality, good styling and good low prices.

LIVING ROOM OPPORTUNITIES

Listed below are only four of the living room groups. Every one a real opportunity to save!

\$69 Davenport and Chair 49.50
Tapestry covered groups in modern design.

\$79 Davenport and Chair 59.50
A smart modern style in durable tapestry cover.

\$85 Davenport and Chair 69.50
Covered in a pleasing combination of brown and white tapestry.

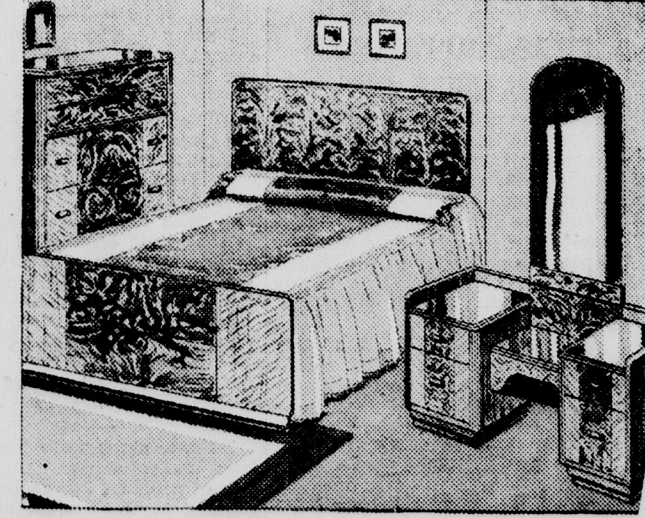

\$110 Davenport and Chair 79.50
Leather arms combined with heavy durable tapestry.

INDIVIDUALIZED CREDIT

Chandler's credit policy affords you the opportunity to select the furniture you need and pay for it without inconvenience to your income.

TRADE-IN ALLOWANCE

Another opportunity! Replace the old worn out furniture with new up to date styles. Chandler's appraiser will give you a fair, honest allowance.

BEDROOM OPPORTUNITIES

\$99 Three-Piece Group 69.50
Modern bed, chest and vanity or dresser in American walnut

\$120 Twin Bed Group 99.50
Two twin size beds, chest of drawers and large handsome vanity.

\$89 Twin Bed Group 69.50
A modern style, two beds, vanity and chest of good quality. Walnut.

\$69 Bedroom Group 49.50
Full size bed, chest of drawers and vanity. Excellent construction.

MIAMI RACE TOMORROW ON KVOE

Beach Handicap Heard Here at 12:30 From Hialeah Park

Continuing its exclusive broadcast of momentous turf events from Hialeah Park, Florida, the Mutual Broadcasting system will present the justly respected authority and commentator, Bryan Field, in a detailed description of the Miami Beach handicap, to be broadcast by KVOE and other stations in the nationwide Mutual network from 12:30 to 1:30 tomorrow afternoon.

Concluding minutes of the broadcast will be devoted to a report of progress in the novel contest through which listeners are given an opportunity to compete for a gratis trip to Miami, Fla., with all expenses paid, during the week which culminates with the running of the \$50,000 Widener Challenge Cup race March 6.

OPERA ARIAS ON KVOE TONIGHT

With appropriate gusto, Neapolitan-born Cesare Sodero directs the concert orchestra, soloists and mixed quartet in a program devoted to favorite arias from well-known operas. The feature, known as "Cesare Sodero Directs," will be broadcast by KVOE and other stations in the nationwide network of the Mutual Broadcasting system from 5 to 5:30 this evening.

Soloists include Aimee Deloro, soprano; Willard Amison, tenor; Stuart Gracey, baritone; and Mary Hopple, contralto.

'Modulations From KVOE'

A operatic half-hour under the title, "Cesare Sodero Directs," another thrilling true-to-fact real-life drama by Captain Don Wilkie, and the varied music of half a dozen of the nation's No. 1 dance orchestras!

All these features will be heard tonight on KVOE.

"Cesare Sodero Directs" brings favorite operatic arias interpreted by singers and orchestra at 5 o'clock.

"The Lone Ranger" rides again at 7:30. "Witches Tales," dramas of the supernatural, give listeners a tingling of the spine, starting at 7 and at 8 o'clock Captain Don Wilkie will be heard in another of his true-to-fact "In the Crime-light" stories.

The evening may then be topped off with the music of Mal Hallett, Leo Reisman, Sammy Kaye, Sterling Young, Veloz and Yolanda and Jimmy Dorsey, with this melodic parade being punctuated at 10:15 by the newest chapter of "House Undivided."

Lone Ranger in More Danger

When the Lone Ranger returns to a small western outpost to repay a debt of gratitude, he finds his mission jeopardized because a slip of his plans would mean death to both his Indian friend, Tonto, and himself.

This is the setting of the current adventure of "The Lone Ranger," to be heard on KVOE tonight from 7:30 to 8 o'clock.

INTERESTING! HELPFUL!

Radio Roundup TONIGHT AND TOMORROW

The following programs are compiled from daily reports provided by radio stations. The Journal assumes no responsibility for errors caused by last-minute changes in schedules. M—Mutual Broadcasting system; DL—Don Lee-Mutual Broadcasting system; N—National Broadcasting company; C—Columbia Broadcasting system; T—Electric transcription; R—Records; O—Organ; TBA—to be announced.

KVOE, 1500 kilocycles: KFI 540; KNX, 1050; KECA, 1330; KFOX, 1230; KFV, 1000; KMTR, 590; KFWB, 550.

8 to 9 P. M.

4 to 5 P. M.
KVOE—4:30, County Hospital Request Program; 4:30, KVOE-Journal World Wide and Local News.

EMPLOYMENT SERVICE IS OUTLINED

Facts regarding the National Reemployment service were called to the attention of employers today by Charles Fallert, district manager.

"The NRS is an agency affiliated with the U. S. department of labor, charged with the responsibility of operating a nation wide free employment service for the benefit of both the employers and workers. It represents a clearing house where jobless men and manless jobs are brought together.

Complete File
"This employment service was originally established to carry the load of various placements on the Public Works program, and to certify the workers that were engaged in the various work relief projects. In taking care of this great work, there was created an up to date file, showing the experience and record of the vast majority of all persons who have at any time been unemployed during the last three years, also those who are now employed but are seeking positions for which they are particularly qualified.

"These cards have, from time to time, been revised and adjusted so that at the present time, there is a very complete and accurate list of men and women, representing several hundred different industrial classifications. Therefore, it is easy to understand the reason why this service has been able, during the last year, to place several hundred qualified workers in private industry.

Educational Drive
"It is very apparent that the public in general is not familiar with functions of the National Reemployment service. Realizing this condition, the newspapers and various service clubs are showing their willingness to cooperate to the extent that a vigorous educational campaign is to be carried out informing the general public of this free service which will be as important a part in finding positions for people especially qualified for any given task.

"Regardless of an employer's requirements, if he will let them be known to the employment service, he may be assured that qualified and experienced applicants will be referred to him for his selection."

Fallert is anxious that anyone wishing workers of any description, get in touch with his office located at 208 Federal building, Santa Ana, telephone Santa Ana 4471.

Dedicate Requests To Ward Patients
Tomorrow's all request program on KVOE at 4 o'clock in the afternoon will be dedicated to patients in the tuberculosis ward of the Orange county hospital who have sent in requests for their favorite numbers.

Among them will be "On the Beautiful Blue Danube," "In the Chapel in the Moonlight," "When My Dream Boat Comes Home," "A Perfect Day," "Pennies From Heaven" and a variety of other selections.

Tom, Huck Still In Pirate Business
Putting up a brave front as they essay the lives of pirates on Jackson Island, Tom Sawyer and Huckleberry Finn secretly admit, each to himself, that he is just the least bit homesick. Then comes the ominous booming of cannon—the runaways sense its meaning.

Such is the story to be related in the latest episode of the "Adventures of Tom Sawyer," on KVOE tonight at 6 o'clock.

Uncover More Clues in Serial
Definite clues as to the mysterious disappearance two decades ago of Stephen Lawrence are discovered in the newest episode of "Drums," the William Farnum serial, to be broadcast by KVOE and the Mutual-Den Lee Broadcasting system from 6:45 to 7 o'clock tonight.

Ben Franklin Causes Divorce
LOS ANGELES (AP)—Robert M. Todd's persistent penchant for flying kites in rainstorms—la Benjamin Franklin—was cited by Mrs. Norma Todd in winning an annulment of their marriage.

HISTORIANS
SAN FRANCISCO (AP)—Allen Chickering was re-elected president of the California Historical Society for 1937.

Frank Comstock, bank stock forger, learned that the theft of a pipe and tobacco from him was a greater loss than the losses to others from whom he had stolen investments.

That is the substance of the true-to-fact story to be told by Captain Don Wilkie, former United States secret service ace, in his broadcast from KVOE tonight at 8 o'clock.

This will be the third of this series Monday and Friday nights at 8 o'clock; Wednesday nights at 8:15.

Plan Would Boost Pension Costs

The cost of granting old age aid in California will be increased an average of 80 per cent if the age limit is dropped to 60 years and the maximum of the monthly payments is increased to \$50, according to a study just completed by the research department of the California State Chamber of Commerce.

"Under the present law, with a 65-year age limit and a \$35 payment, the cost of this one type of public assistance will approximate \$34,662,508 for 1937-38, and \$55,022,544 for 1941-42," the chamber said. "If these two changes become law the corresponding costs would be \$63,420,840 and \$97,443,000. These sums may be compared with the cost estimate of \$23,852,503 under the present law for the fiscal year, 1936-37."

"California, under such proposals, would have its costs increased approximately \$40,000,000 a year, divided equally between the state and the several counties. The increase cost to the federal government would be only about a million dollars."

T. F. Glenn of Mercer, Pa., reported in the late October that a tree on his place had sprouted a second crop of 17 apples.

DIP INTO SOUTH FOR MUSIC

The George Garner negro chorus of Pasadena, scheduled to appear in the First Baptist church here on Sunday evening, will bring to Santa Ana one of its typical programs of negro spirituals and folk songs under the direction of conductor George Garner.

The headquarters for this organization, the George Garner Negro Music Research foundation in Pasadena, has been the birthplace of many of the arrangements of spirituals that the chorus sings.

The foundation, the only one of its kind in America, was conceived by Garner as a place to house the spirituals taken from the deep South during his frequent sojourns there as a Chatauqua singer. Many of them have been set to music by the conductor's wife, Mrs. Netta Paulyn Garner.

Officers of church urge those expecting to attend to be in their seats at an early hour, to assure themselves of ample seating accommodations. The services will start at 7 p. m.

Brick Dust

Here and There With
The Journal's
Rambling County Editor
By T. N. (BRICK) GAINES

(Continued from Page 1)

a lot of us into trouble, so Brick is home with the trouble all right.

It just occurs to me now that Brick told me once that Warren Bradford didn't want him to say anything in his column about him, so I won't either. But Bradford sold a carload of navel oranges a few days ago at a good price, and the price is not mentioned because Warren does not want anything said about him in this column.

You know Brick is the boy who is hard to catch. He goes places. He rides from hither to yonder over Orange county to see people and get them to tell him things and he can put 'em in this column, and then they get an honest reporter that question has been settled for all time.

Brick is in a neighborhood where there is an honest man. Jim Tuffree admits the recent freeze did a lot of damage to oranges and said so. So old man Diogenes can put out his lantern. Now if Jim can get an honest reporter that question has been settled for all time.

If Brick knew he was going to be sick, and he suspected it, why in the dickens did he tell Verner Beck of Capistrano so he could have sent up a "chilluns" story? I've got my own trouble to look after, and no orchard heaters to help. But when you have the flu you can't think of more than one thing at a time and that's the flu.

When Brick gets well I want to tell him to find out about the oil derrick at 101 highway and Ball road. Its too early to call it a well. But, gee, I have a lot of good friends who are interested and leased and would like for him to adopt a watchful waiting policy and sound out what the prospect is for oil. The recent unfavorable weather has turned the thought of many ranchers from oranges to oil.

And another thing, if I had as many friends scattered over the county as Brick has I would assign them as guest editors during the duration of the flu, and then go home and let the other fellows worry about it.

One of these days I'm going to take a trip with Brick over the county to see if the towns are in the same location they were when I used to make them and leave political advertisements for the newspapers, whose publishers were always glad to see me, and what I had for them.

Those visits were an oasis for me, and so far as I could determine afforded some comfort for the newspaper boys. The list of publishers in the main remains about the same, so it is a fair conclusion that my appearance under the same circumstances would be welcome. And under the same circumstances I would like to make the trip again. You understand those were republican circumstances.

Oh, well, why should I worry about Brick. He has the flu, which is no respecter of persons, and it couldn't be if it attacks a little shrimp like Brick. I just wanted his many friends who read his column to know that he is sick, and if they offer the same remedy they offer me there is some hope that the influenza, an infectious epidemic which involves the respiratory tract and mucous membranes, will be driven to cover and that he will return with all the snap and vigor of his customary self. Now, Brick I have given your friends the hint. If they fail to deliver they are not your friends.

Dorothy Miller Has Birthday

MIDWAY CITY.—Dorothy Miller, daughter of Mr. and Mrs. S. A. Miller, was luncheon hostess recently on the occasion of her tenth birthday anniversary.

Places were marked for Joyce Campbell, Doris Taylor, Beth Wise, Gloria Inman, Betty Hall, Mary Ellen Prichard, Ruth Robertson, Shirley Davies and Betty Lou Holly. Games were played, with prizes going to Jean Fraser and Peggy Miller.

San Clemente Is 'Different' In Plans for Ball

SAN CLEMENTE.—Always different—that's the rule in this Spanish Village.

Even when it comes to staging a President's ball, San Clementians adopt a different plan than other communities. This year all proceeds of the ball, slated for Saturday night in the Social clubhouse, will go to the Warm Springs Foundation. None of the funds will be retained here.

Dan Mulherson, Mayor Henry Fate and George Stearns are in charge of arrangements.

\$500,000 FEDERAL PROGRAM UNDER WAY AT NEWPORT BAY

START WORK ON SEWER PROJECT

\$190,000 Sea Wall to Be Completed Soon; Board Walk Job Begun

NEWPORT-BALBOA.—First of the new month finds more than \$500,000 of public engineering construction underway in the Newport harbor district.

Prospects include the new \$350,000 sewer system, the Balboa island \$190,000 bulkhead, and last, but not least in the minds of old Newport oceanfront residents, ripping up of the last of the old boardwalk in preparation for laying cement paving.

Curb-molds already have been framed for the new cement strand in front of Newport's 40-year-old city hall, and at night construction flares exhibit a glow as warm as that of beach property owners who frequented many a council meeting in the former school building to urge haste in the improvement.

Equipment of the Drainage Construction company, meanwhile, was being moved to the west Newport site of the new sewage disposal plant where construction of work-road was to be the first job undertaken.

From there, activities of the big contract will move along the coast highway, excavating for laying of the main, according to report of the firm's program.

On Balboa island the bulkhead to circle the island was progressing at the rate of 60 feet a day, according to residents. Of heavy concrete construction, with piling sunk many feet below the water-front sand, the wall should be completed well within the contract time limit this summer, it was believed.

All pre-cast slabs have been cast at the field established beside the coast highway near the lower road to the island.

CHAMBERHEADS APPOINTED

NEWPORT-BALBOA.—Theodore Robins, newly-elected president of the Newport Harbor Chamber of Commerce, announced his committees today, adding that additions may be made as the chamber's 1937 program develops.

Committees include: Finance, Dr. Gordon M. Grundy, J. A. Siegel, Albert W. Dyckman, Robert Boyd and H. H. Williamson; civic affairs, P. A. Palmer, William J. Brown, S. A. Meyer, Dr. Howard Seager, Walter S. Spicer, George P. Wilson, Donald Beach Kirby and Lew H. Wallace; education, George P. Wilson, Dr. Gordon M. Grundy and J. P. Greeley; finance, J. E. Sadleir, L. W. Briggs, Walter S. Spicer, J. D. Watkins, A. J. Twist and J. A. Gant; fishing, Heinz Kaiser, C. F. Dennison, L. H. Wallace, Hugh McMillan, Darrell King, G. E. MacGinnie, C. Von Kennel and J. B. McNally.

Harbor affairs, Walter S. Spicer, William J. Brown, Hubbard Howe, Heinz Kaiser, P. A. Palmer, J. B. McNally, R. L. Petterson, Dr. Albert Soland, Dr. Howard Seager, and L. H. Wallace; hospitality, Hubbard Howe, C. F. Dennison, J. P. Greeley, Dr. Gordon M. Grundy, J. D. Watkins, E. I. Moore and Harry Hyde; matches, P. A. Palmer, C. F. Dennison, C. E. Dickens, and William Ireland; merchants bureau, S. A. Meyer, P. A. Palmer, J. E. Sadleir, J. D. Watkins, and E. I. Moore; public relations, L. H. Wallace, Dr. Gordon Grundy, Heinz Kaiser, S. A. Meyer, P. A. Palmer, Theodore Robins, and Walter S. Spicer; reality division, Briggs Palmer, J. E. Sadleir, A. J. Twist, Raymond Parker, and H. H. Williamson; recreation, Greeley, Kaiser, J. A. Siegel, W. S. Smith, J. A. Beek and Dennison.

Scouting, Dr. Grundy, Siegel, Spicer, J. D. Watkins, Lloyd Claire, Beek, Davidson, Frank Crocker, Irvin George Gordon, Judge W. A. Leonard, W. C. MacDonald, A. J. Twist, and Williamson; signs, Siegel, Dennison, Palmer, Dr. Howard Seager, Claude Pullen and John Allen; streets, Dennison, Briggs and J. Wooley; taxation and legislation, Dr. Seager, Greeley, Palmer, Grainger, Hyer, Mark J. Johnson, Wallace, and Beek; tournament of lights, Beek, William J. Brown, Greeley, Hubbard Howe, Palmer, Spicer, and Wallace; yachting, Brown, Briggs, Hubbard Howe, Kaiser, Harry Stewart, J. M. Webster, Dr. A. Soland, William A. Bartholomae and Harland F. Beardslee.

SCOUT BANQUET SET TONIGHT

COSTA MESA.—The annual Boy Scout-Parents banquet will be held this evening in the social hall of the Community church, the affair to be a pot-luck dinner beginning at 6:30 p. m. All Costa Mesa Boy Scouts, Cub scouts, their parents and Men Brotherhood members are invited.

A good program has been arranged, according to Lloyd Williamson, Scoutmaster, the two main speakers to be the Rev. Calvin Durcan, Tustin, and Harrison E. White, chief Scout executive of Orange county. A Scout stunt program is also planned, with musical numbers.

North County President's Ball Plans Completed

March Director

Harry F. Smith, (above) president of the North County Chamber of Commerce, who will act as director of the grand march at the fourth annual president's birthday ball in the Fullerton Union High school gymnasium tomorrow night.

NEWPORT-BALBOA.—Patronesses of the Newport Harbor observance of the President's birthday Saturday night were named today.

They included: Mrs. William H. Adams, Mrs. Florence Anderson, Mrs. Ida Brinkman, Mrs. T. E. Bouchey, Mrs. J. A. Beek, Miss Ann Bregar, Mrs. L. W. Briggs, Mrs. Chester W. Brown, Mrs. Iris Brown, Miss Agnes Blomquist, Miss Helen Coffin, Mrs. J. L. Chase, Mrs. Lloyd Claire, Mrs. H. B. Coomer, Mrs. W. W. Crosier, Mrs. Edward T. Chapman, Jr., Mrs. Sidney H. Davidson, Mrs. E. H. Day, Mrs. Ida Deakins, Mrs. Don Douglas, Mrs. Helen Dixon, Mrs. Mary Dyckman, Mrs. J. C. Elliott, Mrs. J. H. Estus, Mrs. Horace Ensign, Mrs. Helen Elder, Mrs. Eugene Fenelon, Mrs. Gordon B. Findlay.

Mrs. J. A. Gant, Mrs. E. S. Gardiner, Mrs. A. J. Garfield, Mrs. Irvin George Gordon, Mrs. J. P. Greeley, Mrs. Gordon M. Grundy, Mrs. C. Harold Hopkins, Mrs. Charles L. Hill, Mrs. H. H. Hilmer, Mrs. Alfonso Hamann, Mrs. William Rhodes Hervey, Mrs. Roland Hodgkinson, Mrs. Arthur Hooker, Mrs. Hubbard Howe, Mrs. Harry D. Hyde, Mrs. Raymond Kent Harvey.

Mrs. Mark J. Johnson, Mrs. W. L. Jordan, Mrs. King Joslyn, Mrs. R. H. Kennell, Mrs. Donald B. Kirby, Mrs. Sam Kinsfather, Mrs. D. S. Lloyd, Mrs. Edmund Locke, Mrs. W. A. Leonard, Mrs. Roy J. Lyon, Miss Lily Lahti, Miss Marguerite Macculloch, Mrs. Henry B. Marsh, Mrs. Byron L. Marshall, Mrs. L. B. McGavren, Mrs. Ralph P. Maskey, Mrs. S. A. Meyer, Mrs. E. I. Moore, Mrs. Earl S. Morrow.

Mrs. Ida P. Naylor, Mrs. Nella Norton, Mrs. Vernon Orr, Miss Alice Plumer, Mrs. Claude A. Pullen, Mrs. Frank L. Rinehart, Mrs. George E. Russell, Mrs. Theodore Robins, Mrs. Robert E. Ross, Mrs. A. B. Roussele, Mrs. Harry Rider, Mrs. J. E. Sadleir, Mrs. W. S. Smith, Jr., Mrs. Alfred Smith, Mrs. Conrad Shook, Mrs. John A. Siegel, Mrs. Hal Will Smith, Mrs. Howard Seager, Mrs. Walter S. Spicer, Mrs. H. E. Stahler, Mrs. Roy Summers, Mrs. Roland Thompson, Mrs. A. J. Twist.

Mrs. M. A. Weston, Mrs. Edwin M. Williamson, Mrs. Harry Welch, Mrs. George P. Wilson, Mrs. Percy J. Wilson, Miss Marguerite Way, Mrs. E. B. Whitson, Mrs. H. Q. Willis, Mrs. J. F. Watkins, Mrs. Gertrude A. Waldron, Mrs. H. H. Williamson, Mrs. J. D. Watkins, Mrs. Lew H. Wallace, Mrs. Lonnie Vincent, Mrs. John F. Vogel and Mrs. Leon E. Yale.

Mesa Women Aid Flood Sufferers

COSTA MESA.—Mrs. A. L. Pinkley and Mrs. C. G. Huston have been named by the local Red Cross chapter on a committee to solicit funds for flood sufferers in the Mississippi and Ohio River valleys. The quota for Costa Mesa has been set at \$25.

VEGETABLE PRICES ARE LOW!

Port Visitors Shop Joyously

NEWPORT-BALBOA.—What do mean high? Fresh vegetable prices hiked up by the freeze, may look high to year-round Californians, but to at least half of Newport Harbor district's winter population the figures on the tags are startlingly low.

Eastern visitors, and that means anybody from as far east as Nevada, are occupying about half the homes and apartments in the Harbor district now, and they are not complaining a bit.

"Only three cents a pound!" Two couples from Minnesota, according to bright new license plates, had to stop their cars before old Newport's oceanfront

FULLERTON.—Details of the fourth annual birthday ball for the president were completed by the general committee for the Northern Orange because of the meeting at the Fullerton chamber of commerce offices last night.

The ball will be held tomorrow evening at Fullerton Union High school gymnasium. Doors will open at 8:30 p. m. and dancing will begin at 9. The card party will be at the Ebell clubhouse at 8 p. m.

President Harry F. Smith of the chamber of commerce, will be director of the grand march, with Harry M. May, secretary of the committee, assisting. Assemblyman Thomas Kuchel, Anaheim, will lead the grand march.

Chairman William G. Stedman will be in charge of dancing, while Mrs. C. E. McMaster and Mrs. Bennie will be in charge of the card tournament.

Sale of tickets is in charge of Harry Welsh, Fullerton; and Leon Wisely, Buena Park.

Chairman Stedman, in a final appeal, said "Anyone who has seen the heart-breaking living picture of what infantile paralysis can do to a child will not hesitate to dig down to his last dollar to help support the fight against this most tragic of all children's diseases. There can be no more pitiable sight than that of a child crippled for life because preventive and curative facilities were not available in time."

LEADERS OF RED CROSS NAMED

ANAHEIM.—Election of officers committee chairman and board of directors was carried out at the annual meeting of Anaheim Red Cross chapter Wednesday at the Marigold cafe.

The Rev. M. C. Schollenberger was elected chairman, succeeding Miss Dorothy Yungbluth. Other new officers are George Henry, vice-chairman; Mrs. J. P. Brastad, secretary, and E. Kate Rea, treasurer.

Ray Smith was named to head the disaster relief committee; Charles Griffith, home service; M. A. Gauer, Junior Red Cross; Mrs. W. R. Ward, first aid; Mrs. Laura Harland, production; R. Nyboe, home and farm accident prevention; and Mrs. Mae LaVeck, publicity.

Other directors are H. N. White, Dorothy Yungbluth, Mrs. Rufus Balch, Rev. D. H. Dow, Mrs. Charles Harbeson, Mrs. H. W. Saulsberry, Mrs. Floyd Benson, and Mrs. Bessie R. Juskiewicz of Los Alamitos.

Blanding Is G. G. Lion Speaker

GARDEN GROVE.—Ted Blanding, Santa Ana, was guest speaker at the luncheon meeting of the Lions club Wednesday, talking on the history of landscape gardening, effects of frost on vegetation and means other than amide pots now being tested as a means of combating frost damage to citrus trees.

Principal among these devices is the wind machine, he said, which was tried out during the recent freezing weather, but from which results have not yet been learned. Leslie Wright was program chairman.

Charles Lake also spoke briefly on the eastern trip from which he and Mrs. Lake recently returned. Ernest Fulson was appointed as the club's delegate to the Lions International President's banquet which was held at the Jonathan club in Los Angeles Wednesday evening.

Former Mesa Man Summoned

COSTA MESA.—Roy Bell, a former resident of this community died Sunday in a Long Beach hospital where she had been taken two weeks before. He is survived by his wife and one daughter, both in Long Beach.

The Bell family lived in Costa Mesa until six years ago, and Mr. Bell was active in Community church work. Services will be held from the Community church with the Rev. Lyman R. Bayard of Watts, officiating.

The Canal Zone is a strip of land extending five miles on each side of the Panama canal. It is a U. S. government reservation.

BENEFIT TICKET SALE JUMPS

LAGUNA BEACH.—With the advance sale of tickets moving rapidly, attendance at the annual president's ball for infantile paralysis benefit fund is expected to jam the two dance floors tomorrow night according to Ray Fisher and Ronald Vincent, who are publicizing the event.

Local clubs and organizations are cooperating in the sale of tickets and meeting with gratifying response.

Besides the choice of the two dance orchestras at Hotel Laguna and Laguna Ballroom, there will be considerable entertainment, according to Gaylord Fanning who is arranging numerous card games and diversions for the guests.

Section of Club Meets at Mesa

COSTA MESA.—Linoleum block printing was the featured study at the regular meeting of the Arts and Crafts club Tuesday, when Mrs. Merwin J. Flicks, chairman, exhibited more than 25 ways in which the block printing could be used effectively.

Present were Mesdames J. C. Payne, M. J. Flicks, George Merrick, W. B. Murbarger, N. O. Mellott and Alma Sexton.

GROWING PAINS

By Phillips

"Now name five great generals in the order of their importance."

VISIT GUN CLUB SPRINGDALE.—Mr. and Mrs. Leo McLaughlin, Pasadena, accompanied by Miss Gertrude Killean, were Sunday guests at the Los Patos gun club.

NEW ORCHESTRA SCHOOL PLAN

OCEANVIEW.—Two orchestral groups which have been practicing since the opening of the school year will combine next semester to form a school orchestra of 30 pieces under the direction of William B. Leedke, former assistant manager of the Trojan band and manager of the concert orchestra at U. S. C.

Student members of the organization and the instruments they play include Bobby Heil, piano accordion; Jessie Case and Dorothy Murdy, flutes; Olive Wood, Billy Woods, Jimmie Stinson and Lloyd Friend, violins; Dallas Groves, cello; Betty Moulton, piano; George Tyler, bass drum; John McCormick, Betty Beem, Phyllis Brush, Donald Harding, Billy Heil, Alvin Kratz, Teddy Bennett and Maudine St. Clair, trumpets.

Bobby Letson, trombone; Bruce Worthy, Ruth Whitaker, Gene Harding and Roland Worthy, clarinet; Betty McKenzie and Vivian Lawton, xylophone; Genevieve Anderson, bass drum; Maxine Murdy, cello; Marjorie Cline and Dorothy Ann Hurst, violins, and Phyllis Schuth, snare drum.

A battalion of fire fighters used parachutes in Russia recently to reach a remote area of the Urals, where it curbed a forest fire.

FOURTH AT MAIN PHONE 2181

SIX TARGETS SIGHTED BY SHEPPARD

There are six things Congressmen Harry Sheppard of the 19th district would like to see congress do this year. He wrote The Journal today, saying he had outlined his six-point program to his staff and that each of the points constitutes a major pledge in the platform on which he was elected. Water conservation and flood control are included in his program.

The six problems are: 1. The problem of neutrality and peace; 2. The general welfare act, the new bill of the Townsend national recovery plan; 3. Restriction on the importation of eggs so as to relieve the pressure now placed on poultry raisers in the 19th district; 4. Increased federal recognition of its responsibility to the interstate transient indigent problem; 5. Federal interest in long time planning of flood control and water conservation; 6. Public works appropriations.

To Fulfill Pledge
"Ninety-nine per cent of all America desires legislation that will eliminate the cause of wars and I intend to lend every possible effort to aid in drafting legislation that will insure America's peace," Sheppard said.

"Insofar as the general welfare act is concerned, I pledge my support and earnest efforts toward the enactment of this proposed bill into law and I fully intend to fulfill that pledge to the very best of my ability."

"The matter of increasing tariff on imported eggs may seem humorous and of small importance to many people. To our thousands of egg producers, however, this problem is no joke. The Chinese powdered egg product is and will gradually flood our markets unless our producers are protected by a sufficient tariff wall."

Transient Problem
"I am vitally interested in the problem of the indigent interstate transient because it affects our own state of California and the 19th district to a tremendous extent."

"Under our Constitution no state or political subdivision thereof can legally prevent a citizen from moving from one state to another. However, local county and state agencies in the state of California cannot possibly continue to bear the financial burden of even emergency care for indigent out of state transients. The federal government should and must assume this responsibility."

Ready to Serve
"With water conservation recognized as an economic necessity to

Joins Hugh Lowe

HERBERT KAUFFMAN

Herbert Kauffman, who had been with the Newcomb shoe store for the past 11 years, now has joined the staff of the Hugh J. Lowe clothing store, it was announced today.

Before going to work in the local shoe store Kauffman worked in a Fresno clothing store. His home residence is at 1405 North Garnsey. He is married and has one child. He extended an invitation to his friends to visit him at his new place of business.

Health Test 'Blockade' Looms

SACRAMENTO. (AP)—Governor Merriam expressed the opinion yesterday the state board of health has the authority to demand that those seeking admission to California—with special reference to transients—submit to health examinations.

The Governor made the assertion when pressed for a statement as to whether he contemplated establishing or supporting a border blockade to cope with the great influx of indigents into the state.

Southern California, agriculture, I believe that any public works program should include a long time planned program to insure the holding and raising of our state water levels together with flood control.

"Public works appropriations must be sufficient to complete projects under way and insure a livelihood to any able-bodied person willing to work until absorbed by private industry."

"My office is now organized to serve the people of the 19th district," Sheppard added, "and I want them to feel that I am here for that purpose."

BIG PROBLEM CAUSED BY INDIGENTS

LOS ANGELES. (AP)—Southern California's indigent transient problem reached a critical stage today as hundreds of men and women, in some cases accompanied by their children, poured across the state lines, driven by severe weather, floods, strike and last summer's drought.

In spite of the measures taken by Southern California authorities, the flow of out-of-state residents without means has continued until today jails are full and private agencies are taxed far beyond their limits to aid them.

Disheartened at failure of efforts to stem the tide of homeless wanderers, the Los Angeles County Citizens' Relief Committee last week appealed to state and federal officials to demand reestablishment of some kind of a national program for transients. The local council of social agencies has appointed a committee to meet with Mayor Frank Shaw of Los Angeles to work out a local program to relieve the situation.

"Few realize the deplorable conditions that exist here," said Mrs. Dorothy W. Smith, general secretary of the Travelers' Aid Society here. "The old time, savage hobo jungles are being re-established in outlying sections, the cheap all night shows are crowded nightly with sleeping boys and men who have nowhere else to go, and all social agencies are swamped with pleas for help that cannot be met."

Bribe Taker To Get Parole

SAN QUENTIN. (AP)—Sid Graves, 55, former Los Angeles supervisor serving a sentence for bribery, will be paroled from the prison Feb. 28 if employment is found for him.

Graves, who entered the prison March 31, 1934, is employed as a checker at the prison waterfront.

Bay Bridge Will Open on May 21

SAN FRANCISCO. (AP)—Opening of the \$35,000,000 Golden Gate bridge was set yesterday for May 21.

Directors considered a plan to designate the day before formal opening as pedestrians day for those desiring to walk across the span.

RED SCALE IS PUT ON SPOT BY SCIENCE

RIVERSIDE. — Entomologists throughout the world, and especially in California, are expected to be benefited as the result of a research project conducted at the University of California's citrus experiment station, results of which are now being published by the university press.

It relates to the scientific classification of the red scale, and the yellow scale, both of which are injurious insects affecting the citrus industry.

Scientists Handicapped
The research was conducted by H. L. McKenzie, laboratory assistant in entomology at the experiment station. According to Dr. H. J. Quayle, professor of entomology, scientists have always been handicapped in attempts to distinguish between the red and the yellow scale. McKenzie has employed a new characteristic, and as a result has made possible a quick and positive identification of the two pests.

Saving Promised
McKenzie's work makes possible an immediate saving of money to citrus growers in eight "red scale protective districts." They are known as the Santa Paula, Fillmore, Etowanda, Fontana, Goleta, Carpinteria, Redlands and Rialto districts.

An intensive extermination of the red scale is in progress in these districts, but little attention is given the yellow scale as it is much more easily controlled. The difficulty has been to distinguish the red from the yellow scale, and now that this is possible, considerable saving in money and effort will result.

KING OF SPEED GETS TROPHY

NEW YORK. (AP)—Howard Hughes, millionaire Texas oil man and Hollywood movie producer, holds the Harmon trophy today for noteworthy flying feats during 1936.

The announcement of the award was made by Col. Charles Kering, president of the American section of the Ligue Internationale des Aviateurs.

During 1935 Hughes set a world's land plane record of 352.388 miles per hour at Santa Ana, and last year he winged from Miami to New York in four hours, 21 minutes, 32 seconds.

On Jan. 19, he crossed the country in the remarkable time of seven hours, 23 minutes, 25 seconds.

Film Beauty To Run Paper!

HOLLYWOOD. — Beauteous Gloria Stuart says her prospective purchase of a Southern California weekly newspaper is "strictly a business proposition."

The movie player, currently working in "Girl Overboard," said she has taken an option on a flourishing newspaper property and is only waiting for a break in her picture assignments to become a full-fledged publisher.

"I can't hope to actively manage the weekly for several years," she declared. "But I intend to devote all my 'spare' time to it."

Before becoming an actress, Miss Stuart was a reporter on publications in Santa Monica, San Francisco and Carmel, she said.

Lettuce Worker Quizzed in Murder

SALINAS. (AP)—Fred Gift, 37-year-old lettuce field worker, was en route to Des Moines, Ia., today for further questioning about the killing of a girl in Iowa 11 years ago.

He was in custody of Paul Castelline, Des Moines police detective, and Deputy Sheriff Lewis Johnson of Warren county, Iowa.

Castelline, just before the party left here Wednesday, said he was satisfied Gift was involved in the killing of an unidentified girl in Carlisle in July, 1925. Gift was arrested here Jan. 20.

Easier to Own Your Home Now

WASHINGTON. (AP)—Stewart McDonald, housing administrator, told congress "the acquisition of a home has been made easier and safer for the family of moderate income."

He reported a gross business of \$1,350,157,149 during two years of federal financing, of which \$810,000,000 was transacted in 1936.

"Mortgage money, which had almost vanished from the market two years ago, is now generally available for home financing on fairer terms than ever before in history," McDonald said.

Aviation Will Be Taught at U. C.

SAN FRANCISCO. (AP)—College courses in aviation were announced here today by the University of California extension division and San Francisco State college.

The extension course, in air navigation, opens tonight. The State college course, intended primarily for teachers and covering both flying theory and the building of model planes, starts next Monday night. The courses offer one and three credits respectively.

By PAUL WRIGHT

(Continued from Page 1)
one or two little bursts of girlish enthusiasm written by amateur attendants that have misguidedly crept into your columns, but to what the girls in the know really think, and stuff.

SHE STEPS INTO WRESTLING RING

Now if you fellows could just convince your wives that "those two great big hulking brutes" weren't out to murder each other—that they didn't feel a bitter animosity toward each other—that half the time their punches that sound so distressing aren't landing at all—that their moans and groans are dish out for the public that loves good sound effects—and that even when they ostensibly are rubbing popcorn into each other's eyes it's really just a gentle massage—wouldn't they be a little more reconciled, and a little less palpitating, concerning the muscle-twisters?

Personally—I used to leap and shriek with the best of them, but now when I see a couple of hun-dred pounds of flesh coming my way through the ropes, I just re-lax, trusting in the unwritten law that says the press row is sacred and inviolable. Of course, there have been mistakes, but I don't hold it against the boys. It's all in fun—even that none too gentle kick in the temple last summer.

I've gotten a little calloused, too, about these big bad men. I'm pretty sure that the evil, Machiavellian Baron Ginsberg is prob-ably a pretty good cook. And I know that Nick Lutze, who can torture and twist with the best of them, is really an active Y. M. C. A. member and a self-made man.

NOW LOOK OUT, MAN MOUNTAIN!

Then there's that extremely "nasty" person in the ring—Howard Cantonwine. Howard is really a very pleasant fellow, and if and when he over-reaches him-self a trifle and gives handsome Sammy Stein a Charley horse so big that it looks like a summer mallet—why that's unfortunate, and unusual. And although he leaps up and down and shrieks with joy during the process, and presumably is desperately pour-ing it on—I know he really is just curling up with his Saturday Evening Post.

And contrary to preconceived opinion, not all the wrestlers are as well-shall we say han-dsomely homely as that enormity, Man Mountain Dean. Of course, I can't say I'm fascinated ex-actly by our pound-pounding war-riors, but our pound-pounding war-riors, and Dean—well, Dean, I like Dean. Dean is a real character. Dean looks exactly like Charles Laughton in his more fishily sneering moment—but say now—when you come to Casey Columbo and Vincent Lopez and blonde Al Christy—and Nick Lutze, too, they're pretty tasty looking young men. And Wild Bill Hansen and Senor Don Juan Pico have a certain lusty what-you-may-call-it about them, too.

Then there's that cunning Pat O'Shocker—who dances and weeps around with his face all whimpere up like a rose baby's and I kind of like this very tough Brother Jonathan, too—particularly since he's shaved the whiskers. He looks as if he had a sense of humor.

DICK DAVIS COUNT SINGS LULLABIES

And Baby Bob Coleman—he's a pretty good, too—if he doesn't get too cocky. I think he's a clever wrestler, and he doesn't have to be dirty to put on a show, either.

And did you know that "Dirty Dick" Daviscount has a pretty good-sized family (I think) and undoubtedly knows how to sing lullabies? I never cared very much for Ernie Dusek, because—oh my. There were times when I was tempted to shrink, and did. He looked awfully mean.

Then there's another angle. I

firmly believe in that sage re-flection "People have more fun than anybody" when I look around the ring every Monday night. Gosh—they whoop and holler and laugh and luff. And you'll see a nursing Mexican mother practically rubbing elbows with people like Mrs. A. G. Flagg and Mrs. James Irvine and Mrs. A. I. Melanthin and Mrs. Frank Drumm—and all of them just having a swell time.

LOVES TO HEAR BULL MONTANA GROWL

And there's the dapper im-pressario that gets out in the ring to soothe the maddened crowd and announce the boys and stuff—and who always is the picture of sartorial elegance. This week he had an—purple suit.

The referees have fun, too. I love their expressions of shocked consternation when after 10 minutes of screaming and booing from the audience, they finally discover an alleged bit of kneecap action or eyeball pressing. I love the way Bull Montana growls and shakes his fist when the socking gets a little bit too hard—and I never feel properly sorry for the poor men when their shirts get torn to ribbons and they get all twisted up in the ropes along with the fighters, because it's too funny.

And it's fun to see how em-bar-rased "Doc" Larry Cameron looks when he occasionally has to pile his not-insignificant frame into the ring to adjust a muscle or a pain.

Honestly—I'm not a blood-thirsty wench—and not very tough—and not a thrill-seeker. But I think it's swell fun to see them tangle—all of them.

Do you know whom I like the very best?—Kiman Kudo.

Why don't you read this to your wives?—Or do you want to keep Mondays your nights out?

O. S. C. FACES WASHINGTON

CORVALLIS, (AP)—The unde-feated Washington Huskies moved into Oregon today to tackle the humble Oregon State Beavers and then the galling Oregon Web-foot in vital series of the Pacific coast conference northern division basketball game.

The Huskies have handed the Beavers two licks already this season and were favorites to re-peat tonight and tomorrow.

Fights Last Night

New York —Kid Chocolate, 127½, former world featherweight champion, outpointed Johnny Mirabella, 127½, Brooklyn, (8).

Scranton, Pa. —John Henry Lewis, 179, light heavyweight champion, stopped Chester Palutis, 176, Scranton, (7).

SPORTS SLANTS

By "PAP"

Suyo Ohe, Japan's athletic am-bassador of good will, is a most welcome attraction at the big in-door track meets this winter. Ohe is one of the two foreign vaulters who have cleared 14 feet, the other being Suhei Nishida, his country-man. Japan's No. 1 pole vaul-ter until Ohe came along to top 14 feet 4 inches.

There has not been a foreign pole vaulter of championship cali-ber to perform in the big in-door meets since Charlie Hoff paid us a visit in 1926 and showed our lads how to vault.

Unfortunately, Ohe comes along when indoor vaulting, in the East at least, is at low ebb. Keith Brown, the record holder at 14 feet 4 inches, has retired and there is no other easterner who can scale the 14-foot mark. If Olympic Champion Earle Meadows and George Varoff, the national cham-pion and world record holder (14 feet 6½ inches), accept invita-tions extended to them, Ohe may find all the competition an ath-lete could desire.

Should Star Indoors
There is no real reason why the Japanese star should not come close to his best marks on the fine indoor arenas in Madison Square Garden. Certainly the lighting fa-cilities have given competing ath-letes no cause for complaint. If anything, competing in doors should be a help to the skyscrap-

PASTOR FACES BOMBER TONIGHT

Rampaging Indians Meet Trojans in Los Angeles

FIVES SCRAP FOR LEAGUE LEADERSHIP

Stanford Quint Favored to Knock U. S. C. Out of First Place

Associated Sports-caster Frank Bull will describe the U. S. C. Stanford basketball game from the Pan-Pacific auditorium to-night. KEHE is the station; the time, 8 p. m.

LOS ANGELES. (AP)—Stanford university's Indians strode into Los Angeles today, threatening to knock Southern California's Trojans out of the conference basketball leadership and gaining sole control of the top rung.

Host Trojans were confident that the tilt would draw no less than 7000 customers into Pan-Pa-cific auditorium for the battle, and privately they feared the Indian onslaught.

Stanford, with its great Angelo (Hank) Luisetti at the helm, has won three conference games of the Southern division schedule, with no defeats, while Coach Sam Barry's Trojans have won four. To-night Stanford and S. C. meet for the first time this year.

Coach John Bunn of Stanford made no secret of the fact that he expects a victory tonight, as well as in the second engagement tomorrow evening, and with high-point man Luisetti has accounted expected to make good his prediction. Luisetti has accounted for 62 points in three conference games, better than 20 per en-gagement.

Troy's Carl (Butt) Anderson, center, is conference runner-up to Luisetti with 46 points in four games.

Stanford	Position	U. S. C.
Luisetti	F	Gracin
Turner	F	Garrison
Stoefen	C	Anderson
Moore (C)	G	Oram (C)
Calderwood	G	Remsen

Hoop Leaders to Tangle Tonight

REDLANDS, Calif. (AP)—Red-lands risks its Southern California conference leadership tonight in a game with the Whittier college basketball team.

With two games won and none lost—a perfect record—the Bu-dogs will play host to a Whittier squad that has won one and lost one.

Family Troubles Vex Laguna Artist's Quintet

LAGUNA BEACH. — Family troubles once again enter the athletic controversies at Laguna with Archie and Doc Black-ter, uncle and nephew playing on the Artists' Varsity basket-ball team.

Last year the two relatives were on Laguna's successful football team and they are con-tinuing to uphold the family name on the polished floor.

Another tricky name distinc-tion on the Artists' quintet is one Q-Ball Henry, a forward, whose real name defies discov-ery.

Henry denies both accusations that he is Chinese and that he practices in the local pool-room.

THOMSON LEADS OPEN GOLFERS

SAN FRANCISCO. (AP)—Pace-setter Jim Thomson, with a sub-par round of 67 already to his credit, led the field today as the country's barnstorming golf pro-fessionals teed off in the second half of 36-hole qualifying tests for the \$5000 San Francisco match play open tournament.

Setting off with first round scores of 68 were four of the front line performers, Horton Smith, Orville White and Lawson Little, registered from Chicago; Henry Picard, Hershey, Pa., and Charles Congdon, Tacoma, Wash., new-comer to the big tournament wars.

Ed Dudley, Philadelphia, winner of the Sacramento open in record breaking figures last week, started off today behind an opening round 69.

DiMaggio Joins Holdout Ranks

NEW YORK. (AP)—Joe DiMag-gio, sensational young outfielder of the New York Yankees, re-turned his contract, unsigned, to-day, Ed Barrow, business manager of the club, declined to say what the club had offered DiMaggio nor what Joe was asking.

Vanderbilt Names Yacht 'Ranger'

NEW YORK. (AP)—Harold S. Vanderbilt has chosen "Ranger" as the name of the new America's cup yacht defender, which is ex-pected to meet T. O. M. Sopwith's challenger, Endeavour II, next summer off Newport, R. I.

Wrestling Last Night

Providence, R. I. — Danno O'Mahoney, 230, Ireland, defeated Len Macaluso, 225, Hamilton, N. Y. (straight falls).

San Francisco —Bob Castle, 180, St. Louis, defeated Larry Tillman, 165, Oklahoma, two out of three falls.

SOLONS LOOK INTO RACING TROUBLES

Committee Starts Work at Santa Anita; to Probe Dope Case

SACRAMENTO. (AP)—An assem-bly committee investigation into regulation of horse racing in Cali-fornia will begin Monday in Los Angeles.

Chairman Rodney L. Turner, De-lano assemblyman, said he had asked the state racing board and the board of stewards from San-ta Anita track to be present.

He also said "we are request-ing representation from all tracks" as well as presence of "prominent chemists, trainers and stable owners."

He said the recent alleged "dop-ing" of the horse Proclivity will be investigated thoroughly.

Other members named by Speak-er William Moseley Jones to the public morals committee, are Earl Desmond, Sacramento, and Frank Laughlin, Los Angeles.

CLASSY HORSES IN HANDICAP

LOS ANGELES. (AP)—Week-end turf interest picked up today as a field of classy horses lined up for the \$1500 El Camino Real handi-cap at Santa Anita park.

Top weight of 111 pounds was assigned to the H. C. Hatch en-tries, King Kong, French import-ation and Sweepstake, while A. G. Vanderbilt's Sobriety was next at 110.

The distance was a mile and one-sixteenth.

Tomorrow's \$3500 San Felipe drew a choice entry list of \$50,000 Santa Anita derby prospects, with the Foxcatcher Farms' Fairy Hill and Norman Church's Fair Lead asked to pack 120 pounds apiece, and A. C. Compton's Clingendahl next at 115.

SPORTS ROUNDUP

By SCOTTY RESTON (Pinch-Hitting for Eddie Brietz)

NEW YORK. (AP)—Those Ne-braska officials don't fool . . . Dana Bible quits one week and they hire "Biff" Jones to coach their football team the next . . . and they won't have to do any apologizing for that selection.

either . . . Lawrence McCeney Jones (and does he hate that han-dle) is probably the only West Point football captain who didn't captain the football team . . . He was named captain after the 1916 season and went to war before the next campaign . . . Here's the in-side on his tiff with the late Huey Long: Jones' Louisiana State team was behind during an im-portant game and Long came in during the half time intermission and asked Biff if he could talk to the team . . . Jones said there was no time . . . Huey pressed and Biff still refused . . . As Jones went into the locker room, Long said, "Well, you'd better win" . . . When Jones came out he walked over to Long and asked, "Senator, what do you mean by that remark?" . . . "I meant just that," Huey re-plied . . . "Well, win, lose or draw, I'm through after this," was Jones' comeback . . . and he meant it too . . . As a major with 1914 years

Five to One on Destroyer

With each scrapper predicting a knockout victory for himself, Joe Louis, Brown Bomber from Detroit, climbs into the ring tonight against husky Bob Pastor, ex-N. Y. U. football player. Odds have dropped from 12-1 to 5-1 on Louis, due largely to a reported training-camp knockdown.

NAME LOUIS TO WIN BY KNOCKOUT

Odds on Destroyer Drop to 5-1; Collegian Says He'll Win

By SID FEDER
NEW YORK. (AP)—Before the season's largest fight crowd, which figures to see considerably less than the 10 rounds paid for, Brown Bomber Joe Louis will make his first important start of the year tonight against Husky Bob Pastor in Madison Square Garden's ring.

On pre-fight calculations, some 18,000 of the faithful, paying as high as \$16.50 each, probably won't be more than comfortably seated before the fight is over.

Each fighter has predicted a knockout victory for himself. The experts are almost unanimous in picking Louis for a kayo triumph. The betting odds, as high as 12 to 1 a few days ago, still are on Louis at about 5 to 1, for a quick finish.

Leave Loopholes
This drop in the betting figures was the result of the halyhoos at-tending a training camp knock-down of Louis on Wednesday—a knockdown which so boosted the ticket-purchasing pace that the gate promises to be within shout-ing distance of the \$100,000 mark when the boys answer the bell about 10 p. m. (Eastern standard time).

In making Louis the overwhelming favorite, the experts point out that he is considerably more ex-perienced than the former New York university footballer, and also will take a considerable weight edge into the ring. Joe probably will scale about 203 to his rival's 185.

However, remembering the 10-to-1 shot fiasco in the Max Schmeling fight, when a right hand exploded the Louis myth of invincibility, those backing Joe to-night are leaving plenty of loop-holes in their predictions.

Compare Records
The 22-year-old Pastor consid-ers himself sufficiently equipped with all the ring necessities to stop Louis. He insists he won't be frightened into defeat as were Max Baer and King Levinsky when they faced the two-fisted attack of the Bomber from Detroit.

On comparative records, Louis has all the better of it. The only fighter met by both was Cleve-land's Eddie Simms, knocked out by one Louis punch in December. Pastor had a tough uphill fight to get a draw, after Simms bounced the ex-collegian on the floor four times.

The Simms fight was Louis' last engagement of any conse-quence, since he started the road back after the Schmeling thing.

HILL BILLY VS. HILL BILLY

Mountainous Affray Looms

Notifying Promoter Sampson that he intended to post a \$3000 cashier's check with the state ath-letic commission to be turned over to Man Mountain Dean the minute the latter signed a contract to meet him, Big Ben Morgan urged Sampson to bid for the match.

"Dean might not want to get flattened in Los Angeles," said Morgan, "and might be willing to take the gamble in Santa Ana, so go after it."

According to the stipulation,

Dean would receive \$3000 for the bout and Morgan collect both Dean's and his own share of the gate.

Under these conditions, Morgan would suffer a loss if the bout was held any place but Los Angeles, but he asserts that he would soon recuperate his loss in purses after beating Dean.

Monday night Big Ben makes his second appearance at the Orange County Athletic club, meet-ing Herb Freeman in the semi-win-dup to the Sammy Stein-Tiny Roebuck match.

A 290-pounder, with a black beard, Morgan claims to be a real hillbilly, and charges that Dean is neither a hillbilly nor a wrestler. "He's just a circus freak," said Morgan, "and I can beat him in less than five minutes."

Other bouts supporting the three-fall Stein-Roebuck match are Jack McArthur vs. Dr. Hall and Bob Coleman vs. Johnny Borges, Long Beach middleweight.

BRUINS MEET BIG BEARS

BERKELEY. (AP)—Each team battling to break into the Pacific coast conference victory column, basketball teams of California and University of California at Los Angeles clash in the first of a two-game series here tonight.

The Bears and Bruins each have lost twice to Southern California. U. C. L. A. was thumped by Stan-ford twice. California lost once to Stanford.

Wallie & Eddie Invited to Florida

ATLANTA, Ga. (AP)—Former Governor David Sholtz of Florida said he had invited Mrs. Wallis Simpson and the Duke of Windsor "sincerely and cordially" to visit Florida.

"I have not received the slightest indication, however, that the invitation will be accepted," he added.

Sholtz, here for an address before a hotel convention, said he sent the invitation to Herman Rogers, who was his schoolmate at college and now is Mrs. Simpson's host at Cannes, France.

Women Hold Up Flood Rescue Work To Powder Noses

LOUISVILLE, (AP)—Women who hold up flood rescue boats to powder their noses, or pleaded for boats to return to their homes to save refrigerators, radios or pianos, are the chief complaint of the men who have manned the boats for days and nights with little rest.

ADMITS CHECK CHARGE

Pleading guilty to a charge of issuing fictitious checks, Harry A. Straw was bound over for sentence in superior court yesterday by Justice of the Peace Kenneth E. Morrison. He will appear for sentence in superior court Friday.

Here's Uncle Sam's Financial Sheet

WASHINGTON, (AP)—The position of the treasury on Jan. 26: Receipts, \$16,387,205.93; expenditures, \$24,834,819.18; balance \$1,738,817,888.39. Customs receipts for the month \$34,819,015.65. Receipts for the fiscal year (since July 1), \$2,410,269,395.56; expenditures, \$4,122,505,148.25 (including \$1,689,933,229.74 of emergency expenditures); excess of expenditures, \$1,712,235,752.69. Gross debt, \$34,506,410,022.56, an increase of \$1,742,229.50 over the previous day. Gold assets, \$11,340,800,555.87, including \$109,665,111.68 of inactive gold.

Townsend News, Views

By WALTER R. ROBB

(This is a non-political, non-partisan column, dealing in Townsend news and views, and written by a prominent Townsend leader. Any opinions which are expressed herein are not necessarily those of The Journal.)

Last evening this column referred to a special bulletin now being received by the California Townsend clubs from Dr. Francis E. Townsend.

W. R. ROBB

Tonight I want to give more of its details as I believe it to be hot news and also of great interest to the Townsends. I quote from the bulletin: "Numerous publications have sprung up in various sections of the country, claiming to be officially sponsored, or endorsed by the Townsend organization. The latest publication of this kind is the 'National Security Advocate' recently launched in Los Angeles."

"This publication is being printed by former employees of the Townsend National Weekly. When leaving my employment they took with them the official subscription list of the Townsend National Weekly, and—contrary to law—are now using it as their own subscription list."

"Action is being instituted by me to enjoin them from the use of the property of the Townsend National Weekly which they unlawfully appropriated for their own personal profit and gain."

"A subscription list is a valuable asset and as such is the personal property of a publication which established it. Courts have so declared."

"Anyone taking such property, without the knowledge or consent of the owner, is a thief in the eyes of the law. Thus, with stolen property, former employees of the Townsend National Weekly are attempting to set up a publication which claims to speak for the Townsend Clubs of America."

"One of the stockholders of this new publication, former assistant advertising manager of the Townsend National Weekly, after becoming interested in the new publication, filed suit against the Townsend National Weekly and attached its mailing equipment on the claim that the Townsend National Weekly owed him \$2600. He filed this suit without giving me and the new management of the Townsend National Weekly an opportunity to check his claim. It is interesting to note that this party during the year 1936 was paid thousands of dollars in commission up to the time he joined the new publication; and while receiving such compensation was working with my enemies in organizing an opposition publication which now brazenly claims to be a Townsend publication."

M. D. Cerf, while acting for me as publisher of the Townsend National Weekly—and while paying himself \$100 per week—declared himself a dividend of \$555.56 without my knowledge or consent. He put this money in his own pockets while the dividends which I have been paid by the Townsend National Weekly were turned over to the Townsend National head-

1927 RECORD FLOODS ARE SURPASSED

NEW YORK, (AP)—The Mississippi valley, where floods were spreading death and havoc, was the scene in 1927 of America's "most damaging flood" up to the present.

Described in American Red Cross accounts as "the greatest disaster this country ever suffered," flood waters in that year inundated 26,000 square miles, killed 200, rendered 700,000 homeless, with property loss estimated by the war department at \$200,000,000.

Comparing in scope but exceeding the 1927 disaster in property damage were the floods that ravaged 17 Eastern states in the spring of 1936 from Maine to the Carolinas. The toll: 158 killed; 429,500 homeless. Property damage reached \$500,000,000 as great industrial centers suffered with villages in the path of tidal crests that poured over riverbanks. Pennsylvania, hardest hit last spring, feared for days "another Johnstown," where 2,200 perished in 1889.

Floods on the Miami and Ohio rivers in 1913 killed 527 and property damage was estimated at \$156,331,000.

In 1929 flood waters inundated 1,358,983 acres in southern Alabama, Georgia, Mississippi and Northwest Florida.

quarters. The last amount I turned over was \$10,000 in Oct., 1936.

"Thus the new publishers of the 'National Security Advocate' are using the money and property of the Townsend National Weekly—without authority—to criticize and attack the organization which formerly employed them."

"Loyal Townsends should give no support to this unofficial publication. It is an enemy of the Townsend organization and is attempting to undermine it—regardless of the nice words it has printed about me in an effort to conceal their real program."

The bulletin then goes on to speak in regard to the "Recovery Radio News" which space will not permit quoting in full. I give but three paragraphs which will be sufficient to give you the gist of the doctor's statement. I quote:

"Another publication recently launched in Los Angeles—by disgruntled and former employees of the Townsend organization—is the so-called 'Radio Recovery News' purported to be published by the 'Townsend Radio Division.'"

"This publication is in no way connected with the Townsend movement, and like the 'National Security Advocate' is using the mails to secure money and subscriptions under false pretense. These publications—and their sponsors—will be dealt with in due time in the courts."

"In the meantime, let it be known that the Townsend organization, of which I am the head, has but one publication. That publication is the Townsend National Weekly. It has but one office. That office is located in Chicago, Ill."

"Signed—DR. F. E. TOWNSEND"

"I have repeated just a few statements made in last night's column because to have left them out would have destroyed the logical basis for other remarks in the bulletin. I am sure my readers will pardon me for the brief repetitions."

HORTON'S JANUARY FURNITURE SALE

Saturday's the End of the Sale!

\$23.75 Karpen Mattresses

250 coils . . . special buy

\$16.95

Pay \$1.50 Month

We made a special purchase of fine sateen tickings and had Karpen make them up in their regular \$23.75 mattress! . . . and we're selling the entire lot at \$16.95 each, as long as they last! They have 250 coils, sisal pad, felted cotton liners, button tufts and so on.

SEN. WESTOVER SCORES PROPOSAL TO HIRE COUNTY LOBBYIST

FAST TRAVEL PLAN GETS BACKING

Another step in a comprehensive program to bring about speedier transportation in and out of Orange county was taken yesterday afternoon.

So interested and enthused over the proposal were members of the planning commission that they decided to submit it to the board of supervisors, asking that body to endorse a transportation study as a Works Progress administration project.

Railroads Interested

The subject was taken up before the county planning commission first by Ben Spencer, chairman of the county-wide committee on transportation, who read from minutes of committee meetings to make the object of the plan clear to the commission.

Paul Palmer, Lido Isle, pointed out that the railroad companies are anxious to cooperate in development of outlying areas. He said that in the past they insisted that business be there before going into a territory.

Ready To Work

Deming Tilton, planning consultant, endorsed the program 100 per cent, according to those attending the session, offered to do all in his power to help put it over and wanted to start work on it at once.

Secretary Howard I. Wood of the Santa Ana Chamber of Commerce explained that with faster service to Los Angeles and other points by bus and rail, Orange county could become a place for commuters to build homes and enjoy small country estates or settle in all-year homes on the county's incomparable coastline.

'Taxes Will Stop War Profiteering'

WASHINGTON, (AP)—Bernard M. Baruch, New Yorker financier, told the house military committee higher individual and corporation income taxes would be necessary to prevent war-time profiteering.

Expressing opposition to conscription of labor, the New Yorker who was chairman of the war industries board, said, nevertheless, he believed the measure should provide for regulation of payments for "services" which would include wages.

Leaves \$8,757,316 To University

NEW YORK, (AP)—Roger Deering, descendant of the plow manufacturing family of Illinois who died in Phoenix, Ariz., a year ago at the age of 52 years, bequeathed \$8,757,316 to Northwestern university at Evanston, Ill., filing of a transfer tax appraisal disclosed.

I COVER THE CAPITOL

By SENATOR HARRY C. WESTOVER

The following is one of a series of weekly articles written by Orange county's senator, Harry C. Westover, covering activities of the state legislature at Sacramento which are of pertinent interest to the voters and taxpayers of Orange county.

I had expected to write this letter from my office in Santa Ana. However, because of sickness, I am not able to leave the capital, until the first or middle of the week. Last week, I commented upon the fact that so many of the Orange county delegation have been incapacitated because of sickness and I believe I said Assemblyman Tommy Kuchel had been the only one to escape the local epidemic. Tommy has finally succumbed and has been confined to his room for the past week and was unable to attend the closing days of the session. As far as sickness is concerned this makes about a 100 per cent record for the Orange county delegation, as all have been sick more or less during the past three weeks.

The assembly adjourned last Friday night as per schedule. There were 2785 bills introduced in the assembly and 1094 introduced in the senate. Assemblyman Kuchel has his name affixed to 14 bills, Assemblyman Clyde Watson to 18 bills and the writer to 18 bills. Some of the legislators seem to feel that the number of bills which they introduce is a criterion of their importance in the legislature. However, it is the impression of the writer that the most influential members of the senate do not introduce the largest number of bills.

The past three weeks have been given over to the main part with the introduction of bills. Only bills of emergency were passed by the legislature. On only two occasions was any fire engendered during the past three weeks on the floor of the senate. The first occasion arose over the sardine "take" bill and the second over the Huntington Beach oil field situation. These two subjects can be counted upon to raise a furore on the floor of the senate whenever mentioned. To bring before the senate either the sardine "take" bill or a bill relative to the Huntington Beach oil pool is like turning loose in the senate a highly charged electric wire. Wherever it touches, there will be a flash and an explosion and it does not take more than a few minutes to have the senate really "steamed up." I did not realize there was so much interest in these two measures until I reached Sacramento.

I will attempt to discuss these two subjects at length at some future time.

With so many bills introduced in the legislature of course it is impossible to keep track of the bills as they are being introduced. Many bills are of small moment and many of them will not be

heard of during the second session of the legislature. However, now and then among the great mass of bills introduced is a bill of great importance and a bill which shows rather constructive thinking.

We are not much concerned with the union situation in Orange county but up around the bay region and in the industrial sections of the state, the labor vote stands as a threatening cloud upon the political horizon of all office holders. Even labor was heard from when we discussed the sardine "take" bill.

I have always been one who believed in the rights of the laboring man and the rights of organization and collective bargaining. But there are many people in the state who do not feel that any minority group of people has a right to disrupt the welfare of the majority of the people through labor disputes. The state of California is at the present time suffering untold loss because of the maritime strike.

Senator George M. Biggar of Covelo, introduced in the senate a bill known as senate bill No. 241, which outlaws strikes and lockouts. His bill provides for the establishment and creation of an industrial court to which all disputes between capital and labor must be submitted and in which court the laboring man and the employer can present in an orderly and logical way, their arguments relative to the conditions surrounding their particular industry and the court after hearing the evidence from both sides may make a ruling determining and settling the dispute between the employer and employee. It is provided in the bill that after the effective date, that it shall be unlawful for any person, firm or corporation employing labor in California to engage in or threaten a "lockout" or industrial dispute and that it shall likewise be unlawful for any employee or group of employees to go on strike or to wilfully cease their labors with the intent of coercing or forcing employers to grant any demands for change in pay, hours or labor or conditions of employment.

In my opinion Senator Biggar's act is one of the most constructive acts that has been called to my attention during the present session of the legislature and it should receive the support of a great many people in the state of California who are interested in reaching a solution relative to industrial disputes in the state of California.

I will discuss other bills introduced in the legislature from the columns of this paper next week.

DEMAND FOR WPA BOOST PRESSED

Data to support his claim that the Orange county WPA should have an increase of 1000 men in its quota because of the number of people that will be thrown out of work because of citrus and agricultural damage was being gathered today by Dan Mulherson, county WPA chief.

Mulherson has presented the case to district WPA officials at San Diego, and the matter was referred to state WPA headquarters at San Francisco. Definite data regarding the anticipated labor situation and increase expected in WPA applications because of the loss of work by agricultural workers now is being gathered by Mulherson.

The WPA chief said today that he has found nothing yet to show that his estimate of the situation is not accurate. One packing house expects to release 125 persons next week, he said.

Word on the requests for a quota increase is expected from San Francisco in a few days.

State Has Large Bug Collection

The state of California has built up what is believed to be the second largest collection in the United States of beneficial parasites and insects, according to Farm Advisor Harold E. Wahlberg. The largest is maintained at the national museum in Washington, D. C.

The California collection is at the University of California's citrus experiment station at Riverside, and is in charge of P. H. Timberlake, associate in entomology. About 300,000 specimens have been collected and catalogued at the station.

'Y' SELECTS TIDBALL AS PRESIDENT

D. Glenn Tidball is the new president of the Santa Ana Y. M. C. A. He was elected at a meeting of the board of directors at the Y on Wednesday.

For the past two years he has been treasurer of the organization. He also was chairman of the last Community Chest campaign. In his new position he succeeds R. Carson Smith, who had held the office for two years.

A. W. Gerrard was elected vice president. Lyle Mitchell was named secretary and Ernest Layton, treasurer.

Tidball is secretary-treasurer of the Excelsior Creamery company. Gerrard is an owner of the Alpha Beta stores and Mitchell is principal of the Willard Junior High school. Smith is manager of the Security Title Insurance and Guarantee company.

V.F.W. Launches Educational Drive

Adjutant George Hubbard of the Veterans of Foreign Wars today announced that the organization has embarked on an educational campaign. Among the features of the organization's service to which he called attention was the V. F. W. national home for widows and orphans of deceased or totally disabled veterans.

This home, on a 612 acre estate near Eaton Rapids, Mich., was founded in 1925. There children are given privileges characteristic of the average American family. The underlying principle is to keep sisters, brothers and mothers together.

School children go to the Eaton Rapids schools. There are no uniforms or military discipline in the home. It is financed without levies on members or appeals for charity.

Wagon Wheel Headboard for Modern Boys' Bed

"Days of '49" is the motif of a boys' unique bedroom set which is attracting much attention at the semi-annual showing of new furniture at the Los Angeles furniture mart this week, according to reports brought back by Santa Anans who have visited the show.

A wagon wheel forms the headboard of the bed in this interesting ensemble designed especially for boys, and oxen yokes decorate the footboard. The lamp has a standard resembling a stack of three muskets, and the desk is built into a chest.

Room arrangements and special displays are showing a preponderance of modern and 18th century styles, the former with planes and curves worked into the motif and with flat woven mohairs favored

for much of the upholstery. Chippendale pieces, Georgian sofas and Louis XV designs are favorite among the 18th century suites.

For the bedroom, blonde wood is noted frequently, with a bleached walnut and bleached maple that are almost pure white. Several factories are showing French provincial bedroom suites on almost classical lines. For beach homes there are bunks as well as full-sized beds on modernistic lines. A new touch is the cedar lined chest matching the other bedroom furniture.

Studio couches are more comfortable and easier to operate, and just don't look like beds any more. Vanities are good again, and dressers may or may not have mirrors attached.

McKelvey Winner Of Talk Contest

C. F. McKelvey placed first in Wednesday night's speaking contest at a meeting of Smedley chapter of Toastmaster's International.

Discussing kidnapping laws, McKelvey pointed out various features of the Lindbergh law, and told of a suggested law to outlaw payment of ransom to kidnappers.

Others who placed in the contest were Walter Ferris, and W. N. Cummings. Harry Kemmerer spoke on the International House at Berkeley of which he is a former resident.

James N. Anderson presided as toastmaster.

Six Injured in Stage Accident

EUREKA, (AP)—Six passengers were shaken up and slightly bruised when a Pacific Greyhound stage operating between Grants Pass, Ore., and Crescent City slid on the wet pavement and overturned 45 miles northeast of here.

SAYS EXPENSE OF PROJECT NEEDLESS

Elected Delegates Able to Protect County's Interests

A good way to alienate the good will which exists between the board of supervisors of Orange county and the members of the legislature is to establish a lobby at Sacramento.

This outspoken sentiment was expressed today by Senator Harry O. Westover, who informed The Journal that the Orange county representatives at Sacramento were considerably interested in the proposal.

"I feel," said Westover, "that I express the attitude of the other members of the Orange county delegation when I say that the Orange county delegation is opposed to lobbyists. We believe that the Orange county delegation is adequately able to look after the interests of Orange county without the help of a lobbyist." He said he thought any money spent for this purpose "would be wasted."

"It has been my intention to work on a program looking toward the reduction of taxes through the reduction of the costs of government," he added. "Why should we be so interested in Sacramento in keeping down the costs of government if the board of supervisors in our home county spends money to maintain and keep what in our opinion is a needless and useless lobby?"

STORY OF THE POPES
The next installment of the serial "Story of The Popes" will appear at an early date in The Journal.

Get Rid of the Effects of Smudge!

Easily . . . Quickly . . . Economically

AT A COST of about 25c A Room

We prepared weeks ago to help you get rid of the smudge from your walls, tile, painted surfaces, enamel, mirrors, linoleum, bath, porcelain, glassware, silverware, in fact any and all parts affected by the smudge . . . come in and let us show you how easily and cheaply it can be accomplished.

LIN-SOL

PURE LINED OIL JELL SOAP

CLEANS SMUDGE!

LIN-SOL, the 100% pure lined oil jell soap, makes oil smudge and soot vanish like magic from painted surfaces, windows and walls. This is the reason: the LIN-SOL formula is prepared especially to remove smudge and soot from your home with a minimum of work. Painted surfaces gleam and sparkle with a new luster, because LIN-SOL preserves and protects it as it cleans. At a cost per room of approximately 25c

CLEAN UP . . . with

- Dick-A-Doo
A powder cleanser, to be dissolved in water; washes smudge away leaving original finish bright as new.
- Samoline
A paste product, easy to use, cleanses quickly and sanitarilly.
- Insto-Cleaner
A liquid dirt remover, very effective but does not injure the most delicate finished surfaces.

These cleaners will not injure the hands in any way.

Other Household Clean-Up Necessities

We carry at all times a large and complete stock of everything needed for home cleaning—such as O-Cedar line of dust mops, polishing mops, oil mops, from 35c to \$2.00 each. Hair bristle brushes, with long handles, for walls and ceilings at \$1.00 each. Self wringing scrub mops 60c up. Also brooms, push brooms, window rubber mops, vacuum cleaners, etc. No matter what you may need we have it.

Our line of heaters, both in gas, oil, coal and wood is complete in a price range of from \$2.39 TO \$32.50

Tuthill Home on Victoria Drive Provides Attractive Setting for Dinner

Formal Motif Chosen for Table

Silvered Leaves and Tapers in Lovely Centerpiece

One of the largest and most charming dinner parties of the season was that given last night by Mr. and Mrs. R. G. Tuthill.

Their spacious home at 2035 Victoria Drive is well suited to entertaining large groups, as well as the smaller, more informal ones. The lovely round dining-room table was particularly beautiful, the friendliness of its circular shape being augmented with a large mirror in the center, upon which were garlanded silver leaves. Tall silver tapers in silver holders carried out the formal theme.

Twenty of the guests were seated at this table, with the others seated at small tables, similarly decorated, in the adjacent den.

After the dinner menu, the guests gathered in the livingroom for a session of contract.

Mr. and Mrs. Tuthill's guest list was composed of the Messrs. and Mesdames George Briggs, C. V. Davis, O. H. Egge, A. G. Flagg, J. E. Liebig, J. E. Paul, H. L. Miller, B. J. McMullen, R. C. Hoiles, L. G. Swales, George Perkins, Ray Chandler, Howard Timmons, L. C. Commander and Mrs. J. F. Landis, Mrs. S. J. Haddon, and Mrs. Marguerite Borgmeyer.

Prize winners in the evening's contract games went to Mr. and Mrs. A. G. Flagg, for high scores, and to Mrs. Briggs and Mr. Swales, second.

LOOK SLENDER, CHARMING, YOUTHFUL IN CHIC MARIAN MARTIN FROCK!

9191

PATTERN 9191

Be slim, be charming, be fashion-right in this spirited frock of crepe — Marian Martin's newest contribution to your mid-season and spring wardrobe! Teas, visiting, or entertaining all welcome the graceful dignity of Pattern 9191, and you're sure of social success whenever you appear in its smart simplicity! Dainty, feminine, and long or short sleeves, the straight-line skirt adds immeasurably to your height. Irresistible, indeed, are the low V-neckline, and long or short sleeves cut in one with trimmings of yokes! Best of all, this frock is so very easy to make, that even though you've never made your own dress before, you'll have it finished in a few hours. Nice in monotone crepe or a spring-like print. Complete Diagrammed Marian Martin Sew Chart included.

Pattern 9191 may be ordered only in sizes 34, 36, 38, 40, 42, 44, 46 and 48. Size 36 requires 4 yds. 39 inch fabric.

Send Fifteen Cents in coins or stamps (coins preferred) for Each Marian Martin pattern. Be sure to write plainly your Size, Name, Address, and Style Number.

Be an Early Bird! Get Your copy of the New Marian Martin Pattern Book now! It's chock full of sparkling, easy-to-make spring fashions — frocks for Kiddies, Juniors, Debs, as well as for Mother. You'll find Daytime and Sports frocks galore! Party fashions, too, and smart styles for Stouts. Behold the new-season fabrics and ways to use them to best advantage! Book Fifteen Cents. Pattern Fifteen Cents. Twenty-five Cents for both when ordered together.

Send your order to The Journal, Pattern Department, 117 East Fifth street, Santa Ana, Calif.

Arrangements Completed For Fete

With the President's Birthday Party just one day away, arrangements are completed for a truly gala celebration in Santa Ana, and, of course, throughout the country.

Both the desire to have a happy time, which is assured, and the realization that the affair is one of the most worthy causes of the year's social charity events, have made everyone anxious to participate in one of the three delightful parties planned here for tomorrow evening.

No matter what the taste of the individual, it will be satisfied for a professional vaudeville show will be presented as one event, a semi-formal ball will be given as another, and thirdly, there will be a card party at which guests may play any game they desire.

These three attractions combined with the cause, which is the relief of crippled children, with 70 per cent of the intake remaining for Orange county relief, and the remaining 30 per cent going to the scientific research fund at Warm Springs, really foretell an exceptionally happy evening for everyone.

Chief among the attractions is the card party being given in the Peacock room of the Ebell clubhouse. Not only may the individual or group play any card game desired, but the hostess committee is planning to give special attention to those who do not come in a pre-arranged group.

Table prizes and delicious refreshments will be part of the evening, as well as the awarding of a big birthday cake which is to be donated by Mrs. Terry Stephenson.

Serving under Mrs. Aldrie Worswick, who is general chairman are the members of her hostess committee, who are, in turn heads of sub-committees. These include Mrs. John Cloyes, Mrs. F. C. Rowland, Mrs. J. D. Paul, Mrs. John Tessimann, Mrs. L. G. Swales, Mrs. Mark Lacy, and Mrs. Alan Reill.

They have been assisted in arrangements by the Maynard family, Adkinson, George Briggs, Dexter Ball, Lloyd Chenoweth, Ray Chandler, C. V. Davis, Harry Duckett, Emmett Elliott, Robert Guild, J. P. Hatzfeld, C. W. Hill, R. C. Hoiles, D. K. Hammond, Merle Hollingsworth, Loyal King, Roy Langley, F. E. Mead, A. J. Melendy, C. V. Newman, Sam Nuth, Hugh Plumb, J. W. Rice, Terry Stephenson, R. G. Tuthill, A. P. Trawick, E. D. White, Paul Witmer, Miss Frances Egge, and Miss Lena Thomas.

Beautiful decorations in patriotic motif will be used in the Peacock room, and have been accomplished by the committee attending to the Masonic temple ballroom, and the stage decorations in the Ebell auditorium for the vaudeville show. Those assisting at this, under leadership of Mrs. Henry Williams are the Mesdames E. T. McFadden, J. B. Tucker, Lyle Anderson, Harold Dale, Lynn Crawford, Carl Mock, Burr Shaffer, Joseph Peterson, Fred Merker, Miss Lydia Fisher, and M. E. Greeting.

MRS. NORTHCROSS IS REVIEWER

Thursday Evening Literary section of Ebell club thoroughly enjoyed the sparkling review of Malvina Hoffman's "Heads and Tails" which was presented to them last night by Mrs. Robert Northcross. The book tells of Miss Hoffman's wanderings over the world searching for material for her splendid sculpture exhibits, and Mrs. Northcross' side comments were delightful.

The meeting was at the home of Mrs. Horace Leecing, 2117 North Flower street, with Mrs. Harold Moonman and Mrs. Carson Smith acting as co-hostesses. They had arranged a most attractive tea-table, with a springlike color scheme of yellow and white, with dainty flowers and burning tapers. Mrs. Henry Williams, leader of the section, presided at the silver urn.

Members present were the Mesdames Terry Stephenson, John Cloyes, E. D. White, Kenneth Kanyan, Wayne Harrison, Mervyn Bryte, E. L. Russell, Lynn Crawford, J. L. Bascom, Floyd Croddy, Ferris Scott, Henry Williams, Miss Tessie Childers, Miss Esther Rideout, Miss Hazel Thrasher, Miss Katherine Smith, and the hostesses.

Veteran And Wife Are Feted

The birthday anniversary today of Comrade G. D. Campbell, commander of Sedgewick post No. 17, G. A. R., and that of Mrs. Campbell, an event of yesterday, formed double incentive for the birthday luncheon at which Sons and Daughters of Union Veterans honored them yesterday at the Rossmore cafe.

Little gumdrop trees marked places for 18 in the private dining room, which was bright with English heather.

During the hour following luncheon, Perry Groat, commander of Santa Ana camp No. 12 of the Sons of Union Veterans, presided as toastmaster, introducing Ben Baker, president of Sarah A. Rounds tent No. 10, Daughters of Union Veterans; Mrs. C. F. Miller, representing the Women's Relief corps; Mrs. Lena C. Hewitt, representing Shiloh circle; and Department Commander C. F. Miller, each of whom made a short speech of congratulation to the honored pair.

Other speeches were also made, and a lovely potted plant and a bouquet were presented to Mrs. Campbell.

Gathered for the gala celebration were Commander and Mrs. Campbell, Department Commander and Mrs. Miller, Commander and Mrs. Perry Groat; Mrs. Baker, Mrs. E. A. Bell, past department president; Mr. and Mrs. J. E. Parker, Mr. and Mrs. George S. Smith, W. I. Davis, Mrs. Addie Gardner, Mrs. Florence Dunn, Mrs. Edith Troxel, Mrs. Maude Wallace and Mrs. Hewitt.

Announcement was made of the special tea which the Daughters are sponsoring next Friday afternoon at the home of Mrs. Clyde Dunn, 256 South Esplanade, Orange, to raise money for the flood sufferers. Everyone is invited to this affair.

Assisting Mrs. Dunn on the tea committee were the Mesdames Lillian McBurney, Clara McCord, Carrie Smith, and Margaret Robertson.

TWO WRITER CLUBS HAVE JOINT SESSION

Hospitality and informality prevailed in the Hugh Gerrard home on Victoria Drive yesterday afternoon when Pierian club entertained members of Pegasus club as its guests, both writer groups contributing to the original program following a refreshment hour.

The members gathered at 1:30 o'clock and were seated at two long tables in adjacent rooms for enjoyment of a desert course served by their hostesses.

After the refreshments, all took comfortable chairs around the open fire in the grate, and Mrs. Earl Ladd, who was chairman for the day, welcomed Pegasus club members in behalf of the hostess organization.

Taking "Aspiration" as the theme for the afternoon, Mrs. Ladd opened the program with a poem of her own entitled, "My Aspiration."

She was followed by Mrs. H. W. Guthrie, who read "New Year Day;" Mrs. Elizabeth Foote, "On Forgets;" Mrs. Frank Lansdowne, "Questions;" Mrs. Harriet Morris, "My Aim;" Mrs. Harriet Birtcher, "Your Brother's Keeper;" Mrs. George Munro, "A New Spirit;" Mrs. Malcolm Macrura, "Exaltation;" Mrs. Gerrard, "Reaching the Stars;" Mrs. Frank Was, "English Sailor;" Mrs. G. W. Bond, "I Shall Not Fail;" Mrs. Jennie Crawford, "Aspiration Means Much;" Mrs. Rose Haverly, "Sayings of Little Ones;" Mrs. Mary K. Church, "Aspirations Are So Much;" Mrs. Olive Watkins, "A Song of Youth;" Mrs. Jean Bohlander, "Sunset."

One guest, Mrs. Gleason Sperry of Streetsville, Ohio, who is visiting with Mrs. Gerrard, shared the delightful day with the combined club groups.

Pierian club's next meeting, in February, will be at the home of Mrs. Ladd, it was announced.

Mrs. Edwin Butterfield, 81, of Orchard, Neb., has passed 350 quilts in the last 21 years.

MARY STODDARD Says "Ego-blinded Members of Triangles Should Stay Out of Dens of Iniquity"

By MARY STODDARD

There are so many things behind the letters we get in answer to people's problems. Some give detached advice. Some write in derision, others censure. Still others write from their own sorry or profitable experiences. Here is a letter from someone who has done wrong, and who repents for many reasons. Her letter may be of interest to Janet, for whom it is intended.

A PAIR OF POETS

AUDREY WURDEEMANN

JOSEPH B. AUSLANDER

Dear Miss Stoddard: I am speaking from my own personal experience as regards triangles other than the geometric in a classroom.

It happens that I was a married woman who fell in—now don't get me wrong and mix the word "love" in this item—fatuated with another woman's husband.

The very tortures of hell that my conscience endured was enough to let me know that the triangle was an evil, altogether unnecessary.

Yes, I thought I was smart, too, probably with an ego equalling every bit of "Janet's" husband.

To date, the condition existing between my ex-husband and myself is love, but we do not like each other anymore—enough to do.

My advice to ego-blinded members of so-called triangles, which have more or less of the "eternal" aspect about them, is to revert to ontology and stay out of beer parlors, dance halls, taverns and other dens of concocted iniquity.

Breathe God's fresh air instead of the corrupt hot air of the snipes in our atmosphere.

Learn to get satisfaction from your own company instead of heaving yourselves upon disrespectful, detached members of society.

The most important asset a person can have in a case of this kind is the ability to adjust one's self.

If we can acquire this part of good breeding more power to us; nine times out of 10 we haven't been brought up right.

If we can adjust ourselves to circumstances, our children will grow up to respect us, and they will not belong to the lower strata. If we can't adjust ourselves, our children will be like ourselves, no good. Anything half-baked is not done.

Let's concentrate on putting the

She publishes in many of the widely read magazines.

Mr. Auslander is a native of Philadelphia and was graduated from Harvard with honors, winning the highest poetry award there. He received a prize fellowship to the University of Paris and on his return taught English at Harvard and Radcliffe. He is now lecturer on poetry at Columbia university.

Following their talk Monday, members of the Ebell poetry section will honor the two at a tea in the Peacock room of the clubhouse.

Give Kitchen Gifts In Shower

Beauty of Talisman roses added bright touches of color through the rooms of the C. E. Guard home at 702 Oak street last night when Miss Margaret Guard, daughter of the home, and her sister-in-law, Mrs. E. Guard (Mary Jane Baker) joined in hostessing a pretty pre-nuptial shower for Miss Mary Malsed.

The affair was a kitchen shower for the honored guest, who will be the March bride of Newell Vandermast, lovely gifts of cream and green being presented to her at the close of an evening of bridge. After cards, prizes in which went to Mrs. Walter Workman, high, and to Mrs. Elmer Amling, second, the small tables were spread with dainty linens and centered with bowls of the roses for a delicious refreshment course.

Participating in the lovely courtesy with the bride-elect were Mrs. Walter Vandermast, mother of Miss Malsed's fiancé; Mrs. W. E. Baker, mother of Mrs. E. C. Guard, and Mrs. R. Ridgeway, the latter's grandmother, who is visiting here from the east; Mrs. Charles Guard, mother of the other hostess; the Mesdames Elmer Amling, Albert Amling, Floyd Hubbard, Harold Case, Christine Allen, Ben Tarver, Beulah Davis, L. K. Leichtfuss, Harvey Leichtfuss, Don Parsons, Lee Pomeroy, Walter Workman, and Dean Benton, and the Mesdames Dorothy Spicer, Beulah Davis, Grace Peterson, Lois Reeves, and Joann Baker, and the two hostesses.

SPEECH ARTS GROUP LUNCHEONS

Mrs. George Raymer and Mrs. Minnie Holmes were joint hostesses yesterday afternoon when Speech Arts section of Ebell club met at the clubhouse. They served a dainty luncheon course, after which Mrs. Mark Lacy conducted the business session and program. Mrs. Franklin West acted as secretary pro tem in the absence of Mrs. F. F. Mead.

The program consisted of a talk on "Changing China" by Mrs. West, and one on "Understanding the Japanese" by Mrs. John Cloyes. A discussion of the two subjects concluded the afternoon.

finishing touches on ourselves and clear our thinking morally, physically, intellectually, so that society in general will look up to us as an example instead of down as a demoralizing agent which inevitably prints its stigma on the sands of civilization.

"I'm no angel," but I know the difference between right and wrong. Do "Janet" and her husband? ANNEX APEX

MRS. MATHER IS HOSTESS AT LUNCHEON

An informal little party that was really a courtesy to a neighborhood bridge club for which she has substituted many times was given yesterday afternoon by Mrs. Cotton Mather.

Guests met at Daniger's for a delicious luncheon, after which they drove to the Mather home at 2022 North Ross street, where they spent the afternoon playing contract.

Attractively wrapped card-table covers were the prizes won by Mrs. Aldrie Worswick and Mrs. Clare Johnson for their high scores.

Those invited to the pleasant affair were Mrs. A. P. Trawick, Mrs. T. R. Trawick, Mrs. Howard Rapp, Mrs. Dan E. Maloney, Mrs. W. T. Waldron, Mrs. John McCarty, Mrs. Foster Lamb, Mrs. Louis Sawyer, Mrs. Byron Curry, Mrs. R. A. Tiernan, Mrs. Aldrie Worswick, Mrs. Clare Johnson, Mrs. Helen Anders and Mrs. F. R. Titner.

TO INSTALL TEMPLE AT OCEANSIDE

Members of the staff of Tustin Temple 27, Pythian Sisters, will put on the drill work for installation of a new temple tonight at Oceanside, Calif.

Those going down for the ceremonies are Mrs. Beulah Hamilton, most excellent chief of the temple; Mrs. Gladys Perozzi, staff captain; the Mesdames Berta Trickey, Vera Hawkins, Effie Matthews, Edna Squires, Edith Matthews, Myrtice Flyns, Gladys Kidd, Enid Wilson, Mabel Hannaford, Mae Durrell, Pearl Furtsh, Antoinette Fomey, Hazel Fuller, and Gladys Bucher, and Miss Nellie Flicks, of the staff, and Mrs. Grace Leinberger, their accompanist.

TURKEY DINNER PLANNED

Orange Avenue Christian church ladies are to preside at turkey dinner next Tuesday night in the First Christian church educational building, sponsoring the affair between the hours of five and seven o'clock and inviting the public. A nominal price is to be made for the meal, and everyone is welcome.

D. A. R. MEETS MONDAY

There will be an evening meeting of the Daughters of the American Revolution Monday at 7:30 o'clock at the home of Miss Effie Douglas, 626 North Broadway, Col. E. H. Sherman of Los Angeles will discuss national defense. Guests are welcome.

NEGRO SINGERS GIVE PROGRAM AT CHURCH

Mrs. A. M. Gall arranged the program for the ladies council of the Orange Avenue Christian church on Wednesday when the members met for their missionary day session at the church.

Talks and music of a delightful quality, presented by members of several local negro church congregations, were enjoyed by the group on this occasion, the Rev. Mr. Stone, negro preacher and a graduate of Drake university, giving an interesting address. Singers from the colored Baptist and Methodist churches contributed several well-received groups.

At noon, a pot-luck luncheon was served in the church parlors, and plans were made for a turkey dinner which is to be served by the Orange Avenue ladies next Tuesday night at the educational building of the First Christian church. The public is invited to the dinner, hours of which are 5 to 7 o'clock.

P. E. O.'S MEET IN BEACH TOWN

Mrs. Jonnie Rae Robbin of Crest avenue, Huntington Beach, acted as hostess to members of her P. E. O. chapter at their semi-monthly meeting yesterday.

Following luncheon, Mrs. Edna Wilson gave a brief and interesting talk on modern architecture. Mrs. Frances Smith, president of the chapter, presided.

MRS. MILLER HONORS MOTHER

A pleasant little courtesy this week was the dinner party given last night by Mrs. Herbert Miller, when she honored her mother, Mrs. B. B. Kellogg, on the latter's birthday anniversary.

Six of Mrs. Kellogg's neighborhood friends were invited to dine at the Miller home, 1809 Heliotrope Drive. They spent the evening with needlework and chat.

COES ENTERTAIN CANADA FRIENDS

Mr. and Mrs. G. Franklin Coe, 1721 North Baker street, entertained Miss Jean Sinclair and Miss Gwen Johnson at dinner Wednesday evening. The guests are from Moose Jaw, Canada, the former home of Mrs. Coe.

The visiting Canadians are spending the winter in California, alternating between Los Angeles, San Diego and San Francisco.

FAMILIES MARK BIRTHDAYS TOGETHER

Mr. and Mrs. Harry Drown, and son, Bob, will have as their dinner guests tonight at their home on West Washington Mr. and Mrs. W. R. Prosch and son, Douglas, marking the birthday anniversary of the latter. The party will also be a late celebration of Mrs. Drown's birthday, which was on Tuesday.

Mrs. Drown also celebrated Tuesday night at a dinner party at the home of Mr. and Mrs. C. W. Eggleston, she and Mrs. Eggleston sharing honors on the same birthday date. Mr. Drown and Bob and the hosts' son, Richard, were the other guests.

Both of these parties are annual affairs among these families who observe birthdays in the same week.

MUSICAL ARTS CLUB TO HEAR CHURCH MUSIC

Church music will be the theme of the Musical Arts club's program next Tuesday when the members are asked to meet promptly at 12 noon for luncheon in the First Baptist church.

Instrumental and vocal numbers are to be presented by the club members, with Mrs. Edith Warren at the organ, Mrs. Ben Livesey and Mrs. Charles Nalle giving vocal selections, and Mrs. Warren and Mrs. Mildred Marchant playing piano and organ duets.

J. Whitford Hall will be the speaker of the meeting, talking on "Church Music."

Each member is asked to bring 25 cents to the meeting.

SEWING CLUB AT HAYNES HOME

Mrs. C. E. Haynes was hostess at a dessert luncheon at her home, 617 Cypress street yesterday, when she entertained her needlework club at its monthly meeting.

She served the several ladies on trays, which made it a pleasantly informal affair, as did the afternoon's occupation of sewing and chat.

Mrs. Ida Blakely was unable to be present because of illness, and Mrs. Coates Learner was absent because of a death in the family.

Members present were Mrs. Nell Winslow, Mrs. J. A. Ranney, Mrs. Effie Irish, Mrs. Ross Grover, Mrs. Lenna Hamilton, Mrs. Clara Woodhouse, Mrs. Florence Hicks and Mrs. H. A. Smith.

BOB ANDREWS, RED AND WHITE GROCER

A new location but a complete grocery store can be found at 1206 East Fourth street, with Robert E. Andrews and Douglas M. Andrews in charge. The Andrews are affiliated with the Red and White organization, and while the location of the present store is new they are old affiliates with Red and White, taking advantage of all the benefits that accrue from this identification, and passing them on to their customers. In fact Bob Andrews is very active in Red and White activities, so much so that his only hobby is selling groceries. To this business he devotes his entire time, feeling that to give his customers the benefits of marketing he should keep closely informed as to new edibles, marketing problems, and new developments.

Willard Junior High News

Due to the large number of unavoidable absences and the fine spirit of cooperation shown by Willard students in their effort to be present whenever possible, Mr. Mitchell arranged an assembly for everyone in school. Half of the student body attended the first assembly on Jan. 25, when an interesting picture, sponsored by General Motors, and two airplane shorts were shown. The remaining students reported to the auditorium the following morning Jan. 26, to see an educational play of Abraham Lincoln, given by a traveling troupe.

Plans for a dance were discussed at the regular meeting of the Nos Amici Latin club held at the home of Marjorie Mize, Tuesday afternoon, Jan. 26. Refreshments were served by Mrs. Mize to Dorothy Frazer, Frances Page, Fern Hendrix, Marjorie Mize, Barney Smith, Jean Conliffe, Marion Kenyon and Mary Catherine Friend. Latin was studied for a final test the following day.

The boys glee club, directed by Mr. Mitchell, are now working on plans for a minstrel show, to be presented in the near future. At present the boys are writing the stage show. Mr. Mitchell stated that it should be a great success due to the fact that there has been some very prospective talent found recently in the glee clubs. The popular orchestra is expected to make up a good part of the program. The orchestra is doing very well according to Mr. Mitchell and when it comes to swing music, they'll swing you to sleep.

The adult education department, whose office is in the Willard building, has given some interesting facts concerning their work. Under this department, over 60 classes for adults are offered each year. Last year there was a total cumulative enrollment of 6841. The total enrollment to date this year is 4123 compared to 3818 at this time last year. Of this number not all are in attendance at any one time as classes open and close throughout the year. On an average about 2000 are in attendance each month. Attendance this year is running a little higher than last

Lathrop Junior High News

The last week of the semester at Lathrop has been a very busy one. In spite of the fact that a great many students and several teachers have been absent, work is going on, and tests are being given.

Eighth grade girls who are studying foods under Mrs. Ethel Sinke's direction, have planned, prepared and packed box lunches which combine the information gained in their study and discussion, as well as the actual cooking involved in the preparation of these lunches. As special projects, the girls have studied home life, foods and methods of preparing and serving foods in the homes of various countries. They have also adopted imaginary families consisting of the mother, father and several small children, including a grandparent and an invalid relative. Meals must be planned which are suitable for each member in the family. The girls are having lots of fun in their adopted "families," and are incidentally learning a lot about home-making, too.

Ninth grade girls who have been studying home lunches which begin with soup and end with dessert.

Auto Deaths in U. S. Increasing

WASHINGTON, (AP)—The census bureau reported today that automobile deaths in 86 major cities totaled 956 during the four weeks ended January 16. This number was 32.6 per cent greater than the corresponding period a year ago.

Pleads Guilty In Babe's Death

NEW YORK, (AP)—Rose Lucka, 25, who has pleaded guilty to manslaughter in the second degree in connection with the death of her baby son, whom she bore last May, will be sentenced Feb. 9.

Urges Church to Recognize Change

Urging that the church recognize changes in mental attitude, and that it welcome new scientific facts and the discovery of new truth, C. V. Caldwell of Los Angeles Wednesday night addressed a large group of citizens attending the second of the series of church college nights at the First Methodist church here.

Caldwell will continue the same subject, "The Old Church in a New Day," at the dinner next Wednesday night which will again precede the six classes being offered each night of the series.

Oregon claims the honor of having initiated the movement for direct primaries, the initiative and referendum and the recall.

Award Three U. S. Shipbuilding Jobs

WASHINGTON, (AP)—Secretary Swanson announced that construction of the three remaining naval vessels of the 1936 building program had been awarded to the Philadelphia, Norfolk and Mare Island navy yards.

One destroyer, he said, would be built at Philadelphia, another at Norfolk, and a submarine at Mare Island.

Safety Driving 'Ark' Proposed

LOS ANGELES, (AP)—A motorized "Ark," covered with safety-driving slogans, is suggested by

REPUBLICANS TO BLAST IDAHO MAY BAN AUTO RADIOS

WASHINGTON, (AP)—The 89-man policy committee to work out a party program.

"We are attempting to organize a militant cohesive minority," said Snell.

Several made it clear they considered this course the best basis for a drive to regain lost party power.

They said their best orators would bombard administration action or legislation they considered unsound or unconstitutional.

The group will hold regular conferences in line with a suggestion of John Hamilton, Republican national chairman.

BOISE, Idaho, (AP)—A bill to ban radios from automobiles in Idaho may be amended to keep "wives and sweethearts" out of front seats.

State Senator Ralph E. Whitten, sponsor of the recently introduced radio bill, announced today he would introduce a completely new measure because the senate refused to permit him to withdraw his original for correction.

Majority Floor Leader James Neil then urged its withdrawal for amendment to include the "wives and sweethearts" provision.

The new bill, Whitten declared, will include all "such suggestions."

ACCUSE TURF PROMOTERS OF FRAUD

Stock Purchaser Says Hollywood Deal Is Misrepresented

LOS ANGELES (AP)—Promoters of the Hollywood Turf club were accused in a \$5,000 damage suit on file today of false and fraudulent misrepresentation in the sale of stock.

Ellis J. Arkush, theater chain owner, alleged in a complaint that he subscribed to 50 shares in the race track venture with the understanding the state horse racing board had issued an irrevocable permit for a plant in West Los Angeles and board members were supporting it 100 per cent.

Later, Arkush asserted, he learned the permit was revoked last August and the board was divided on the feasibility of the proposed track.

His suit asked return of the stock and \$2,500 punitive damages.

G. O. P. FIGHTS P. M. 'GRAB'

WASHINGTON (AP)—Rep. Edith Nourse Rogers of Massachusetts marshaled house Republicans in opposition to a bill which she contended would place 14,000 Democratic postmasters in office for life.

As ranking minority member of the civil service committee, she was in charge of Republican debate on an administration proposal to put all postmasters under the merit system.

Incumbents would obtain civil service status through non-competitive examinations. Mrs. Rogers proposed competitive tests, "so that Republicans as well as Democrats would have a chance at the jobs."

She recalled that both major party platforms pledged to extend the civil service, but she declared this measure "does not follow that promise."

LIFE IN JAIL FOR \$24

OAKLAND (AP)—Wendell C. Galloway, 41, faced a possible life prison term because, Inspector William Kyle said, he passed a fictitious \$24.50 check to provide for his wife, an expectant mother.

Galloway was held for superior court trial today by Police Judge Chris Fox, and his bail fixed at \$1,500.

Inspector Kyle said Galloway had four previous felony convictions, and would be liable to a life term on conviction on the check charge.

Walter Stone, deputy probation officer, said Galloway appealed for aid several months ago in obtaining employment, stating he was unable to keep jobs because of his prison record.

Kyle said the check was passed last Dec. 24 at a liquor store.

SHIP PLANES TO SPAIN

MEXICO CITY (AP)—Six American-made airplanes purchased in the United States for the Spanish Socialist government have been put on board the steamer Mar Cantabrico, it was reported today from Vera Cruz.

The report said the planes had been kept in storage at Tejeria, Vera Cruz, until yesterday. Another plane bought from a Mexican individual also was reported on the ship. When the Mar Cantabrico would sail was not known.

Eight planes consigned to the Madrid government were aboard when the freighter reached here recently from New York, from which port she sailed 48 hours before enactment of a United States law banning shipments of war materials to Spanish belligerents.

Smallest Quint Gains on Sisters

CALLENDAR, Ont. (Canadian Press)—The Dionne quintuplets, 32-months old yesterday, romped in sub-zero weather after Dr. Allan Roy Dafeo finished his monthly job of weighing and measuring them.

The doctor was particularly pleased that Marie, smallest of the five since birth, was catching up with her sisters. She gained a full inch in the last month while the others picked up fractions.

Marie stands 33½ inches tall compared with the 34½ of the tallest, Yvonne and Annette. Marie gained one pound in weight, Yvonne one and Emilie a half-pound.

Blind Man Dies In 3-Ft. Fall

LOS ANGELES (AP)—A three-foot fall from an embankment to a sidewalk resulted in the fatal injury of Arthur G. Hare, 36, partially blind. His neck and skull were fractured by the accident.

Ills of Mind Traceable To the Body

By CLAUD CHRISMAN, M. D.

The fortitude to endure pain, the courage to submit to drastic treatment, the patience to await results, are all fundamental factors in remedying human ills and must be provided in a degree demanded by the seriousness of the case.

Any doctor knows that he will meet with little success with a patient who does not believe in his knowledge and in his fair and honest treatment. The medical man earns this confidence by his care in examination, his skill in diagnosis, his truthfulness in dealing with statements, and his intelligence in prescribing and applying the proper remedies.

By these means he helps to instill the faith and hope needed to supplement the chosen remedies. By charity, I do not mean financial charity. The charity the doctor needs to show is sympathy and understanding of the weaknesses, moral, mental, and physical, which must always be taken into consideration.

Few teachers or preachers are able to afford such consideration of the failures of the physical self to support the moral intentions as the doctor can and does. The man with a weakened will, immoral tendencies, or a depraved appetite, probably has a congested liver, an obstructed gall bladder, or an ulcerated stomach. Add to this, a burden of discouragement, disappointment, and worry and there is the combined problem of proper physical remedies and the necessity of instilling hope, dispelling fright, and restoring both a mental and a physical equilibrium.

NAVY BLUE POPULAR FOR EASTER PARADE

By MARY E. PLUMMER

NEW YORK (AP)—There's a new dress silk with the name "Navy Blue" printed on it in an all-over pattern. There's another inscribed with the names of movie stars. But the plain, conservative old navy blue suit—will be as popular as ever when spring rolls 'round, although many women are going to step out in America's Easter parade clad in spell binding prints and bright plaids.

"How much navy blue are we showing? Oh, the usual amount," say the exquisitely groomed assistants in mirrored salons where mannequins are showing off new clothes to out-of-town buyers. At Nettie Rosenstein's opening, dark blue seemed the leading color for street wear.

Jo Copeland showed an equal amount of black, dark blue and gray.

In Helen Cookman's collection of softly tailored spring coats, navy and black ran a close race. The navy suit and coat of 1937—as usual—have a new look that makes last year's suit seem quite out of date.

It's partly because of the shorter suit-skirts—most of the designers agree on 13 inches from the ground—partly because of the new squared shoulder, the slimmer silhouette, the new "accent" shades—"sulphur yellow," "earth red," "carnelian red."

Little often-crowned hats—mere "halo" bands worn with the same dark blue as the suit—add another new note. Worn with the new collarless dark blue coat, slim and fitted, and dark blue sandals, they are perfect for the Easter parade.

White gloves and white crownless turbans are shown with many blue suits. Other navy ensembles have accessories of sulphur yellow, a color similar to chartreuse.

More new notes with navy: Trimmings of natural pigskin leather; gay checked taffeta coat linings which show when the coat swirls open; brilliant floral prints under plain wool coats; knife-pleated plaid skirts under dark blue jackets.

Spring evening gowns often have a short-sleeved square-shouldered bolero or bright jacket with transforms them into dinner frocks. Silk print gowns with very slim silhouette, and floor-length skirt slightly longer in the back.

The solid color nets and chiffons often have great bouffant skirts which measure yards around. A beautiful gray net gown is piped around all the edges with silver tulle.

Nettie Rosenstein puts white tucked organza tops in some of her dark blue dinner dresses, and use white pique in a new way. She stitched inch-wide bands close together on white organza, and then made boleros to wear over dark blue gowns.

The pique bands run up and down, while the thin fabric underneath gives a hemstitched effect, very feminine. Men who saw these gowns said, "I like that."

BIRTHDAY BALL DRESS AFFAIR

Formal evening gowns are to be in order for tomorrow night's ball at the Masonic temple, honoring the birthday anniversary of the country's President. It was announced today by the hostess committee. Santa Ana have decided to make this year's ball quite formal, the men wearing dark suits or tuxedos, as they prefer, and the women deciding to dress formally for the occasion.

Charles Laughton is to return to the London stage as Captain Hook in a Christmas revival of Sir James Barrie's "Peter Pan." His wife, Elsa Lancaster, will play Peter.

DANGEROUS LANDINGS

By LOIS BULL—Author of 'Captive Goddess'

When Linda Marshall, American girl, is "lost over the Pacific" on a solo round-the-world flight, only a few persons know that she has deliberately disappeared to go to Crab Island, where her uncle, Copernicus Marshall, has established a Utopian community of natives and secretly made a scientific discovery of vast importance. Patrick Flane, supposedly his friend and partner, is plotting against him. Linda, on a secret trip to Hong Kong for her uncle, discovers just how dangerous Flane is, and enlists the aid of Tommy Drew, noted aviator and adventurer. They fly back to Crab Island. A day or two later, Flane arrives on a private submarine. That night, Tommy mysteriously slips out of Marshall's villa.

CHAPTER XXIX

Cautiously, Tommy made his way across the city to the outer road which wound round the outside of the wall. At a certain point he stopped. Yes! There was the tiny white rag he had tossed into the underbrush to mark the place where his practiced eye had glimpsed a path running through the jungle undergrowth toward the shore below.

A few minutes later, Tommy stood on the beach. His heart beat with excitement! His guess had been right. He had noticed the huge rock standing in front of this cave as they had driven around the island—a huge flat boulder which, at high tide, hid the entrance to the cave, but at low tide, formed an archway. For the pounding of the water on the boulder had eaten away a hole just large enough to permit a man to enter when the water had receded. And from the opening came an eerie, luminous glow.

Tommy unrolled the cumbersome parcel. It was one of the miner's suits which he had bribed the house-boy to secure for him. He climbed into it, adjusted the helmet with its eye lenses, and walked toward the entrance to the cave.

He stepped inside. The cave was a dazzling arena of blazing light. Like icicles on fire, stalactite formations hung from the ceiling and from the rocky ledges along the sides. This must be the richest deposit of mutatinium as yet unworked.

There was a narrow cat-walk along side of the tunnel. Tommy followed this. Now, the mutatinium was thinning out, and the tunnel was widening.

He reached a point where another tunnel led off to the left. But straight ahead was a great divided wooden door in which glass panels had been set. Through these electric light was gleaming. Tommy crept up and peered in. He had found the secret laboratory!

Standing over the prostrate figure of a man on a low table, was Linda's uncle. He looked from the figure to a clock on the wall. Then, as Tommy watched, the man seemed to wake, as if from an hypnotic sleep. It was Mutatinium! Tommy slipped back his helmet to listen, for the two inside were now talking. Then he noticed that the swinging door was not locked. Silently, he bent against one half and it parted just enough for him to hear Mutatinium saying:

"Master! I have been asleep a long time."

"But now you are awake. I have done everything I know to keep you from dying at your appointed time. In you, I have tried to reach the highest perfection of which I am capable. Exactly thirty years ago, at midnight, you were born, decreed to live until midnight of this day. But you, the most perfect of my experiments, must live on."

"But master, you would have me live beyond my time? I am ready

to die and wish it. Have you not taught us never to fear death when our time comes? Have I failed to accomplish that for which I was born?"

"Ah, no, Mutatinium. You have succeeded far beyond my hopes. You are the perfect scientific brain. But this is another lesson you must learn. If one finds something that appears to be perfect in life, there should be no death to deprive the world of it. I have done all I know to give you life without death. If the clock strikes midnight and you are still alive, I have succeeded and I shall be ready to give my life-ray formula as well as the perfected plant formula to the world."

Majestically Mutatinium rose and walked toward the wall. His finger reached out and touched a button. A stone panel slid back revealing a doorway. Only a few seconds now remained until midnight.

Mutatinium turned and said, "I have willed, master, that you shall fail. Farewell!"

He turned and started to pass

Home Service

What Every Woman Wants to Know

Wedding bells for John and Dorothy! How did she manage it? For it's taken for granted that woman helps Cupid.

She's very lovely but it's more than beauty. The girl's clever. When John first called did she show him that she was dying to be alone with him? No, they chatted with the family, then listened to the radio. Sometimes—when he asked for a date—she arranged a jolly forenoon.

When he invited her to a movie and dancing afterward, she was sympathetic, interested, flattered him a bit when he talked about himself. She even asked his advice—the pretty minx. Soon he was started altarward.

Learn from our 32-page booklet the secrets of attracting the right man, fascinating him, winning his devotion. Hints on love, courtship, marriage, psychology of sex attraction.

Send 10 cents for your copy of How to Win and Hold Love to The Journal Home Service, 117 East Fifth street, Santa Ana, Calif. Be sure to write plainly your name, address, and the name of booklet.

VOTE STEEL DIVIDEND
NEW YORK (AP)—Directors of United States Steel Corp. have declared a dividend of \$1.75 on the preferred. For the fourth quarter of 1936, net income available for dividends was \$20,650,780, the best for that period since 1930.

through the doorway. But at that moment, the first stroke of the clock sounded. Horror-stricken, Tommy saw the figure of the man droop, slowly at first. Then, with a sudden jerk, he fell forward and collapsed at the feet of Marshall. It was exactly midnight!

Unable to keep silent longer, Tommy burst into the room. For an instant, anger flashed in Marshall's eyes. Then, with resignation, he said:

"You are a clever man, Thomas Drew, to have found your way here. And I am glad, for now you will understand why I cannot give my life-ray formula to the world. I have failed. I had hoped that I had found the secret of how to make a man live beyond his allotted time—how, with that eternal life, to give him eternal youth. I have failed."

"But the plant formula?" said Tommy.

"Ah! That is a complete success!"

"That is just what I have been waiting to hear!"

Both men started as the voice of Patrick Flane broke in upon them. They turned to see him standing there, a diabolical leer on his face. Beside him stood two Mongols, gigantic in stature, each holding a gun pointed directly at them.

"I have come for that formula," Flane continued. "I have received money in advance for it, and within a week, I must deliver it."

"How unfortunate!" Marshall said, a calm smile spreading over his face. "Because, of course, you have received money for something that you cannot possibly deliver without the unanimous vote of three men."

"Nevertheless," Flane replied, "I have come to get that plant formula, and I mean to have it. I care nothing for the other. That is just a fool's illusion, tampering with human beings!" He looked significantly toward the body of Mutatinium. "Your experiment, I see, has failed!"

He gave orders to his two minions to take the Oriental's body away. While this was being done, he himself kept Marshall and Tommy covered with the two guns. In a short time, the Mongols had returned.

"Who are these strangers?" Marshall demanded.

"They are men who are here to help me. The submarine is now manned by my men, Marshall. Your only course is to give me the formula."

"That I shall never do!"

"We'll see about that!"

Flane gave a few orders. Before Tommy could put up even a semblance of a fight, because of the unwieldy suit he was wearing, he had been stripped of it, gagged and bound. With brutal force the two Mongols pushed him through a small doorway into another cave adjoining the laboratory. It was dark, and he could see nothing.

Suddenly, a heavy hand pressed something to his nose. The sickish sweet odor of chloroform! He held his breath until, with lungs bursting, he knew that he had failed. A drowsiness was stealing over him.

Then, Marshall was thrown in beside him. Again that sickish sweet smell. He could no longer fight against the overpowering drug. The last thing he heard was the clang of an iron door. Bound and gagged, Tommy and Marshall lay side by side, two senseless heaps in a subterranean cave. (to be continued)

AUTO POLISH SUIT ASKS \$500,000

A \$500,000 damage suit over auto polish was on file in superior court today.

Plaintiffs in the action are the Kulr Kote Distributing company and A. B. Miner, general partner in the firm, who are suing George N. Darlington, San Pedro; David Craig, wealthy Australian, and a group of individuals including E. M. Lempe, distributors for Los Angeles county.

Darlington is manufacturer and holds an agreement on distribution of Kulr Kote. The suit asks the court to determine if rights in an agreement between the plaintiff and Darlington have been broken or not, as contended by Darlington.

The complaint said that the firm abandoned the retail business to engage in wholesale business, which included the setting up of special divisions where trained persons could apply the product to automobiles.

The complaint charged that Darlington shipped the Kulr Kote firm 2000 cans of inferior product to injure the firm's business.

Actual damages of \$250,000 were asked, with the addition of \$250,000 in punitive damages.

The U. S. army maintains two well equipped air fields in the Canal Zone, France field on the Atlantic side, Albrook field on the Pacific.

SET DATE FOR LEAGUE RALLY

Final plans were being prepared today for a county-wide Epworth League rally, to be held in the Costa Mesa Community church Friday night, Feb. 5.

Hugh Davis of Santa Ana is general chairman of the affair, which will feature as speaker, The Rev. Gordon Chapman of Westwood Hills Methodist Episcopal church, speaking on "Unfinished Business."

More than 400 young people of 10 county communities are expected to attend the event. Music will be in charge of Oris Sanders and Winifred Christie, who will furnish instrumental numbers.

U.S. Trade Balance Smallest Since 1893

WASHINGTON. (P)—The commerce department reported today that exports exceeded imports by \$34,258,000 in 1936—the smallest export balance since 1893.

The department said exports for the year aggregated \$2,453,487,000, an increase of \$170,613,000 over the previous year. Imports were set at \$2,419,229,000, or \$371,744,000 higher than 1935.

Listed as causing the advance in imports were the drought, a faster increase in prices of imports than of exports, greater improvement of purchasing power in this country than in the rest of the world and the maritime strike.

NEW YORK LOS ANGELES SAN FRANCISCO OAKLAND SACRAMENTO

Floods, Strikes Hamper Market

NEW YORK. (P)—A shiftless stock market today gave support to specialists but permitted most of the leaders to drift indefinitely.

Strikes and flood damages still tended to cool the buying spirits of speculative and investment forces and the trading pace was unusually slow. Prices were erratic near the fourth hour.

A new sit-down strike closed the Goodrich factory and rumblings from the General Motors controversy seemed a bit more ominous.

Poultry Market

LOS ANGELES.—Yesterday's closing prices on the poultry market follows:

1—Hens, Leghorns, 3 1/2 to 4 lbs.	13c

CITIES SEEKING LIQUOR POWER

Discussion of state bills affecting municipalities featured a monthly meeting of the League of Orange County Municipalities last night in Fullerton.

Mayor Charles Mann of Anaheim, first vice president of the state league, said one of

Martha Meade

Well-Known Radio Food Counselor

SUGGESTS:

RHUBARB AS A SPRING TONIC

For as far back as I can remember the coming of the new year has meant that rhubarb time is at hand. Great bowls of strawberry-pink "sauce" were always on the breakfast table and Sunday night supper wasn't complete without rhubarb as a finisher-upper.

Of course, grandmother called it pie plant and considered that sauce and pie were the only two uses for it. Mother on the other hand made Rhubarb Betty and upon occasion a rhubarb short-cake. And just the other night a friend of mine served a most delicious rhubarb relish with her baked ham! It was so good to eat and so beautifully glazed that I couldn't refrain from asking point blank for the recipe. And here is how she made it.

Rhubarb Relish
Place 2-inch pieces of rhubarb in a baking dish; sprinkle with sugar, cinnamon and cloves. Just enough vinegar is added to cover the bottom of the dish. Bake until tender, being careful not to disturb the rhubarb, so that it may remain intact. Thoroughly chill before serving.

For shortcakes mother would often combine crushed pineapple with the rhubarb sauce and pour it over tender flak, biscuits. Here is her recipe for Rhubarb Betty.

Rhubarb Betty
2 cups fresh bread crumbs (or small cubes stale bread)
3 cups rhubarb cubes
3/4 cup brown sugar
1/2 cup water

Combine and place in a casserole. Bake in a moderately hot oven until rhubarb is tender and top is browned. Instead of always cooking rhubarb on top of the stove try baking it some time when the oven is in use.

Baked Rhubarb
Sprinkle 1 cup sugar over 2 cups of 3-inch stalks of rhubarb and bake until tender in a moderately hot oven, 375 degrees, in a covered dish. The baking helps hold the shape of the rhubarb and by not adding any water, the rhubarb will be firm.

If the rhubarb is the kind which becomes extremely watery when cooked, strain off the excess liquid and use it to baste roast ham. It gives a delicious new flavor to the meat and to the gravy. And rhubarb adds a note of

color to a creamy tapioca pudding for dinner.

Rhubarb Custard
To 2 cups cooked rhubarb add 1/2 cup strawberry or raspberry jam. Place a generous spoonful in the bottom of each sherbet glass and top with a soft cooked custard or tapioca cream.

Here is a new version of rhubarb pie. Combined with gingered pears it is good looking and tasty.

Pear and Rhubarb Pie
4 cups uncooked sliced rhubarb
1 cup pear juice
1/2 cup sugar
1/2 teaspoon salt
1/2 teaspoon ginger
1 slice lemon (1/4-inch thick)
2 tablespoons gelatine dissolved in
1/2 cup cold water
1 8-inch baked pie shell
6 pear halves, drained (No. 2 1/2 can)

Combine rhubarb, pear juice, sugar, salt, ginger and lemon. Bring to a boil and cook until rhubarb is tender, about 10 minutes. Remove lemon slice and add gelatine. Pour 3/4 of mixture into the baked pie shell. Place pear halves, hollow side up with tips toward center, on top and cover with remaining rhubarb mixture. Set aside in cool place until firm. Garnish with whipped cream if desired. Six servings.

Garden Secrets

By Willis Cadwallader of Blanding Nurseries

"Love's hour stands. Its eyes invisible. Watch till the dial's thin, brown shade. Be born—yea till the journeying line be laid Upon the point."

—Dante Gabriel Rossetti.

During the past few years, the use of sundials has been dying out, to be revived again at the present time with a renewed interest.

A century or more ago, in almost any garden, could be seen a pedestal of one of many varieties of sizes, shapes, and materials, surrounded by sundials.

The most primitive mode of knowing the hour of midday was by the "noon mark," a line drawn where the shadow fell at noon. Time could be approximated closely by the distance of the shadow either side of this mark.

The art of dial making was noted among the Italians and was much used in England, Holland, and Scotland, the latter country holding special classes in sundial reading.

Inscribing of mottoes on sundials seems to have arisen with dial making, the dials providing a conspicuous place for some particularly beautiful inscription.

A few of the more common verses noted on dials are "Mind Your Business," "As a Shadow Such Is Life," "I Count None But Sunny Hours," "Man Is Like a Thing of Nought, His 'Time Passeth Away like a Shadow.'"

Perhaps the original location of the sundial was by the kitchen window, where it would be handy for milady in her duties about the house; but later it came to be an objective point from the window door, the central point of radiating axes, or the object of a vista, serving always as a beautiful addition to a garden.

The Sundial As We Know It
The texture of the material used in any object is very important. Some may be constructed of a fine material, whereas other objects must be of coarser mold to give the effect of nature. The sundial is a man-made thing, and as such should be used as a particular feature of the garden, to stand alone as an object point.

Some objects are made to be viewed from one side only, used in niches or in shrubbery borders; but the sundial, because of its completeness from any side, may be used effectively as a central or radiating feature.

The base planting may be of lawn, or a perennial bed, low growing shrubs, a vine, or a low growing specimen plant. In the planting too, it should be remembered that a complete picture must be formed from any side.

Brush Curls For True Hair Beauty

By JACQUELINE HUNT

Nothing is so beautiful and thrilling as a head of shining, silky hair, simply and tastefully arranged. Such hair may take a lot of brushing and quite a bit of patience, but every girl can achieve it.

The new hair styles are all in your favor. They are flattering to everyone. And they are always a contrast of soft curls and head-molding smoothness. You may wear your hair swept backward and upward toward the top of your head or forward over your forehead, but if you want it to be smart and new it must hug the crown of your head like a silken skull cap.

Such contrast means beauty. Waves and more waves or all curls are monotonous and never exciting. Fortunately, all of the leading hairdressers are getting away from them.

The deep, round curls that encircle your head or are placed where they will give the most charming effect can be made with fairly short hair. The hair is thinned and layered so that it is nearly always of uniform length all over your head. The soft, smooth curls can be made to lie flat if they are properly patted down and a few tiny hairpins are used.

Modifications of the old pompadour are becoming increasingly popular. Bangs are also seen, but they are brushed into smooth rolls or curls and worn high.

Fritters Are Good Made From Squash

By JUDITH WILSON

Here is a southern vegetable course that is delicious, especially with a chicken dinner.

Combine 1 cup grated squash, 1/2 teaspoon grated onion, 1/2 teaspoon salt, a few grains sugar, 1 teaspoon sugar, 3 tablespoons flour 1 well beaten egg and 1 teaspoon melted butter or cooking oil. Drop by tablespoons onto a greased griddle. Fry on both sides until golden brown.

In life it is difficult to say who do you the most mischief—enemies with the worst intentions, or friends with the best.—Seneca.

Vol. 2, No. 232

EDITORIAL PAGE

January 29, 1937

This newspaper stands for a reunited people, for independence in all things political, and for honest journalism in its news and editorial columns.

Santa Ana Journal

Published daily except Sunday by Santa Ana Journal, Inc., at 117 E. Fifth Street, Santa Ana, Calif. E. F. Elstrom, president and business manager. Braden Finch, vice president and editor.

Subscription rates: By mail, \$6 a year; by carrier, 50 cents a month; from newboys and news stands, 2 cents a copy. Entered as second-class matter May 1, 1935, at the postoffice at Santa Ana, California, under the Act of March 3, 1879.

MEMBER OF THE ASSOCIATED PRESS

The Associated Press is exclusively entitled to the use for publication of all news dispatches credited to it or not otherwise credited to it in this paper, and also the local news published here.

National advertising representative: West-Holliday-Mogensen Co., Inc., New York, 21 East 40th Street; Chicago, 390 N. Michigan Avenue; San Francisco, 220 Bush Street; Detroit, 308 West Grand Boulevard; Los Angeles, 433 S. Spring Street; Seattle, 603 Stewart Street; Portland, 520 S. W. Sixth Avenue; St. Louis, 411 N. Tenth Street. Copies of The Journal may be secured at any of these offices, where full data regarding the Santa Ana market may be had.

Wanted: Streamlined Weather

WHAT this country needs is some streamlined weather instead of the old-fashioned rough and tumble kind.

Floods are raging in the Ohio and Mississippi valley, the like of which only Noah knew.

Farmers in Georgia are packing ice around peach trees to keep them from thinking it is spring and bursting forth in bloom.

Snowdrifts threaten cattle with destruction in Utah. The dust bowl is still dry in many spots.

And cold weather in our citrus belt has kept the smudge pots burning almost every night this year.

It reminds us of Mark Twain's famous weather prophecy. Remember?

"Probably nor'-east to sou'-west winds, varying to the southward and westward and eastward and points between; high and low barometer, sweeping round from place to place; probable areas of rain, snow, hail and drought, succeeded or preceded by earthquakes with thunder and lightning."

What's the matter with the weather? Maybe President Roosevelt should give it a New Deal. Or maybe the supreme court should declare it null and void.

Senator Pittman says Europe is going to have a war. What does he call the Spanish mess? A Sunday school picnic?

Don't Sell Orange County Short

DESPITE the freeze and the damage to oranges (which probably isn't as high as it has been estimated, Orange county ranchland continues to attract many new investors.

Here are a few deals that have been completed since the arrival of the cold wave earlier this month:

W. F. Stroschein pays \$16,000 cash for Cubison 10-acre grove.

Charles A. Hill pays \$2,000 an acre for 2 acres from Earl Abbey and Basil Smith.

Adolph Pigel pays \$10,500 for 4.5 acres belonging to G. C. Bradford.

Walter J. Thompson buys 25 acres of citrus at San Juan Capistrano from Carl Hanky.

And there are many others.

With citrus acreage moving like that, it doesn't look as though investors are worried over the future of local agriculture—freeze or no freeze.

They aren't selling Orange county short!

If all the flu victims took all the advice they get from people who give advice on flu—they'd be a lot sicker.

New Terror in Moscow

THE old Bolshevik revolutionaries of Red Russia—until recently revered as saints in Soviet land—are being "liquidated" in a reign of terror in Moscow that makes the Benedict Arnold case seem mild in comparison.

It is becoming apparent, even to supporters of Dictator Stalin, that the "treason" trials either are phoney or that the old-fashioned Bolsheviks were men of unbelievably low character—murderers, traitors, liars and cheats.

From the way the matter is progressing, probably Lenin himself would be shot by the government today.

Of course, we know nothing of the facts about the case—all the news comes through official censors.

But whether Stalin is justified or not—he will excite worldwide horror unless he accedes to the demand that the "treason" trials be submitted to an impartial international committee—instead of to a packed and prejudiced Soviet court.

Aiding the young man's fancy, Hollywood designers says that skirts will be even shorter next spring.

Chiseling on Relief

AT a time when thousands of Americans, who really need aid, are viewing with alarm the plan to cut down relief appropriations, it's aggravating to read such items as these:

NEW YORK—In a safe deposit box rented by a relief recipient here, \$250,000 in diamonds were found.

SARASOTA, Fla.—Mrs. M. B. McLain, a 72-year-old relief client who was reputedly the first woman to reach the Yukon during the Klondike gold rush, has been found to possess a fortune in diamonds, pearls and rubies in her home.

Such stories dramatize the chiseling which is taking place in greater or less degree throughout the nation.

If all the chiselers could be dropped from the relief rolls, it is quite likely that the savings effected would care for all our really needy citizens and leave enough over to slice taxes besides.

Why do they call them battleships? During the world war all they did was keep out of battles.

Plenty of Work for 1,000 Men

IF Orange county voters are as smart as we think they are, there'll be plenty of work this year for those 1,000 additional WPA jobs which Administrator Dan Mulherron is asking from headquarters on account of the freeze cutting down ranch labor needs.

Those extra jobs will be on the Prado dam in the \$13,000,000 flood control program.

The way it looks now, the bond issue necessary for this county will be considerably less than \$2,000,000—with the federal government putting up the rest of the money.

Orange county voters are a canny lot. They'll never pass up a bargain like that. And they'll help furnish jobs for 1,000 men.

From Leap Year in 1936, we have progressed to Sit Down year in 1937.

Whimsies of O. O. McIntyre

O. O. McIntyre

Thoughts while strolling: Why not scrap for a spell the torch singers, off-pitch crooners and im plays? And substitute a little of the jovial slap-stick of English music halls with some tunes and lyrics no more complicated than The Good Old Summer Time?

Look alike: Randolph Scott and Eddie Peabody. Add highly efficient private secretaries: Julia Kelly of the Hays office. Crack play ballyhoo: Nat Dorfman. The Countess Abby who wears shoes without heels. And over in Europe there are a few countesses who haven't even shoes.

With long white hair and whiskers Hendrik Van Loon would make a peachy Santa Claus. And with a stovepipe hat and sideburn, Dudley Field Malone, the John Bull on Punch's cover, Fifth Avenue's best dressed clerk, Albert Mander. And does he wears tight collars?

When bussier coiffures are worn, Peggy Fears will have one. Highly talented Arturs: McKeogh, Samuels and Barm. From the Folies to Othello at the New Amsterdam. A big gap in film fare until W. C. Fields gets on the job again. Grinding teeth sort of name: Crosby Gaige.

Rhymes: Mae Murray is a gal in a hurry. And Bill Corum is a one-man forum. All the dolls doing their hair in the middle—the Simpson influence! Or is it Lynn Fontanne's? That pop knocking me over to keep a date at the Ritz. Hope he gets whirled silly in a revolving door or something.

The town now has a cafe dance place devoted entirely to the rumba. A Cuban friend tells me the correct pronunciation, despite radio blating, is "room-bah." The new spot started off auspiciously and is going great guns. It depends very little on the Cuban clientele. Many of the local fast-stoppers have eschewed the graceful tango for the newer epilepsy.

Nazimova in her bleak Isen plays has acquired a personal following as definite as that of Ruth Draper, the mimic. When she appears in Hedda Gabler, Ghosts or the like she is assured of a packed house for several weeks. It's a cultured audience, long lost to the theater. Everybody hangs on her words. The old you-could-hear-a-pin-drop atmosphere. And at the conclusion, sans claue, the sincerest applause to be heard in the modern theater.

No man in the public eye today to my notion has the magnificent carriage, superb stride and noble serenity of Gen. John Pershing. He could easily go on, without make-up, as the dashing lieutenant in a romantic musical show and pitter patter the hearts of feminine paw sitters. I saw him faring magnificently forth along the avenue recently. Everybody along the thoroughfare, including the bus top riders, turned as on a pivot to watch him out of sight. And if he was not totally oblivious he is a grand actor, too.

Next to General Pershing and for his years, the late De Wolf Hopper had the most commanding carriage to be seen on the high ways. The Ritz's Albert Keller is another headturner when he gets into the stride of his Park avenue promenade. Among the actors William Gaxton is regarded as having an athletic physique on and off.

(Copyright, 1937)

JUDGE STUMP

Dear Judge: Did anyone ever live to a ripe old age without telling the newspapers it was because of some habit that would kill a normal person in his youth?

S. G. E.

Uncle Remus Stump, who lived to 107, never claimed any particular habit. He said sometimes he drank corn liquor and sometimes mounain moonshine. Sometimes he smoked tobacco. And sometimes he chewed. He said he liked four meals a day but if he got only three, he doubled up on dill pickles (who wouldn't?) at breakfast next day. He usually slept without blankets in the winter. But he wouldn't attribute his age to anything unusual.

STUMP.

Meet Your Neighbor

The Journal's Compilation of Orange County People You Should Know.

Name:—Mr. and Mrs. Paul S. Carnes.

Occupation:—Orange County Distributor, Chrysler Air Conditioning.

Home Address:—2325 Riverside Drive, formerly Orin Robertson's. Been living in Shanghai, China port eight years, chief engineer of an American cold storage and refrigeration firm.

What is your hobby? Used to be horseback riding, until hurt my back in a paper chase on Christmas Day 1934.

Incidentally, used to be a newspaperman—Kansas City Post and Detroit Times.

Considered offers the greatest opportunity to young men and women? Wish I knew.

What bit of news has interested you most recently? Flood in

East. Similar to those I've seen in Yangtze and Yellow rivers in China.

If you were editor of the Journal what one change would you make in the paper? Complete financial news.

What one thing would help Santa Ana most? Too new here to offer any suggestions as yet.

What in your judgment is the most important problem facing the world today? Why? Adjustment of world trade situation before ridiculous tariff and other trade barriers bring on another conflict. (I used to be a high tariff protectionist, but have lived where it was so easy to observe that when ships stop trade one way, they soon stop in other direction. Japan needs North China so she can stop being U. S. A.'s best cotton customer).

What is your opinion of the situation in the world today? Why? Adjustment of world trade situation before ridiculous tariff and other trade barriers bring on another conflict. (I used to be a high tariff protectionist, but have lived where it was so easy to observe that when ships stop trade one way, they soon stop in other direction. Japan needs North China so she can stop being U. S. A.'s best cotton customer).

EVERYDAY MOVIES

By Denys Wortman

"At the store a specialist tells yer what type beauty yer are, and sells yer the make-up for yer individuality. It's marvelous!"

The Merry-Go-Round

By DREW PEARSON and ROBERT S. ALLEN

WASHINGTON.—Laborists and senate liberals are agitated over an authoritative report that Donald R. Richberg, one-time NRA boss and "assistant president," has the inside track for appointment to the first vacancy that occurs on the supreme court.

Intimations that Richberg's name heads the President's list of supreme court possibilities have been current for some time.

But because of his pronounced unpopularity with senate liberals and labor, the reports at first were not taken seriously. With these two powerful groups aligned against him, it was considered unlikely that the President would risk a vitriolic senate debate by naming him.

In the last week, however, confirmation of the report has come from an inner White House source whose reliability is beyond question.

Labor hostility toward Richberg goes back to his scuttling of setting 7A, the famous collective bargaining provision of the NRA. For this labor assailed him bitterly. On one occasion John L. Lewis, head of the militant committee for industrial organization, refused to have his picture taken with Richberg.

It is entirely possible that discreet warning may be given Roosevelt that if he names Richberg to a vacancy on the court, senate confirmation will be fought tooth and nail.

LOST PICTURE

Of the nine members of the supreme court, Justice James Clark McReynolds is chiefly noted for his churlish disposition.

He refuses to lunch with his colleagues, and when Justice Cardozo was sworn into office, McReynolds ostentatiously read a newspaper. On another occasion, Justice Stone was so offended at a remark made by McReynolds that he left the room.

McReynolds also entertains no great love for Chief Justice Hughes, and while playing golf the other day, a companion remarked to McReynolds that it was odd there had been no new picture of the supreme court for several years. To this the justice smiled and replied:

"Shortly after we moved into the new building, the chief justice thought we ought to have a group picture made of the entire court seated in the new quarters. You know, he loves to see his picture in the paper."

"However, I didn't say anything, and he went ahead and made the arrangements for the photograph. But when the day came for the picture taking, I just didn't show up, so they couldn't take it!"

BOOKKEEPING

Out of the \$790,000,000 deficiency relief appropriation now before congress, the treasury will get \$20,000,000 merely for keeping books on the expenditure.

PRESIDENTIAL ASPIRANT

No Democrat on Capitol hill is more dogged in his hostility to the New Deal than Senator Harry F. Byrd.

Because he is a poor speaker and shrinks from noisy antics, the opposition of the aristocratic Virginia is far less publicized than that of his late colleague, Huey P. Long. But while less known, it is just as virulent.

Behind this attitude is a secret ambition.

Byrd burns with desire for the presidency. Forty-nine years old and the possessor of a famous name, he considers himself equipped with all the appurtenances necessary for the Democratic nomination.

Also, Byrd is convinced that by 1940 the current liberal trend will have petered out and there will be a strong demand for a conservative.

So in his quiet, tenacious way he is pounding at the administration, building himself up in the public mind as a champion of economy and a foe of governmental spending.

This is the inside strategy behind his crusade for government reorganization.

Actually, Byrd is not a recognized authority on the federal system. His facts and figures are supplied by a group of hired researchers, and his idea of revamping the government structure is nothing else but a wholesale discharge of government workers with an arbitrary slashing of expenditures.

PRIZE GLASS

Collecting the water tumblers used by President Roosevelt during his appearances on Capitol hill has become a major congressional pursuit.

Congressmen scramble for the glasses like joyous collegians for the goal posts of a football team. When the President left the house rostrum after his message to congress, a dozen members jostled each other for the tumbler from which he had sipped during his speech.

The slashing, cold deluge during the inaugural ceremony drenched onlookers and participants to the skin, but it did not dampen the ardor of the tumbler collectors. As the President turned to depart they rushed for his water glass.

Representative Harry Haines, chairman of Pennsylvania's large Democratic delegation, emerged victor in the race. And it is putting it mildly to say he is proud of his triumph and trophy.

MERRY-GO-ROUND

In his early youth G-Boss J. Edgar Hoover seriously considered studying for the ministry in order to "elevate the morals of young men and women."

Representative Robert R. Kerr, Illinois Democrat, has turned over the copyright on his book, "Prosperity Through Employment," to institutions for the blind. The volume will be printed in Braille for the sightless.

(Copyright, 1937)

The Mailbag

This department belongs to The People. Letters to the editor on various subjects are welcomed and will be published, provided they do not contain abusive and personal references. Their publication does not necessarily imply the opinions they express are shared by The Journal. Letters must be signed, although signatures will be omitted upon request.

POTTERS FIELD

To the Editor: It makes one's heart hurt the way life is juggled around and death is laughed at. It may be all right if the person who dies can do his own laughing or crying—and is ready.

But it is pitiful to have persons who are without pity or respect for the dead or the ones who are left to mourn.

Maybe someday it will come home to them. We hope not.

May I draw a picture in words? The hearse is coming into the cemetery. It stops at a yawning hole. The pall bearers are putting a rough looking box down over the hole. Slowly a man comes up, followed by four small children.

In the box is the mother of those children.

One of the children screams: "Daddy, there are those men with shovels ready to cover up mama with dirt. And they aren't sorry at all. See they are laughing and joking and smoking cigarets." This is a horrible picture, but how easy it could be true.

Friends, do you wish for this treatment to enter your family or anyone else's? Put yourself in the unfortunate one's shoes. You may be next.

L. S. SHARP,
2064 Bush street.

Journalaffs

By ART SHANNON

Howdy, folks! Scientists now think the earth is a billion years old. This is pretty old, so probably what ails the world today is second childhood.

Another thing this country needs more men who cannot make after-dinner speeches and know it.

CULINARY QUERY

Dear Homer: How do foreign dishes compare with American ones?—Reader.

Oh, they break just as easily.

A university scientist declares that ants move faster in summer than they do in winter. Of course, they don't have to hurry to picnics in winter.

UNHEARD OF

Prospect: And what's the cash price of this car?

Salesman: Why—er—I don't think it has one.

Once upon a time there was a literary critic who, in 20 years of reviewing books, never described a novel as "running the gamut of human emotions."

The trouble with most of our foreign debts, it seems, is that we don't look closely enough at the collateral.

"What kind of time did you have in New York?"

Standard time."

Take Next Car.

Bright Moments

William Gladstone, the famous English statesman, had been named as a speaker at a certain meeting which had drawn a great assembly of the great and near-great. He was nervous to the extreme, and was pale and anxious.

At his right as he sat at the table was a tumbler of egg and sherry from which he sipped from time to time. Seated below him was an Irishman, who finally catching his eye, whispered: "Misther Gladstone, will ye give us a drop of that?" Without cracking a smile, Gladstone replied: "Sir, if you were up here you would want it all."

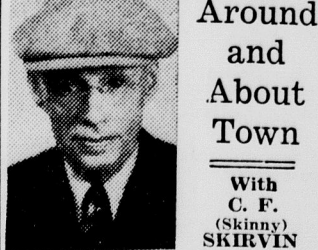

Burning pyrethrum powder is an effective method of killing mosquitoes, according to the college of agriculture, University of Illinois.

Gordon Couch says there is a contemplation prevailing among heads of the drapery plant cloth departments to persuade the manufacturers to create a new shade called the orchard smudge. The smudge tan may not be popular in Southern California, but it is a cinch we can't deny it.

And I don't believe this story, either: Nursery gets an inquiry if they have 1000 orange trees. The reply is in the affirmative. All right, says the inquirer, I'll take 'em all. If you can raise 'em here I can raise 'em in Montana.

I've been almost persuaded to write Frank Harwood an open letter re: President's Birthday Ball tickets, assigned to my care and salesmanship. The care is all right but the entire bunch of tickets to the Breakfast club found everybody supplied, or else old man veracity was on a vacation. As the situation now stands it looks like a reasonable chance for me to return the tickets from where they came. If everybody I have contacted has a ticket to the ball there won't be room enough to accommodate them, provided the tickets are all sold. Some sales were probably voided on account of the flood. We don't have the President's ball and a flood at the same time.

Skinny Skribbles

Around and About Town

With C. F. SKIRVIN

There has been brought to my attention the '98 Rah of the Santa Ana High school, conceived in scholastic iniquity and jealousy, expressed, my confidant believes, by Ted Stephenson, who had a consuming ambition to serve some raspberries to the class of '97 among whose students appears the name of one B. Williams, of whom he makes the following reference: "Mr. B. Williams, '97, is about to publish a new work on finance, entitled, The Art of Shifting Debts and Dues. As Williams has made great personal investigation, his book is awaited with compound interest." Out of the dusk comes some very interesting and pertinent items. All right, Doc, I'm sending the pamphlet back to you. Thanks for the literature and what it contained.

The party operating a milk truck who sideswiped Pat Kelly's car in front of the Main Cafeteria Thursday morning and drove on, should drive back and tell him about it.

Most everybody seems to be trying to invent some destructive device for war purposes, and too few inventing some method to prevent it. Instead of dropping missiles of death, why not drop a few bibles which teach the way of life?

Portugal has had the worst storm in fifty years. Everything seems to be going in extremes. Even our presidential election swung away out of line.

Following the rule of getting rid of a nuisance by process of elimination, I would like to dispose of those automobile drivers who ignore the traffic regulations of stopping in those zones so marked when pedestrians are crossing. That regulation means just as much to many drivers as the automatic stop and go signals at intersections. To others it means the pedestrian crosses at his or her own risk. Be it to the credit of most of the drivers the rules are observed and the safety of pedestrians respected. How in the dickens are we going to cut down the number of highway fatalities unless everybody respects the rules?

Sign in Betty's Cafe: "Frozen Sunshine." And I can believe it.

Don't tell me that a mother's intuition isn't valuable. When Tim Lowery's mother sent him some money last summer for his birthday present with the request that he buy himself some winter underwear that she didn't have a hunch about what was going to happen in California.

Proclamation: On and after February 1, 1937, I will not service patrons of this department who request back copies. It's tough enough to write it, without having to look back over it for some one who "did not see."

Harry Carter, who looks back over 40 years of Orange county history, refuses to take the count in the recent frost damage, and in his opinion the loss sustained is greatly exaggerated. He says he has inspected more than 300 acres of Valencia groves and the maximum damage will not exceed 25 per cent, and he believes it will be nearer 15 to 20 per cent. I was gratified to encounter this apostle of optimism, as most of my other contacts had taken a somewhat gloomier view of the situation.

The fellow who invented flu also invented an extensive circulation system. His distribution is the envy of every newspaper circulation manager in the country.

Gordon Couch says there is a contemplation prevailing among heads of the drapery plant cloth departments to persuade the manufacturers to create a new shade called the orchard smudge. The smudge tan may not be popular in Southern California, but it is a cinch we can't deny it.

And I don't believe this story, either: Nursery gets an inquiry if they have 1000 orange trees. The reply is in the affirmative. All right, says the inquirer, I'll take 'em all. If you can raise 'em here I can raise 'em in Montana.

I've been almost persuaded to write Frank Harwood an open letter re: President's Birthday Ball tickets, assigned to my care and salesmanship. The care is all right but the entire bunch of tickets to the Breakfast club found everybody supplied, or else old man veracity was on a vacation. As the situation now stands it looks like a reasonable chance for me to return the tickets from where they came. If everybody I have contacted has a ticket to the ball there won't be room enough to accommodate them, provided the tickets are all sold. Some sales were probably voided on account of the flood. We don't have the President's ball and a flood at the same time.

One Man's Opinion

By X REPORTER

"You lift your telephone," says the leaflet, "you speak a word to the nearest X. & Y. Z. railroad freight agent. A competent local trucker, acting for the railroad, calls at your store, factory, mill or home. He takes your shipment and turns it over to the railroad. A swift train speeds it to its destination. Another trucker at once delivers the shipment to the door of your consignee."

"For this great convenience you pay no extra charge!"

And that, ladies and gentlemen, is the answer of the railroads to a situation that had the rail lines of the whole nation into the dumps just a few short years ago.

Truck and automobile competition caught the railroad fat and lazy and unware. Made lean by a period of starvation, the rail lines tightened their belts and started using their heads again.

The present prospect is that the railroads, having certain advantages in the matter of safety and comfort for passengers, speed and convenience for freight shipment, are undergoing a progressive change that may put them well forward toward the position they

used to occupy by reason of a natural monopoly of the transportation business.

The two paragraphs quoted are from a neat and politely boastful booklet broadcast by an eastern railroad—the name of which is not the X. & Y. Z. Here's another quotation that completes the picture: "While the improved form of service presents many advantages of the patron, the railroad also expects to benefit. It is anticipated that the attractiveness of the service will result in materially increased revenues, both gross and net. Moreover, the methods by which package or less-than-carload freight is handled in pick-up and delivery permit the railroad to effect many economies in operation, including greater concentration of freight station facilities, simpler operations at stations by transfers, lower switching expenses, heavier loading per car and less loss and damage. It is estimated that these economies, together with the increased traffic from the improved service, will much more than offset the trucking cost."

Go to it, railroads. Stage a real comeback. Long live Casey Jones!
